History Of Indigenous Slavery In A P:

Indigenous Rights and the Legacies of the Bible Mark G. Brett, 2024-06-25 A Christian imagination of colonial discovery permeated the early modern world but legal histories developed in very different ways depending on imperial jurisdictions Indigenous Rights and the Legacies of the Bible From Moses to Mabo explores the contradictions and ironies that emerged in the interactions between biblical warrants and colonial theories of Indigenous natural rights The early debates in the Americas mutated in the British colonies with a range of different outcomes after the American Revolution and tracking the history of biblical interpretation provides an illuminating pathway through these historical complexities A ground breaking legal judgement in the High Court of Australia Mabo v Queensland 1992 demonstrates the enduring legacies of debates over the previous five centuries The case reveals that the Australian colonies are the only jurisdiction of the English common law tradition within which no treaties were made with the First Nations Instead there is a peculiar development of terra nullius ideology which can be traced back to the historic influences of the book of Genesis in Puritan thought in the seventeenth century Having identified both similarities and differences between various colonial arguments and their overt dependence on early modern theological reasoning Mark G Brett examines the paradoxical permutations of imperial and anti imperial motifs in the biblical texts themselves Concepts of rights shifted over the centuries from theological to secular frameworks and more recently from anthropocentric assumptions to ecologically embedded concepts of Indigenous rights and responsibilities Bearing in mind the differences between ancient and modern notions of indigeneity a fresh understanding of this history proves timely as settler colonial states reflect on the implications of the United Nations Declaration on the Rights of Indigenous Peoples 2007 Brett s illuminating insights in this detailed study are particularly relevant for the four states that initially voted against the Declaration the USA Canada New Zealand and Australia *New Approaches to Resistance in Brazil and Mexico* John Gledhill, Patience A. Green, Andrew L. Slap, 2024-04-02 Investigates how Americans have remembered violence and resistance since the Civil War including Confederate monuments historical markers college classrooms and history books George Floyd s murder in the summer of 2020 sparked a national reckoning for the United States that had been 400 years in the making Millions of Americans took to the streets to protest both the murder and the centuries of systemic racism that already existed among European colonists but transformed with the arrival of the first enslaved African Americans in 1619 The violence needed to enforce that systemic racism for all those years from the slave driver s whip to state sponsored police brutality attracted the immediate attention of the protesters The resistance of the protesters echoed generations of African Americans resisting the violence and oppression of white supremacy Their opposition to violence soon spread to other aspects of systemic racism

including a cultural hegemony built on and reinforcing white supremacy At the heart of this white supremacist culture is the memory of the Civil War era when in 1861 8 million white Americans revolted against their country to try to safeguard the enslavement of 4 million African Americans The volume has three interconnected sections that build on one another The first section Violence explores systemic racism in the Civil War era and now with essays on slavery policing and slave patrols The second section titled Resistance shows how African Americans resisted violence for the past two centuries with essays discussing matters including self emancipation and African American soldiers The final section Memory investigates how Americans have remembered this violence and resistance since the Civil War including Confederate monuments and historical markers This volume is intended for nonhistorians interested in showing the intertwined and longstanding connections between systemic racism violence resistance and the memory of the Civil War era in the United States that finally exploded in the summer of 2020 Alternative Press Index, 1994 **Ancient Roots I: the Indigenous People and Architecture of the Southern Highlands** Richard Thornton, 2007-02-01 The study area included the Appalachian Summit west of Craggy Knob NC the Appalachian Ridge and the upper Piedmont of the Carolinas and Georgia Whenever possible the author used Native American names for ethnic groups cultural phases and settlement sites abstract *Indigenous Women and Work* Carol Williams, 2012-10-30 The essays in *Indigenous Women and Work* create a transnational and comparative dialogue on the history of the productive and reproductive lives and circumstances of Indigenous women from the late nineteenth century to the present in the United States Australia New Zealand Aotearoa and Canada Surveying the spectrum of Indigenous women's lives and circumstances as workers both waged and unwaged the contributors offer varied perspectives on the ways women's work has contributed to the survival of communities in the face of ongoing tensions between assimilation and colonization They also interpret how individual nations have conceived of Indigenous women as workers and in turn convert these assumptions and definitions into policy and practice The essays address the intersection of Indigenous women's and labor history but will also be useful to contemporary policy makers tribal activists and Native American women's advocacy associations Contributors are Tracey Banivanua Mar Marlene Brant Castellano Cathleen D Cahill Brenda J Child Sherry Farrell Racette Chris Friday Aroha Harris Faye HeavyShield Heather A Howard Margaret D Jacobs Alice Littlefield Cyb le Locke Mary Jane Logan McCallum Kathy M Closkey Colleen O'Neill Beth H Piatote Susan Roy Lynette Russell Joan Sangster Ruth Taylor and Carol Williams The Embarrassment of Slavery Michael Salman, 2003-12 This book examines the salience of slavery and abolition in the history of American colonialism and Philippine nationalism The author explains the link between the globalization of nationalism and the spread of antislavery as a hegemonic ideology in the modern world book jacket **Comprehensive Dissertation Index, 1861-1972: History** Xerox University Microfilms, 1973 *Just Relations* Alison Louise Holland, 2015 When Mary Bennett died in 1961 Australia lost one of its leading Aboriginal rights activists Mary's crusade is still sadly a current one and this book serves to historicize the ongoing

