Historic Preservation Technology A Primer:

Historic Preservation Technology Robert A. Young, 2008-03-21 This introduction to historic preservation goes well beyond the Secretary of the Interior's Standards for Rehabilitation and shows how wood stone masonry and metal were used in the past and how adaptive re use can be employed to bring modern amenities to historic structures The book covers all aspects of the exterior and interior building fabric including windows roofing doors porches and electrical and mechanical systems for both residential and small scale commercial buildings Richly illustrated with photographs showing typical elements of historic buildings decay mechanisms and remediation techniques the book also contains a variety of useful case studies and features a companion Website that offers dozens of additional images and resources [Historic Preservation: An Introduction to Its History, Principles, and Practice \(Second Edition\)](#) Norman Tyler, Ted J. Ligibel, Ilene R.

Tyler, 2009-02-04 Historic preservation which started as a grassroots movement now represents the cutting edge in a cultural revolution focused on green architecture and sustainability This is the only book to cover the gamut of preservation issues in layman's language the philosophy and history of the movement the role of government the documentation and designation of historic properties sensitive architectural designs and planning preservation technology and heritage tourism plus a survey of architectural styles It is an ideal introduction to the field for students historians preservationists property owners local officials and community leaders Updated throughout this revised edition addresses new subjects including heritage tourism and partnering with the environmental community *Preservation Technology Primer* Frances Gale, 2008 [A Graveyard Preservation Primer](#) Lynette Strangstad, 2013-08-28 A Graveyard Preservation Primer has proven itself to be a time tested resource for those who are seeking information regarding the protection and preservation of historic graveyards It was first written to help stewards of early burial grounds responsibly and effectively preserve their graveyards Much information found in the first edition of the book remains valid today Still much has changed in the twenty five years since its first publication and the new edition reflects these changes Attitudes and the understanding of historic graveyards as an important cultural resource have grown and developed over the years Likewise changes in treatments have also taken place Perhaps the most dramatic change in burial ground preservation is in the world of technology Changes in computers and the way we use them have also changed preservation practices in historic graveyards Discussion of technological changes in the new edition includes those in mapping surveying photography archaeology and other areas of evaluation and planning Consideration is given too to maintenance and conservation treatments including both traditional and newer treatments for stone concrete and metals Metals were not discussed in the earlier editions and protection and preservation of the landscape as it relates to graveyards is an expanded focus of this book The historic preservation of cemeteries and burial grounds is an aspect within the discipline of historic preservation that is unknown to many Those whose responsibility is the care of these historic sites may be unfamiliar with appropriate approaches to such areas as documentation planning maintenance and

conservation Unwitting personnel can do irreparable harm to these important cultural resources The Primer is an effort to protect historic cultural resources by breaching the gap between maintenance staff cemetery boards friends groups and graveyard preservation professionals by offering readily available responsible information regarding graveyard protection and preservation It is also designed to assist those who would undertake a preservation project in the reclaiming of a neglected or abandoned historic cemetery The book is generously illustrated with diagrams and photos illustrating procedures and gravemarker and graveyard forms styles and materials The appendix section is completely updated and expanded offering a worthwhile resource in itself

Southern Splendor Marc R. Matrana, Robin S. Lattimore, Michael W. Kitchens, 2018-03-22 Few things evoke thoughts and memories of the past more than a house from a bygone era and few places are identified and symbolized more by historic dwellings than the American South Plantation houses built with columned porticos and wide porches stout chimneys large rooms and sweeping staircases survive as legacies of both a storied and troubled past These homes are at the heart of a complex web of human relationships that have shaped the social and cultural heritage of the region for generations Despite

their commanding appearance the region's plantation houses have proven to be fragile relics of history vulnerable to decay neglect and loss Today only a small percentage of the South's antebellum treasures survive In Southern Splendor Saving Architectural Treasures of the Old South historians Marc R Matrana Robin S Lattimore and Michael W Kitchens explore almost fifty houses built before the Civil War that have been authentically restored or preserved Methodically examined are restoration efforts that preserve not only homes and other structures but also the stories of those living in or occupying those homes The authors discuss the challenges facing specific plantation homes and their preservation Featuring over 275 stunning photographs as well as dozens of firsthand accounts and interviews with those involved in the preservation of these historic properties Southern Splendor describes the leading role the South has played since the nineteenth century in the historic preservation movement in this country Interior, Environment, and Related Agencies Appropriations for 2013: Justification of the budget estimates: NPS; USGS United States. Congress. House. Committee on Appropriations. Subcommittee on Interior, Environment, and Related Agencies, 2012

Green Restorations Aaron Lubeck, 2010-01-01 Some 40 percent of North Americans live in homes built prior to 1940 and when it comes time to remodel or restore our older homes homeowners and contractors can find themselves lost in a morass of wildly divergent information and opinion With Green Restorations author Aaron Lubeck brings his expertise as a restoration contractor and preservation consultant to this first of its kind guide leading the reader through the steps for restoring historic building using sustainable practices and green building techniques In a readily accessible room by room and system by system format Green Restorations covers rehabilitation and remodeling questions applicable to old homes focusing on the core techniques and debates often seen in practice Here you'll find the answers to restoration questions such as Is sealing my old crawl space a good idea Should I replace or rehabilitate my windows Are there historic aspects of my home I need to preserve and what can I change What are the cultural environmental and financial implications of my proposed changes Do residential historic tax credits apply to my home and how can I access them Written in such a way as to be accessible for homeowners but technical enough for contractors this book will appeal to anyone trying to green an older home while preserving its historic and cultural significance

Built Heritage in post-Disaster Scenarios Marcello Balzani, Federica Maietti, Manlio Montuori, Fabiana Raco, 2024-03-14 It is assumed that the impact of natural and man made hazards on society in terms of damage cannot be avoided To reduce potential disaster levels and to assess which policies have had a positive outcome a careful comparison should take place on the procedures implemented in the management of crises The experiences with the earthquakes in the Pianura Padana area and central regions of Italy in the last ten years have been incorporated in the After the Damages advanced training project This project aims to showcase recent innovations and advancements in post disaster management so as to take a more proactive role in post disaster management and to respond more effectively when disasters occur This volume provides insights into the dynamics and negative effects of natural and man made hazards i.e earthquakes fires floods
