

# HIPAA Security Policies and Procedures

## Purpose

The purpose of this policy is to establish a Health Insurance Portability and Accountability Act of 1996 ("HIPAA") Program.

The program defines and implements the security regulations (the "Security Rule"), as amended by the Health Information Technology for Economic and Clinical Health Act and its implementing regulations, ("HITECH Act") which require covered entities and business associates to protect the confidentiality, integrity and availability of ePHI.

**#(company)** is a business associate under HIPAA and, as such, is required to comply with the Security Rule.

## Scope

This policy applies to all people, processes and technologies that access, store and process PHI.

## Ownership

**#(owner)** is responsible for implementing and maintaining this policy. The **#(owner)** is responsible for facilitating HIPAA security training and oversight of its workforce members; facilitating investigation and sanctioning of any workforce member that is in non-compliance with the HIPAA Security Rule; and implementing and maintaining all policies, procedures, and documentation related to **#(company)**'s HIPAA security compliance.

## Policy Statement

In accordance with the standards set forth in the HIPAA Security Rule, **#(company)** is committed to protecting the confidentiality, integrity, and availability of all ePHI it creates, receives, maintains, and/or transmits.

The HIPAA Security Policies and Procedures apply to workforce members (which includes employees, trainees, students, volunteers, etc.) as well as subcontractors and outside affiliates. Failure to comply with the HIPAA Security Policies and Procedures or the HIPAA Privacy Policies and Procedures by workforce members may result in disciplinary action. In the case of

**HIPAA Policies and Procedures Desk Reference** Michael W. Hubbard, Karen E. Glover, Carolyn P. Hartley, 2003-01-01  
This comprehensive reference book is designed to help physicians create HIPAA policies and procedures they can implement with confidence into their medical practice. It is broken down into privacy and security modules that closely follow the privacy rule. These modules are designed to be quickly read, easily understood, and provide valuable step-by-step procedures and language that will help physicians respond to patient requests and employee activity. The first section offers an overview of the privacy rule along with guidelines physicians should follow depending on his/her job within the practice. It also includes a quick reference guide that points to the specific policy to follow for a specific HIPAA question. The next chapter presents a light version of HIPAA policies and procedures which will help physicians get well on their way to showing a good faith effort to bring their offices into compliance. The following chapter offers more in-depth support and answers to more complex questions. Finally, the appendices give a detailed summary of the privacy rule, a crosswalk of policies and procedures to rule provisions, and selected HIPAA definitions that have been reprinted from the final privacy rule that will become part of the daily medical practice routine.

HIPAA A Guide to Health Care Privacy and Security Law Third Edition  
In today's health care industry, full compliance with HIPAA privacy law is a must. HIPAA is a federal law to which there are many aspects, and HIPAA laws and regulations carry significant penalties. In addition to the possibility of incurring HIPAA violations as a result of error on the part of a health care organization, there are individuals actively attempting to breach systems and access private data. Compliance with the HIPAA privacy act goes beyond filling out forms and following simple procedures. Proper preparedness can save an organization's very existence should it fall victim to a cyber attack or experience a major breach incident that places it in violation of federal privacy laws. Sadly, new threats and active attacks that could put you in violation of HIPAA laws and regulations are multiplying by the day. To stay ahead of the risk that exists in this evolving environment, health care and health insurance organizations must prioritize preparedness, put in place proper HIPAA compliance strategies, and invest in their HIPAA privacy and security compliance programs.

**HIPAA A Guide to Health Care Privacy and Security Law** helps health care and health insurance organizations prepare today for tomorrow's threats. When it comes to HIPAA and health care, this is an essential resource providing a better understanding of the most important topics, including:  
The HIPAA Privacy and Security Rules  
Permitted uses and disclosures of PHI  
Breach obligations and response  
Preparation for an OCR investigation  
Health care professionals and others who need a practical guide to HIPAA compliance strategies will find a comprehensive analysis of the regulations as well as up-to-date real-world guidance that is not theoretical but ready to be put in place today. Providing practical compliance strategies is the core purpose of **HIPAA A Guide to Health Care Privacy and Security Law**. This guide to HIPAA health care compliance contains a complete set of HIPAA Policies and Procedures, including Privacy Rule Policies and Security Rule Policies. Sample HHS OCR

data request sheets Incident response forms Sample template business associate agreements A breach assessment form In addition this definitive HIPAA guide keeps you abreast of the latest developments and issues including A new section on data localization requirements and data transfer restrictions Updates to the OCR Enforcement table with the most recent cases from 2020 and 2021 Summary of recent updates to state consumer privacy laws including the Virginia Consumer Data Protection Act New discussion on digital health and privacy and data use trends as well as the impact the pandemic has had on the privacy landscape Updated state by state guide to medical privacy statutes A new section on information blocking and the impact on HIPAA covered entities

**The Definitive Guide to Complying with the HIPAA/HITECH Privacy and Security Rules** John J. Trinckes, Jr.,2012-12-03 The Definitive Guide to Complying with the HIPAA HITECH Privacy and Security Rules is a comprehensive manual to ensuring compliance with the implementation standards of the Privacy and Security Rules of HIPAA and provides recommendations based on other related regulations and industry best practices The book is designed to assist you in reviewing the accessibility of electronic protected health information EPHI to make certain that it is not altered or destroyed in an unauthorized manner and that it is available as needed only by authorized individuals for authorized use It can also help those entities that may not be covered by HIPAA regulations but want to assure their customers they are doing their due diligence to protect their personal and private information Since HIPAA HITECH rules generally apply to covered entities business associates and their subcontractors these rules may soon become de facto standards for all companies to follow Even if you aren t required to comply at this time you may soon fall within the HIPAA HITECH purview So it is best to move your procedures in the right direction now The book covers administrative physical and technical safeguards organizational requirements and policies procedures and documentation requirements It provides sample documents and directions on using the policies and procedures to establish proof of compliance This is critical to help prepare entities for a HIPAA assessment or in the event of an HHS audit Chief information officers and security officers who master the principles in this book can be confident they have taken the proper steps to protect their clients information and strengthen their security posture This can provide a strategic advantage to their organization demonstrating to clients that they not only care about their health and well being but are also vigilant about protecting their clients privacy [HIPAA Policies and Procedures, April 2003](#) Yale University.