struggle for Aboriginal rights through the lens of Mary's campaign By tracing Mary's advocacy from the 1920s when the possibility of Aboriginal human rights was first mooted to the 1960s when an attempt was made to have the Aboriginal question raised before the United Nations Just Relations charts a large portion of human rights history However the book also tracks a discourse of needs moral codes and sentiments as well as the urgent goal of keeping people alive In this sense then Mary Bennett's story demonstrates the close connection between the rise of humanitarianism as a political project and the rise of human rights Just Relations was shortlisted for the 2016 NSW Premier's Australian History Prize Librarians ebook available on ProQuest and EBSCO Subject Biography Aboriginal Studies Human Rights Australian Studies History

Aboriginal Australians KEITH D. SUTER,KAYE STEARMAN,1988-07-01

Reclaiming the Land The indigenous Aboriginal peoples of Australia once inhabited the whole continent For over 50 000 years their rich and varied culture revolved around the land In 1788 began the white invasion of Australia which destroyed many Aboriginal communities Thousands of Aborigines died of disease from poisons and in frontier wars when their land was stolen and used for agriculture grazing and mining Aboriginal rights were unrecognized in law Two centuries later Aborigines have achieved legal equality But their rights are often disregarded and they suffer massive inequalities in housing education employment and health compared to other Australians They are more likely to be arrested and imprisoned Since 1980 over 100 young Aboriginal men have died while in police custody But the greatest loss has been of land and it is the need to regain and protect the land which has been the impetus behind contemporary Aboriginal political activity a struggle which many Aborigines believe has been betrayed by successive governments In the Northern Territory and South Australia large areas have come under Aboriginal ownership but other states have conceded little or nothing Today an historic High Court judgment has opened the way to a new relationship between Aboriginal and non Aboriginal Australians Aboriginal Australians gives a concise and factual account of the major problems currently facing Aborigines This updated edition traces developments into the 1990s including the Mabo judgment and its consequences A useful and detailed report on a unique

people and their fight for justice it should prove an invaluable resource for teachers students the media and all those interested in racism and Australia

Sex, Sickness, and Slavery Marli F. Weiner, 2012-07-30 Marli F Wiener skillfully integrates the history of medicine with social and intellectual history in this study of how race and sex complicated medical treatment in the antebellum South Sex Sickness and Slavery argues that Southern physicians scientific training and practice uniquely entitled them to formulate medical justification for the imbalanced racial hierarchies of the period Challenged with both helping to preserve the slave system by acknowledging and preserving clear distinctions of race and sex and enhancing their own authority with correct medical diagnoses and effective treatment doctors sought to understand bodies that did not necessarily fit into neat dichotomies or agree with suggested treatments Focusing on Southern states from Virginia to Alabama Weiner examines medical and lay perspectives on the body through a range of sources including medical journals notes diaries daybooks and letters These personal and revealing sources show how physicians medical students and patients both free whites and slaves felt about vulnerability to disease and mental illnesses how bodily differences between races and sexes were explained and how emotions common sense working conditions and climate were understood to have an effect on the body Physicians authority did not go uncontested however Weiner also describes the ways in which laypeople both black and white resisted medical authority clearly refusing to cede explanatory power to doctors without measuring medical views against their own bodily experiences or personal beliefs Expertly drawing the dynamic tensions during this period in which Southern culture and the demands of slavery often trumped science Weiner explores how doctors struggled with contradictions as medicine became a key arena for debate over the meanings of male and female sick and well black and white North and South

Glamour in the Pacific Fiona Paisley, 2009-07-08 Since its inception in 1928 the Pan Pacific Women s Association PPWA has witnessed and contributed to enormous changes in world and Pacific history Operating out of Honolulu this women s network established a series of conferences that promoted social reform and an internationalist outlook through cultural exchange For the many women attracted to the project from China Japan the Pacific Islands and the major settler colonies of the region the association s vision was enormously attractive despite the fact that as individuals and national representatives they remained deeply divided by colonial histories Glamour in the Pacific tells this multifaceted story by bringing together critical scholarship from across a wide range of fields including cultural history international relations and globalization gender and empire postcolonial studies population and world health studies world history and transnational history Early chapters consider the first PPWA conferences and the decolonizing process undergone by the association Following World War II a new generation of nonwhite women from decolonized and settler colonial nations began to claim leadership roles in the Association challenging the often Eurocentric assumptions of women s internationalism In 1955 the first African American delegate brought to the

fore questions about the relationship of U S race relations with the Pan Pacific cultural internationalist project The effects of cold war geopolitics on the ideal of international cooperation in the era of decolonization were also considered The work concludes with a discussion of the revival of East meets West as a basis for world cooperation endorsed by the United Nations in 1958 and the overall contributions of the PPWA to world culture politics The internationalist vision of the early twentieth century imagined a world in which race and empire had been relegated to the past Significant numbers of women from around the Pacific brought this shared vision together with their concerns for peace social progress and cooperation to the lively even glamorous political experiment of the Pan Pacific Women s Association Fiona Paisley tells the stories of this extraordinary group of women and illuminates the challenges and rewards of their politics of antiracism one that still resonates today
