Annotated Bibliography of North American Geology, 1950 Marjorie Hooker, 1952 **Geological Survey Bulletin**, 1963 **Thematic-Pattern-Based "Concept + Language Mapping" (CLM)** Peichang He, 2025-05-19

This book explores the issue of integration in content and language integrated learning (CLIL) and addresses the need for effective content and language integration by proposing the thematic pattern-based Concept Language Mapping (CLM) approach. Peichang He explores effective integration of content and language learning during the instruction of content subjects using students' additional language as the medium of instruction. The volume introduces the contextual background of a large-scale school-university collaboration CLIL research project and builds the conceptual framework of a thematic pattern-based CLM pedagogy by drawing on the language-based theory of learning (Halliday, 1993), the construct of thematic patterns (Lemke, 1990), and the recent development of genre-based pedagogy (Lin, 2016; Rose, 2019). The book proposes a transdisciplinary plurilingual thematic pattern-based CLM approach. The book concludes with a discussion on some promising future research orientations, including a transdisciplinary plurilingual thematic pattern-based CLM approach for CLIL sustainability, catering for learner diversity in CLIL, and teacher professional development in thematic pattern-based CLM practice. The book shows readers the design of CLM materials and activities, which are demonstrated through classroom interactions in lessons of different subjects and grades for students of diverse cognitive abilities and linguistic backgrounds. This insightful volume will be of interest to researchers and trainee teachers exploring pedagogical approaches to CLIL, plurilingual, and transdisciplinary education and will provide pedagogical implications for teachers of both language and content subjects in schools worldwide.
