Historical Linguistics 2011 Ritsuko Kikusawa, Lawrence A. Reid, 2013-11-14 This volume of selected papers from the 20th International Conference on Historical Linguistics (Osaka, Japan, July 2011) presents a set of stimulating and ground-breaking studies on a wide range of languages and language families. As the scope of studies that can be characterized as Historical Linguistics has expanded, ICHL conferences have likewise seen a broadening of topics presented, and this conference was no exception, reflected by the inclusion in this volume of a plenary presentation on the grammaticalization of expressions of negation and gendered kinship in American Sign Language. Three other papers propose new views of the role of grammaticalization in English, Chinese and Niger-Congo languages. Four of the papers discuss specific problems that arise in the comparison and reconstruction of linguistic features in a range of languages from Asia, Europe and South America. The last six studies deal with innovative approaches to the historical development of suppletion in Romance languages, possessive classifiers in Austronesian, universal quantifiers in Germanic, adjectival sequences in English, exaptation in Celtic and Early English, and drift in Ancient Egyptian.

Processes of Language Contact Jeff Siegel, 2000

Contact, Variation, and Change in the History of English Simone E. Pfenninger, Olga Timofeeva, Anne-Christine Gardner, Alpo Honkapohja, Marianne Hundt, Daniel Schreier, 2014-09-11 The papers in this volume aim at facilitating exchange between three fields of inquiry that are of great importance in historical linguistics: language change, socio-linguistic research on

variation and contact linguistics Drawing on a range of recently developed methodological innovations such as methods for quantifying the linguistic variation that is a prerequisite for language change or new corpus based methods for investigating text type variation the contributors are able to trace linguistic change in different periods and contact situations demonstrate how variation occurs and in how far language change results out of this variation Thus the chapters go beyond core issues of language variation and change focusing on the boundary between word and grammar discourse and ideology in the history of the English language
