Textual Transformations in Children's Literature Benjamin Lefebvre, 2013 This book offers new critical approaches for the study of adaptations, abridgments, translations, parodies, and mash-ups that occur internationally in contemporary children's culture. It follows recent shifts in adaptation studies that call for a move beyond fidelity criticism, a paradigm that measures the success of an adaptation by the level of fidelity to the original text, toward a methodology that considers the adaptation to be always already in conversation with the adapted text. This book visits children's literature and culture in order to consider the generic, pedagogical, and ideological underpinnings that drive both the process and the product. Focusing on novels as well as folktales, films, graphic novels, and anime, the authors consider the challenges inherent in transforming the work of authors such as William Shakespeare, Charles Perrault, L. M. Montgomery, Laura Ingalls Wilder, and A. A. Milne into new forms that are palatable for later audiences, particularly when, for perceived ideological or political reasons, the textual transformation is not only unavoidable but entirely necessary. Contributors consider the challenges inherent in transforming stories and characters from one type of text to another across genres, languages, and time, offering a range of new models that will inform future scholarship

CUES: Choose, Use, Enjoy, Share Phyllis B. Leonard, 1998-08-15 Calling for structured interaction between students and books, Leonard specifies how teachers and media specialists can collaborate to create a library/media-centered program that develops the talents of all K-6 students. The ultimate goal is to encourage reading and build reading comprehension, questioning, and thinking skills. Models, groupings, strategies, and materials are suggested in a grade-appropriate scope and sequence. The latest theories about the process of education, thinking, multiple intelligences, how children learn individually and cooperatively, as well as effective grouping and teaching strategies for differentiation, are discussed. The book also has sample lessons and scenarios drawn from the author's experience. Grades K-6

The Road Less Traveled Kyle Marie Townes, 2025-07-29 The Christian church is dwindling in many parts of the United States, and countless children are growing up only to abandon their faith. A well-trodden secular path in child-rearing has proven to lead to disaster, and yet many Christian families continue on it, unsure of what to do differently or how to change course. Is there a better way? By intertwining Scripture with studies, statistics, and research, Townes outlines crucial priorities for early childhood and helps parents build the all-important foundation and framework of
