Historic Preservation For A Living City Historic Charleston Foundation 1947 1997:

Historic Preservation for a Living City Robert R. Weyeneth, 2000 This text charts the changing philosophy of the American preservation movement since the 1950s It traces the Historic Charleston Foundation s approach to preservation from the organization s establishment to its concerns with the conservation of rural spaces and building craft traditions

Giving Preservation a History Randall F. Mason, Max Page, 2019-10-21 In this volume some of the leading figures in the field have been brought together to write on the roots of the historic preservation movement in the United States ranging from New York to Santa Fe Charleston to Chicago *Giving Preservation a History* explores the long history of historic preservation how preservation movements have taken a leading role in shaping American urban space and development how historic preservation battles have reflected broader social forces and what the changing nature of historic preservation means for efforts to preserve national urban and local heritage The second edition adds several new essays addressing key developing areas in the field by major new voices The new essays represent the broadening range of scholarship on historic preservation generated since the publication of the first edition taking better account of the role of cultural diversity and difference within the field while exploring the connections between preservation and allied concerns such as environmental sustainability LGBTQ and nonwhite identity and economic development

Challenging History Leah Worthington, Rachel Clare Donaldson, John W. White, 2021-07-22 A collection of essays that examine how the history of slavery and race in the United States has been interpreted and inserted at public historic sites For decades racism and social inequity have stayed at the center of the national conversation in the United States sustaining the debate around public historic places and monuments and what they represent These conversations are a reminder of the crucial role that public history professionals play in engaging public audiences on subjects of race and slavery This difficult history has often remained un or underexplored in our public discourse hidden from view by the tourism industry or even by public history professionals themselves as they created historic sites museums and public squares based on white centric interpretations of history and heritage *Challenging History* through a collection of essays by a diverse group of scholars and practitioners examines how difficult histories specifically those of slavery and race in the United States are being interpreted and inserted at public history sites and in public history work Several essays explore the successes and challenges of recent projects while others discuss gaps that public historians can fill at sites where Black history took place but is absent in the interpretation Through case studies the contributors reveal the entrenched false narratives that public history workers are countering in established public history spaces and the work they are conducting to reorient our collective understanding of the past History practitioners help the public better understand the world Their choices help to shape ideas about heritage and historical remembrances and can reform even transform worldviews through more inclusive and ethically narrated histories *Challenging History* invites public historians to consider the ethical implications of the narratives they choose to share and

makes the case that an inclusive honest and complete portrayal of the past has the potential to reshape collective memory and ideas about the meaning of American history and citizenship *A Talent for Living* Barbara L. Bellows, 2006-06-21

Bellows has produced the first biography of this very private woman and emotionally complex writer whose life story is also the history of a place and time Charleston in the first half of the twentieth century **Monuments of Diverse Heritage in Early America** Barry L. Stiefel, 2025-10-01

Monuments of Diverse Heritage in Early America Placemaking and Preservation by Black Indigenous and Jewish Peoples explores a more inclusive history of preserving public historic sites At a time when some Americans have embraced white nationalism in response to unfolding demographic changes and others celebrate individual identities over all else an inclusive tolerant and unifying historical vision is sorely needed While past preservation efforts sometimes resulted in exclusionary forms of historical inspiration that need not be the case in the future Bringing greater attention to the diverse heritage of the United States will not only help dismantle the lingering remnants of exclusionary and elitist narratives but also celebrate a pluralistic and diverse past and present An inclusive empowering history can provide social cohesion while allowing room for individual groups to have authority over their pasts and representation in public side by side with one another **Giving Preservation a History** Max Page, Randall Mason, 2004

Table of contents **The Once and Future New York** Randall Mason, 2009 Rich with archival research The Once and Future New York documents the emergence of historic preservation in New York at the turn of the twentieth century Between 1890 and 1920 preservationists saved and restored buildings parks and monuments throughout the city's five boroughs that represented continuity with the past *Suffragette City* Elizabeth Darling, Nathaniel Walker, 2019-08-08

confronting the physical divisions that have historically lain along racial economic and gendered lines Academics researchers and students engaged in architectural history theory urbanism gender studies and social and cultural history will be interested in this fascinating politically charged text Public History Thomas Cauvin,2016-05-20 Public History A Textbook of Practice is a guide to the many challenges historians face while teaching learning and practicing public history Historians can play a dynamic and essential role in contributing to public understanding of the past and those who work in historic preservation in museums and archives in government agencies as consultants as oral historians or who manage crowdsourcing projects need very specific skills This book links theory and practice and provides students and practitioners with the tools to do public history in a wide range of settings The text engages throughout with key issues such as public participation digital tools and media and the internationalization of public history Part One focuses on public history sources and offers an overview of the creation collection management and preservation of public history materials archives material culture oral materials or digital sources Chapters cover sites and institutions such as archival repositories and museums historic buildings and structures and different practices such as collection management preservation archives objects sounds moving images buildings sites and landscape oral history and genealogy Part Two deals with the different ways in which public historians can produce historical narratives through different media including exhibitions film writing and digital tools The last part explores the challenges and ethical issues that public historians will encounter when working with different communities and institutions Either in public history methods courses or as a resource for practicing public historians this book lays the groundwork for making meaningful connections between historical sources and popular audiences Beyond Preservation Andrew Hurley,2010-05-21 A framework for stabilizing and strengthening inner city neighborhoods through the public interpretation of historic landscapes **Human-Centered Built Environment Heritage Preservation** Jeremy C. Wells,Barry L. Stiefel,2018-09-20 Human Centered Built Environment Heritage Preservation addresses the question of how a human centred conservation approach can and should change practice For the most part there are few answers to this question because professionals in the heritage conservation field do not use social science research methodologies to manage cultural landscapes assess historical significance and inform the treatment of building and landscape fabric With few exceptions only academic theorists have explored these topics while failing to offer specific usable guidance on how the social sciences can actually be used by heritage professionals In exploring the nature of a human centred heritage conservation practice we explicitly seek a middle ground between the academy and practice theory and application fabric and meanings conventional and civil experts and orthodox and heterodox ideas behind practice and research We do this by positioning this book in a transdisciplinary space between these dichotomies as a way to give voice and respect to multiple perspectives without losing sight of our goal that heritage conservation practice should fundamentally benefit all people We believe that this approach is essential for creating an emancipated built heritage conservation practice that must successfully

