Monachisme et église Philippe Escolan, 1999 Aujourd'hui lorsque nous pensons l'glise d'Orient nous nous tournons spontanément vers Constantinople mais jusqu'au VII^e siècle l'Orient c'était l'glise syrienne où le monachisme a joué un rôle de premier plan. Ce présent ouvrage pour la première fois s'efforce de mettre en lumière dans le contexte de l'évolution de l'glise syrienne se rapprochant au IV^e et au V^e siècle du modèle impérial cette place originale des moines dans la communauté chrétienne. Pour certains de ces moines hérétiques du premier ascétisme syrien l'glise institutionnelle et ses structures autoritaires et sacrements n'ont qu'une valeur seconde dans l'obtention du salut. L'ascète se libère l'expérience de l'Esprit jouant le premier rôle. Par ailleurs ne travaillant pas ou peu les moines ont besoin du soutien de la population auprès de laquelle ils ont une grande influence. Reprenant fond l'examen des sources disponibles Philippe Escolan nous trace un nouveau tableau de l'histoire de l'glise syrienne et du monachisme dans leurs relations contrastées en particulier dans cette période des IV^e VII^e siècles qui voit l'écatement de l'unité de l'glise sous l'effet des querelles théologiques. Les moines animés par leur logique propre s'infiltrèrent au sein de l'glise pour en prendre la direction ou dressent des glises indépendantes. Nous voyons ainsi s'affronter deux structures ecclésiales deux perceptions du christianisme fondées sur deux logiques propres difficilement conciliables.

Réordonner le cosmos Arnaud Montoux, 2016-11-25 L'incompréhension qui nous saisit face aux nombreuses créations elles ou chimiques qui peuplent l'iconographie romane clunisienne est révélatrice du défi que constitue la pénétration de l'intelligence médiévale du cosmos. Convaincu que ces images trouvent leurs racines dans une vision théologique Arnaud Montoux soutient que leur présence manifeste le rapport des Clunisiens à la société dont ils se veulent les guides. Parmi les œuvres théologiques majeures du Moyen-âge carolingien dans lequel s'enracinent l'histoire et la geste clunisiennes celle de Jean Scot rigol ne tient une place singulière par son ampleur qui embrasse la totalité de la nature et par son ouverture sur la théologie des Pères grecs cette pensée témoigne d'un projet théologique de réintégration de la totalité du cosmos en Dieu. Cet ouvrage nous invite à lire l'nonc iconographique clunisien la lumière de l'intelligence des destinées du monde que propose le grand théologien irlandais. La première partie s'attache à lire l'histoire de Cluny sous l'angle du réordonnement du monde qui caractérise l'action de ses grands abbés. La seconde d'égale au sein de l'abbatiale des éléments qui mettent en lumière la procession des travers lesquels Dieu se manifeste. La troisième partie prétend reconsidérer la place des extrêmes cosmiques que sont l'indigence la faiblesse l'angoisse et la mort dans la dynamique globale de cette procession. Ces recherches interrogent notre capacité à recevoir le foisonnement des images clunisiennes de manière nouvelle comme signe d'une espérance pour le cosmos.

Reversing Babel Bruce R. O'Brien, 2011-04-01 Reversing Babel Translation among the English during an Age of Conquests c 800 to c 1200 starts with a small puzzle. Why did the Normans translate English law the law of the people they had conquered from Old English into Latin? Solving this puzzle meant asking questions about what medieval writers thought about language and translation what created the need and desire to translate and how translators went about the

work These are the questions Reversing Babel attempts to answer by providing evidence that comes from the world in which not just Norman translators of law but any translators of any texts regardless of languages did their translating Reversing Babel reaches back from 1066 to the translation work done in an earlier conquest a handful of important works translated in the ninth century in response to the alleged devastating effect of the Viking invasions and carries the analysis up to the wave of Anglo French translations created in the late twelfth century when England was a part of a large empire ruled by a king from Anjou who held power not only in western France from Normandy in the north to the Pyrenees in the south but also in Ireland Scotland and Wales In this longer and wider view the impact of political events on acts of translation is more easily weighed against the impact of other factors such as geography travel trade community trends in learning ideas about language and habits of translation These factors colored the contact situations created in England between speakers and readers of different languages during perhaps the most politically unstable period in English history The variety of medieval translation among the English and among those translators working in the greater empires of Cnut the Normans and the Angevins is remarkable Reversing Babel does not try to describe all of it rather it charts a course through the evidence and tries to answer the fundamental questions medieval historians should ask when their sources are Dieu(x) et hommes , Quarante quatre contributeurs rendent ici hommage Fran oise Thelamon professeure d histoire ancienne l universit de Rouen Les r flexions portent sur les th mes qui ont toujours t au centre des recherches de cette enseignante christianisme sociabilit s et lectures des images Sont privil gi es les pratiques et les relations entre les hommes et leurs dieux dans diff rentes soci t s Revue de thologie et de philosophie ,1995 *Revue b n d i c t i n e* Joseph Marie Louis Victor van Baron Caloen,2006 Includes sections Comptes rendus and Notes bibliographiques **La rivoluzione interiore** Marzia Caciolini, **Nouvelle revue thologique** ,2008 *Revue thologique de Louvain* ,2003
