

THE OFFICIAL MOVIE NOVELIZATION

GODZILLA

The background of the poster is a dramatic scene of the San Francisco skyline at sunset or sunrise. The sky is filled with dark, heavy clouds, with a bright orange and yellow glow from the sun low on the horizon. The city's skyscrapers are silhouetted against this light. On the right, the Transamerica Pyramid is prominent. In the center, the massive, spiky head and back of Godzilla are visible, rising from the city. Above the title, there is a faint, red silhouette of a person in a dynamic pose, possibly a superhero or a character from the movie.

Planet of the Apes Sean Egan, 2021-12-01 Planet of the Apes started life in 1963 as a quirky work by Pierre Boulle the French literary novelist famous for *The Bridge over the River Kwai* His concept of a world where humans are ruled over by apes proceeded to become one of the biggest multi media sensations in history The 1968 Charlton Heston motion picture adaptation of Boulle's book was celebrated and successful but was just the beginning By 1973 said picture had spawned four sequels It then spun off a live action TV series which in turn spun off the animated TV show Return to the Planet of the Apes With this comic books novelizations and a tsunami of merchandising the late 60s and first half of the 70s had a distinctly simian flavor A new generation was introduced to the concept when in 2001 Tim Burton's updating of the series appeared in cinemas This itself was rebooted a decade later in the form of *Rise of the Planet of the Apes* and its two sequels Yet despite all the fantasy and money chasing the series has always been marked by thoughtfulness exploring serious themes alien to most franchises Planet of the Apes *The Complete History* explores every aspect of this phenomenon from books to films comic books to television shows and video games to merchandise providing an overview that is truly definitive With the help of new and exclusive interviews with Planet of the Apes producers directors writers actors and makeup artists Sean Egan attempts to gain an understanding of how a media property changed the world
