Gods Own Junkyard The Planned Deterioration Of Americas Landscape:

God's Own Junkyard Peter Blake,1979 **The Bulldozer in the Countryside** Adam Rome,2001-04-23 The concern today about suburban sprawl is not new In the decades after World War II the spread of tract house construction changed the nature of millions of acres of land and a variety of Americans began to protest against the environmental costs of suburban development By the mid 1960s indeed many of the critics were attempting to institutionalize an urban land ethic The Bulldozer in the Countryside was the first scholarly work to analyze the successes and failures of the varied efforts to address the environmental consequences of suburban growth from 1945 to 1970 For scholars and students of American history the book offers a compelling insight into two of the great stories of modern times the mass migration to the suburbs and the rise of the environmental movement The book also offers a valuable historical perspective for participants in contemporary debates about the alternatives to sprawl **The Architecture of David Lynch** Richard Martin,2014-10-23 From the Red Room in Twin Peaks to Club Silencio in Mulholland Drive the work of David Lynch contains some of the most remarkable spaces in contemporary culture Richard Martin s compelling study is the first sustained critical assessment of the role architecture and design play in Lynch s films Martin combines original research at Lynchian locations in Los Angeles London and L dz with insights from architects including Adolf Loos Le Corbusier and Jean Nouvel and urban theorists such as Jane Jacobs and Edward Soja In analyzing the towns cities homes roads and stages found in Lynch s work Martin not only reveals their central importance for understanding this controversial and distinctive film maker but also suggests how Lynch s films can provide a deeper understanding of the places and spaces in which we live **Literature of Suburban Change** Dines Martin Dines,2020-03-02 Explores how American writers articulate the complexity of twentieth century suburbiaExamines the ways American writers from the 1960s to the present including John Updike Richard Ford Gloria Naylor Jeffrey Eugenides D J Waldie Alison Bechdel Chris Ware Jhumpa Lahiri Junot Diaz and John Barth have sought to articulate the complexity of the US suburbsAnalyses the relationships between literary form and the spatial and temporal dimensions of the environment Scrutinises increasingly prominent literary and cultural forms including novel sequences memoir drama graphic novels and short story cyclesCombines insights drawn from recent historiography of the US suburbs and cultural geography with analyses of over twenty five texts to provide a fresh outlook on the literary history of American suburbiaThe Literature of Suburban Change examines the diverse body of cultural material produced since 1960 responding to the defining habitat of twentieth century USA the suburbs Martin Dines analyses how writers have innovated across a range of forms and genres including novel sequences memoirs plays comics and short story cycles in order to make sense of the complexity of suburbia Drawing on insights from recent historiography and cultural geography Dines offers a new perspective on the literary history of the US suburbs He argues that by giving time back to these apparently timeless places writers help reactivate the suburbs presenting them not as fixed finished and familiar but rather as living multifaceted

