

Adjusting the seatback recliner

Move the lever forward or backward to the desired angle and release the lever. If the lever is released, seatback will lock in place. After adjustment, make sure that the lever has returned to its original locked position.

⚠ WARNING - Driver responsibility for front seat passenger

Driving or riding in a vehicle with a front seatback reclined could lead to serious or fatal injury in an accident. If a front seat is reclined during an accident, the occupant's hips may slide under the lap portion of the safety belt applying great force to the unprotected abdomen or neck. Serious or fatal internal injuries could result. The driver must advise the front passenger to keep the seatbacks in comfortably upright position whenever the vehicle is in motion.

Warming the front seat (if equipped)

The front seats can be electrically heated individually when the ignition switch is ON. When the switch is ON, a number ranging from 1 to 5 is displayed on the switch (5 = warmest setting).

To turn off the seat warmer, set the switch to 0.

The seat warmer turns off automatically when the seat temperature reaches the selected range and will turn on again if the temperature drops below the selected range.
