## **Historia Política 1939 2000 Fundamentos:**

Franco Enrique Moradiellos, 2017-12-18 On 20th November 1975 General Francisco Franco died in Madrid just before his 83rd birthday At the time of his death he had been the head of a dictatorial regime with the title of Caudillo for almost 40 years In this book Enrique Moradiellos redraws Franco in three dimensions Franco the man Franco the Caudillo and Franco s Spain In so doing he offers a reappraisal of Franco s personality his leadership style and the nature of the regime that he established and led until his death As a dictator who established his power prior to World War II and maintained it well into the 1970s Franco was one of the most central figures of twentieth century European history In Spain today he is a spectre from a regrettable recent past uncomfortable yet still very real and significant Although a relatively minor dictator in comparison with Mussolini Hitler or Stalin Franco was more fortunate than them in terms of survival long lasting influence and public image A study of his regime and its historical evolution sheds new light on fundamental questions of European history including the social and cultural bases for totalitarian or authoritarian challenges to democracy and sources of political legitimacy grounded in the charisma of a leader In this book Enrique Moradiellos Garcia examines the dictatorship as well as the dictator and in doing so reveals new aspects to our understanding of General Franco the Caudillo

Bellido, 2023-03-03 This book delves into the conceptual changes produced by the Spanish constitutional debate held between 27 August and 9 December 1931 Taking place at the beginning of Spain's Second Republic those parliamentary deliberations brought about significant novelties in the political vocabulary Concepts such as democracy sovereignty reform revolution and freedom among others were re-signified This study investigates the conceptual contributions made by Spanish MPs in the course of the constitutional debate of 1931 by assuming as a research approach an interdisciplinary stance combining conceptual history political theory and parliamentary constitutional history By doing so it selects five determining issues the pervasive discussion about two competing meanings of a democratic state the rhetorical uses of reform and revolution conceptual controversies about religious freedom the disputed idea of property rights and the functions of parliament and the president of the republic in a semi-presidential regime The constitutional debate was largely inspired by interwar European constitutionalism which constituent representatives used to update the Spanish constitutional tradition With that goal in mind this book is aimed at undergraduate and graduate students and scholars working in the fields of

Poder y actitudes sociales durante la postguerra en Almería (1939-1953) Óscar J. Rodríguez Barreira, 2007-09-13 El objetivo de este trabajo es analizar las actitudes sociales de la población almeriense durante la primera década del franquismo. Desde una perspectiva microhistórica y muy próxima a la historia sociocultural y la historia desde abajo tratamos de adentrarnos en la relación entre la población y el Nuevo Estado. La pretensión última es introducir nuestro trabajo en el más amplio debate sobre la capacidad de las dictaduras fascistas europeas para generar espacios de aquiescencia. El trabajo se estructura en torno a cuatro capítulos. En el primero se analiza la sociedad y la política almeriense durante la crisis de los años treinta II República y Guerra Civil. En el segundo se analiza la construcción del poder local bajo el franquismo definiéndolo como un poder local fascistizado. En el tercer capítulo se analiza las actitudes sociales bajo el franquismo prestando especial atención a los sectores más deprimidos de la sociedad almeriense. En este capítulo se dibuja la sociedad franquista como una sociedad autovigilada un edificio panóptico. En el cuarto y último capítulo se atiende al estudio de la educación bajo el franquismo y del colectivo del magisterio como ejemplo de un sector social de las capas medias. Buena parte de este trabajo está dedicado a rastrear las formas cotidianas de resistencia popular a la dictadura tomando como guía teórica la abierta por la *Alltageschichte* alemana y la antropología anglosajona de James C. Scott. Se presta especial atención a las actitudes de la población ante el desarrollo de la II Guerra Mundial así como a otras formas de resistencia micropolíticas como el estraperlo o los robos de subsistencia. Palabras clave: Historia Contemporánea, Franquismo, actitudes sociales, poder local, vida cotidiana.

**The Politics of Representation** Pedro Tavares de Almeida, Javier Moreno-Luzon, 2017-11-01 Electoral and parliamentary arenas play a crucial role in the configuration and dynamics of modern polities. This book explores the practices of citizenship and unveils the fabric of representation in the Iberian countries during a significant period of liberal politics that is from its apogee to its collapse from the 1870s to the 1920s. Part One examines the evolution of electoral norms and behaviour as well as the recruitment profile of MPs. Portugal and Spain share fundamental features such as the extensive clientelistic mobilisation of voters, the dissemination of fraud and corruption, the supremacy of governmental parties and the prevalence of the politics of notables. Part Two focuses on Parliament questioning constitutional models, internal procedures, legislative action and political activity as well as coetaneous perceptions and images of the institution and its actors as portrayed in novels, newspaper chronicles, cartoons and photographic reports. This collection of essays offers a detailed and cogent analysis as well as a vivid picture of the politics of representation in Portuguese and Spanish liberalism, revealing significant similarities and differences through cross-country comparisons.
