The waist of this silk gown was a complex system of lacing that makes its pattern of rose red ground and trails of white flowers reversible. It was worn in the 1740s; the gown was probably made then and altered in the following decades. The first neckline was in the 1740s, when the stomacher was replaced with buttoned tabs. There may have been two sleeve ruffles originally, and the upper one cut off to leave a pointed border above a single ruffle.

Many surviving silk garments have been remodelled and updated through several decades of fashionable changes. Clothing was passed to poorer relatives, friends or servants, as well as to the local church, where the expensive silks were converted into altar frontals and ecclesiastical vestments. Mrs Charlotte Papendick, an excellent needleworker and a companion to Queen Charlotte in the 1760s and 1770s, records in her diary how she kept a gown sent going for seven years, repeatedly altering its decoration.

Fashion, too, was not their antagonist in the matter of continual change. A silk gown would go on for years, a robe furnished up with new trimmings; and a young woman was rather complimented than otherwise when she exhibited some of her possessions, and might with no dissimulation herself repeat tale after tale in the same strain.

Sophie White, 2013-01-14 Based on a sweeping range of archival visual and material evidence *Wild Frenchmen and Frenchified Indians* examines perceptions of Indians in French colonial Louisiana and demonstrates that material culture especially dress was central to the elaboration of discourses about race At the heart of France's seventeenth century plans for colonizing New France was a formal policy Frenchification Intended to turn Indians into Catholic subjects of the king it also carried with it the belief that Indians could become French through religion language and culture This fluid and mutable conception of identity carried a risk while Indians had the potential to become French the French could themselves be transformed into Indians French officials had effectively admitted defeat of their policy by the time Louisiana became a province of New France in 1682 But it was here in Upper Louisiana that proponents of French Indian intermarriage finally claimed some success with Frenchification For supporters proof of the policy's success lay in the appearance and material possessions of Indian wives and daughters of Frenchmen Through a sophisticated interdisciplinary approach to the material sources *Wild Frenchmen and Frenchified Indians* offers a distinctive and original reading of the contours and chronology of racialization in early America While focused on Louisiana the methodological model offered in this innovative book shows that dress can take center stage in the investigation of colonial societies for the process of colonization was built on encounters mediated by appearance
