Going, Going, Gone Bloomsbury Publishing, 2014-08-14 A compelling analysis of the species that are most at risk of disappearing from our world and what it means to us to lose them We asked 100 conservation groups around the world if you could pick one species that epitomises your work which would it be From the RSPB to WWF to the Cheetah Conservation Fund and many many more the answers came rolling in Each provided a synopsis of the threats faced by their selected species a summary of their degree of threat an outline of the work being done to save them and a number of ways in which the reader could help to conserve that species With beautiful full page photographs of each of the 100 species this is a book that will both fascinate and educate and hopefully help to secure the future of the threatened animals and plants that it showcases
