Reconstrucción y la Reforma (Books-In-Brief: Al-Shura: The Qur'anic Principle of Consultation) Ahmad Al-Raysuni ,2014-01-01 Muslims remain largely unaware of the importance and value of the Qur'anic principle of al Shura mutual consultation and the significant role it can play in the advancement and reform of Muslim society In this work the author attempts to introduce and examine key meanings and practices of al Shura trace its historical evolution and explore ways in which the principle can be introduced institutionalized and applied in Muslim societies There is no doubt that al Shura has been sidelined throughout the Muslim world and the reasons for this are both historically and politically complex According to the author although much has been written on the subject in reality it has been at best ineffectively applied and at worst heedlessly ignored Even today it is a hotly contested issue As al Shura is increasingly associated with democratic participation in a decision making process debate has ignited with critics challenging the notion of equating the principle with western notions of democracy with others claiming that the principle allows for a meaning that breaks the grip of centralized power These and other issues are investigated with careful scholarship Al Raysuni concludes that al Shura should be adopted as a way of life for all Muslims to protect their interests and as a vital tool for reconstruction and reform In doing so he addresses the subject from some intriguing new angles giving insight into areas hitherto little if at all examined