environments that are still in production and under exploration **The Making of the American Creative Class** Shannan Clark, 2021 The Making of the American Creative Class narrates the history of workers in New York's publishing, advertising, design, and broadcasting industries and their efforts to improve their working conditions set against the backdrop of the economic dislocations of twentieth-century capitalism **Intown Living** Ann Breen, Dick Rigby, 2005-02-28 After decades of abandonment, cities across North America are experiencing a renaissance. A new generation is seeking greater excitement and diversity than the typical suburban subdivision offers, and many people are instead looking to make their homes in lively urban environments. In *Intown Living*, authors Ann Breen and Dick Rigby document this movement, arguing that if properly nurtured, it could help slow current patterns of sprawling development and help revitalize America's cities. They illustrate the many benefits of city living and offer strategies and encouragement for public officials and private developers to team up and expand central city housing opportunities. The authors present in-depth studies of eight cities: Atlanta, Dallas, Houston, Memphis, Minneapolis, New Orleans, Portland, Oregon, and Vancouver, British Columbia, that are experiencing this type of renaissance and consider common elements shared by the cities as well as their differences. *Intown Living* is an important new resource for a wide audience of professionals involved with urban design and planning. It will also be of interest to the many people concerned with historic preservation or smart growth and for students and researchers involved with urban studies and related fields **Suburban Alchemy** Nicholas Dagen Bloom, 2001 In *Suburban Alchemy: 1960s New Towns and the Transformation of the American Dream*, Nicholas Dagen Bloom examines the new town movement of the 1960s, which sought to transform the physical and social environments of American suburbs by showing that idealism could be profitable. Bloom offers case studies of three of the movement's more famous examples: Reston, Virginia; Columbia, Maryland; and Irvine, California, to flesh out his historical account. In each case, innovative planners mixed land uses and housing types, refined architectural, graphic, and landscape design, offered well-defined village and town centers, and pioneered institutional planning. As Bloom demonstrates, these efforts did not uniformly succeed, and attempts to reshape community life through design notably faltered. However, despite frequent disappointments and compromises, the residents have kept the new town ideals alive for over four decades and produced a vital form of suburban community that is far more complicated and interesting than the early vision promoted by the town planners. Lively chapters illustrate efforts in local politics, civic spirit, social and racial integration, feminist innovations, and cultural sponsorship. *Suburban Alchemy* should be of interest to scholars of U.S. urban history, planning history, and community development, as well as the general reader interested in the development of alternative communities in the United States **Big Duck and Eastern Long Island's Duck Farming Industry.** The Dr. Susan Van Scoy, 2019 *The Big Duck and Eastern Long Island's Duck Farming Industry* traces the fascinating and largely unknown history of the Long Island Duck, a fixture on the menus of fine dining establishments around the world. The first duck farm, Atlantic Duck Farm, opened on Long Island in Speonk in 1858; however, raising ducks did not take hold until

the Pekin duck breed arrived from China in 1873 Due to Long Island s waterfront properties temperate climate and sandy soil along with modernization of the farming industry duck production grew rapidly increasing from approximately 200 000 ducks per year in 1897 to two million ducks in 1922 By 1940 nearly 100 duck farms were concentrated mainly between Eastport and Riverhead Today due to environmental regulations and soaring costs only one Long Island duck farm survives Corwin s Crescent Duck Farm in Aquebogue However many influences of the Long Island duck industry remain such as the Big Duck a duck shaped building conceived by Martin Maurer in 1931 that was used to sell poultry and duck eggs inspiring the famous term duck architecture

How States Shaped Postwar America Nicholas Dagen Bloom,2019-04-15 The history of public policy in postwar America tends to fixate on developments at the national level overlooking the crucial work done by individual states in the 1960s and 70s In this book Nicholas Dagen Bloom demonstrates the significant and enduring impact of activist states in five areas urban planning and redevelopment mass transit and highways higher education subsidized housing and the environment Bloom centers his story on the example set by New York governor Nelson Rockefeller whose aggressive initiatives on the pressing issues in that period inspired others and led to the establishment of long lived state policies in an age of decreasing federal power Metropolitan areas for both better and worse changed and operated differently because of sustained state action How States Shaped Postwar America uncovers the scope of this largely untold story

Site Matters Carol Burns,Andrea Kahn,2005-07-08 One of the trends in twentieth century architecture and planning has been to denigrate and

ignore the site or larger context both physical and social surrounding a building or set of buildings Focussing on Le Corbusier's designs *Site Matters* presents that first considered theory and vocabulary for the inevitable reaction against Modernism in planning beginning in the 1960s and swelling through the 1980s as architects and planners alike developed a new appreciation of site reincorporating the wider context into their plans Theoretical essays and empirically grounded pieces combine to provide the language and theory of this re emergence of site looking at Le Corbusier's designs contemporary suburbs and the planning agendas involved at the World Trade Center site Groundbreaking and innovative *Site Matters* provides valuable theory and vocabulary for planners and architects *America Builds* Leland M. Roth, 2019-03-01 Architecture requires a broad definition It involves more than simply questions of style esoteric theory or technical progress it is the physical record of a culture's relationship to its technology and the land and most important of the system of values concerning men's relationships with one another Hence this volume like my *Concise Hist* *The Political Culture of Planning* J Barry Cullingworth, J.