engage very different ontological and epistemological perspectives

Mark Souther, 2013-10-07 New Orleans on Parade tells the story of the Big Easy in the twentieth century In this urban biography J Mark Souther explores the Crescent City's architecture music food and alcohol folklore and spiritualism Mardi Gras festivities and illicit sex commerce in revealing how New Orleans became a city that parades itself to visitors and residents alike Stagnant between the Civil War and World War II a period of great expansion nationally New Orleans unintentionally preserved its distinctive physical appearance and culture Though business civic and government leaders tried to pursue conventional modernization in the 1940s competition from other Sunbelt cities as well as a national economic shift from production to consumption gradually led them to seize on tourism as the growth engine for future prosperity giving rise to a veritable gumbo of sensory attractions A trend in historic preservation and the influence of outsiders helped fan this newfound identity and the city's residents learned to embrace rather than disdain their past A growing reliance on the tourist trade fundamentally affected social relations in New Orleans African Americans were cast as actors who shaped the culture that made tourism possible while at the same time they were exploited by the local power structure As black leaders' influence increased the white elite attempted to keep its traditions including racial inequality intact and race and class issues often lay at the heart of controversies over progress Once the most tolerant diverse city in the South and the nation New Orleans came to lag behind the rest of the country in pursuing racial equity Souther traces the ascendancy of tourism in New Orleans through the final decades of the twentieth century and beyond examining the 1984 World's Fair the collapse of

Louisiana's oil industry in the eighties and the devastating blow dealt by Hurricane Katrina in 2005 Narrated in a lively style and resting on a bedrock of research New Orleans on Parade is a landmark book that allows readers to fully understand the image making of the Big Easy *Zones of Tradition - Places of Identity* Gerhard Vinken,2021-10-01 What is the heritage of our cities Which are the monuments places and spaces in which it accumulates and by which practices is it formed handed down appropriated Gerhard Vinken takes the readers to twelve cities on three continents and analyses the diverse and contradictory heritage formations that have had a lasting impact on urban life The vitality of urban heritage as these vivid and in depth case studies show lies in the dynamic and often conflictual processes of social appropriation and interpretation Covering a diverse range of themes the book familiarizes the reader with important questions and theories in urban research and heritage studies **Charleston in Black and White** Steve Estes,2015-07-10 Once one of the wealthiest cities in America Charleston South Carolina established a society built on the racial hierarchies of slavery and segregation By the 1970s the legal structures behind these racial divisions had broken down and the wealth built upon them faded Like many southern cities Charleston had to construct a new public image In this important book Steve Estes chronicles the rise and fall of black political empowerment and examines the ways Charleston responded to the civil rights movement embracing some changes and resisting others Based on detailed archival research and more than fifty oral history interviews Charleston in Black and White addresses the complex roles played not only by race but also by politics labor relations criminal justice education religion tourism economics and the military in shaping a modern southern city Despite the advances and opportunities that have come to the city since the 1960s Charleston like much of the South has not fully reckoned with its troubled racial past which still influences the present and will continue to shape the future **A New Plantation World** Daniel J. Vivian,2018-03-01 In the era between the world wars wealthy sportsmen and sportswomen created more than seventy large estates in the coastal region of South Carolina By retaining select features from earlier periods and adding new buildings and landscapes wealthy sporting enthusiasts created a new type of plantation In the process they changed the meaning of the word plantation with profound implications for historical memory of slavery and contemporary views of the South A New Plantation World is the first critical investigation of these sporting plantations By examining the process that remade former sites of slave labor into places of leisure Daniel Vivian explores the changing symbolism of plantations in Jim Crow era America Archaeology in South Carolina Adam King,2016-04-26 The rich human history of South Carolina from its earliest days to the present Adam King's Archaeology in South Carolina contains an overview of the fascinating archaeological research currently ongoing in the Palmetto state featuring essays by twenty scholars studying South Carolina's past through archaeological research The scholarly contributions are enhanced by more than one hundred black and white and thirty eight color images of some of the most important and interesting sites and artifacts found in the state South Carolina has an extraordinarily rich history encompassing the first human habitation of North America to the lives of people
