Hip Hop at Europe's Edge Milosz Miszczyński, Adriana Helbig, 2017-03-27 Essays examining the impact of hip hop music on pop culture and youth identity in post Soviet Central and Eastern Europe Responding to the development of a

lively hip hop culture in Central and Eastern European countries this interdisciplinary study demonstrates how a universal model of hip hop serves as a contextually situated platform of cultural exchange and becomes locally inflected After the Soviet Union fell hip hop became popular in urban environments in the region but it has often been stigmatized as inauthentic due to an apparent lack of connection to African American historical roots and black identity Originally strongly influenced by aesthetics from the United States hip hop in Central and Eastern Europe has gradually developed unique local trajectories a number of which are showcased in this volume On the one hand hip hop functions as a marker of Western cosmopolitanism and democratic ideology but as the contributors show it is also a malleable genre that has been infused with so much local identity that it has lost most of its previous associations with the West in the experiences of local musicians audiences and producers Contextualizing hip hop through the prism of local experiences and regional musical expressions these valuable case studies reveal the broad spectrum of its impact on popular culture and youth identity in the post Soviet world The volume represents a valuable and timely contribution to the study of popular culture in central and eastern Europe Hip Hop at Europe's Edge will not only appeal to readers interested in contemporary popular culture in central and eastern Europe but also inspire future research on post socialism's unique local adaptations of global cultural trends The Soviet and Post Soviet Review The authors of this edited volume do not romanticize and heroize the genre by automatically equating it with political opposition a fate often suffered by rock before Instead the book has to be given much credit for presenting a very nuanced picture of hip hop's entanglement or non entanglement for that matter with politics in this wide stretch of the world past and present The Russian Review

Rhetorical Crossover Cedric Burrows, 2020-10-27 In music crossover means that a song has moved beyond its original genre and audience into the general social consciousness. Rhetorical Crossover uses the same concept to theorize how the black rhetorical presence has moved in mainstream spaces in an era where African Americans were becoming more visible in white culture. Cedric Burrows argues that when black rhetoric moves into the dominant culture, white audiences appear welcoming to African Americans as long as they present an acceptable form of blackness for white tastes. The predominant culture has always constructed coded narratives on how the black rhetorical presence should appear and behave when in majority spaces. In response, African Americans developed their own narratives that revise and reinvent mainstream narratives while also reaffirming their humanity. Using an interdisciplinary model built from music education, film and social movement studies, Rhetorical Crossover details the dueling narratives about African Americans that percolate throughout the United States.

The Routledge Companion to the Work of John R. Rickford Renée Blake, Isabelle Buchstaller, 2019-09-17 This comprehensive collection is the first full book-length volume to bring together writing focused around and inspired by the work of John Rickford and his role in sociolinguistic research over the last four decades. Featuring contributions from more than 40 leading scholars in the field, the volume integrates both historical and current perspectives on key topics in Rickford's body of work at the intersection of language and society, highlighting the influence of his work from diverse fields such as sociolinguistics, stylistics, creole studies, and language and education. The volume is organized around four sections, each representing one of the fundamental strands in Rickford's scholarship over the course of his career, bookended by short vignettes that feature stories from the field to more broadly contextualize his intellectual legacy.

Language contact from a sociolinguistic and sociohistorical point of view. The political ramifications of linguistic heterogeneity. The stylistic implications of language variation and change. The educational implications of linguistic heterogeneity and social injustice. Taken together, *The Routledge Companion to the Work of John R. Rickford* serves as a platform to showcase Rickford's pioneering contributions to the field and, in turn, to socially reflective linguistic research more generally, making this key reading for students and researchers in sociolinguistics, creole studies, language and style, and language and education.

Retellings Jessica Enoch, Jordynn Jack, 2019-06-19 *Retellings: Opportunities for Feminist Research in Rhetoric and Composition Studies*. In *Retellings: Opportunities for Feminist Research in Rhetoric and Composition Studies*, the contributors use the anniversary of the publication of Cheryl Glenn's *Rhetoric Retold: Regendering the Tradition from Antiquity Through the Renaissance*, the first book to examine women's contributions to rhetoric across history, as an opportune moment to assess feminist rhetorical research and test out new possibilities. Together, the essays ask what does it

or should it mean to engage rhetoric from a feminist perspective Each chapter addresses one of four aspects of this question including the place of feminist rhetoric in contemporary real world and transnational politics the relationship between feminist rhetorical studies and identity studies the prospects for feminist research methods and methodologies or the feminist rhetorical commitment to paying it forward through teaching and mentoring Collectively the essays push scholars to expand the national boundaries of rhetorical inquiry to include women s roles in global politics Contributors also engage in intersectional analyses of gender and other vectors of power including here religious affiliation and sexuality considering identities as epistemic resources for rhetors To develop richer methods and methodologies contributors highlight the ethical challenges of research practices ranging from IRB submissions to archival research critically interrogating the positionality of the researcher with relation to her subjects and materials Finally contributors address the needs and interests of diverse readers when they highlight how feminist perspectives challenge traditional models of teaching and mentorship Contributors include Heather Brook Adams Jean Bessette Michelle F Eble Jessica Enoch Rosalyn Collings Eves Karen A Foss Sonja K Foss Lyn e Lewis Gaillet Cheryl Glenn Anita Helle Jordynn Jack A Abby Knoblauch Shirley Wilson Logan Briggite Mral Krista Ratcliffe Cristina D Ram rez Elaine Richardson Wendy B Sharer and Berit von der Lippe
