Islamic Philosophy and Occidental Phenomenology on the Perennial Issue of Microcosm and Macrocosm Anna-Teresa Tymieniecka, 2006-09-22 By proposing the Microcosm and Macrocosm analogy for dialogue between Islamic Philosophy and Occidental Phenomenology the authors of this volume are reviving the perennial positioning of the human condition in the play of forces within and without the human being This theme has run from Plato through the Middle Ages Renaissance and Modernity and has been ignored by contemporaries It now acquires a new pertinence and striking significance due to the scientific discoveries into the infinitely small in life on the one hand and the prodigious technological discoveries of the infinitely great on the other Both open up undreamt of prospects for the continuing conquest of cosmic forces The human person thrown into turmoil by the new approaches to life and needing to acquire new habits of mind having lost security of all beliefs desperately seeks a new clarification of the Human Condition within the unity of everything there is of cosmic forces and of his destiny The dialogue between Islamic Philosophy and phenomenology of life can show the way Papers by Gholam Reza A awani Mehdi Aminrazavi Roza Davari Ardakani Mohammad Azadpur Gary Backhaus Marina Banchetti Robino William Chittick Seyed Mostafa Muhaghghegh Damad Golamhossein Ebrahimi Dinani Nader El Bizri Kathleen Haney Salahaddin Khalilov Sayyid Mohammad Khamenei Mahmoud Khatami Mieczyslaw Pawel Migon Nikolay Milkov Sachiko Murata Anna Teresa Tymieniecka Daniela Verducci

The Renaissance of the Levant Michael Kreutz, 2019-03-18 Since the Mediterranean connects cultures Mediterranean studies have by definition an intercultural focus Throughout the modern era the Ottoman Empire has had a lasting impact on the cultures and societies of the Southern and Eastern Mediterranean However the modern Balkans are usually studied within the context of European history the southern Mediterranean within the context of Islam Although it makes sense to connect both regions this is a vast field and requires a command of different languages not necessarily related to each other Investigating both Greek and Arabic sources this book will shed some light on the significance of ideas in the political transitions of their time and how the proponents of these transitions often became so overwhelmed by the events that they helped trigger adjustments to their own ideas Also the discourses in Greek and Arabic reflect the provinces of the Ottoman Empire and it is instructive to see their differences and commonalities which helps explain contemporary politics

Mediality on Trial Ehler Voss,2020-09-21 This volume addresses controversies connected to the testing of the capacities and potentials of mediums Today we commonly associate the term medium with the technical communication between transmitters and receivers Yet this term likewise applies to those who cooperate with agencies that exceed the presumed domain of the material world Insofar as one presumes a division between distinctly opposed categories of religion and the secular technical media tend to be associated with the secular and human trance mediums tend to be associated with religion after 1900 This volume concerns the ways in which the term medium still marks an overlapping of and thus problematizes the aforementioned division between religion and the secular the personal and the technological The term medium carries with it a seed of doubt that is itself inseparable from investment in the medium s power insofar as they communicate with an other realm mediums offer the hope and promise of new possibilities and improved efficiency and thus of a better life yet they have simultaneously been under suspicion of altering or even inventing the messages they communicate It is due to this combination of promise and suspicion that mediumism has tended to evoke scientific religious and moral controversies Thus we can speak of a mediumistic trial that is a process in which a medium is put to the test concerning its potentials and trustworthiness Around 1800 experts were asked if a modern secular institution would be capable of inspiring domesticating or excluding trance mediumship This question has stayed with us ever since and the answers have remained inconclusive

That is why the past and present of mediumship may be asked to elucidate each other Historische Sprachwissenschaft
