### **Lost In The Customhouse Authorship In The American Renaissance:**

**Lost in the Customhouse** Jerome Loving, 2005-08 In this spirited challenge to dominant American literary criticism Jerome Loving extends the traditional period of American literary rebirth to the end of the nineteenth century and argues for the intrinsic value of literature in the face of new historicist and deconstructionist readings Bucking the trend for prophetic and revisionist interpretations Loving discusses the major work of the last century's canonized writers as restorative adventures with the self and society From Washington Irving to Theodore Dreiser Loving finds the American literary tradition filled with narrators who keep waking up to the central scene of the author's real or imagined life They travel through a customhouse of the imagination in which the Old World experience of the present is taxed by the New World of the utopian past where life is always cyclical instead of linear and ameliorative Loving argues that the central literary experience in nineteenth century America is the puritanical desire for the time before the loss of innocence that endless chance of coming into experience anew *Lost in the Customhouse* begins with a discussion of Irving Hawthorne Melville Poe Thoreau and Emerson and finds these seminal Renaissance writers waking up primarily to psychological facts which blossomed into the fiction of a self begotten out of the nothingness of experience In part 2 Loving shifts his attention to the urbanization of the American imagination and discusses Whitman Twain Dickinson James Chopin and Dreiser Here the dream driven impulse is more clearly influenced by social history abolition women's suffrage industrialization and the growth of professionalism Loving focuses upon the role of the woman who finds herself on the same frontier as her male precursors with nothing but a carpetbag that is to say the American ego Throughout the study Loving challenges the notion that American literature is preponderately cultural work In the epilogue he packs up his own carpetbag and passes through the European customhouse to find that American writers are more readily perceived as literary geniuses outside of their culture than within it

social political and historical changes taking place in America Written expressly for high school students this book conveniently introduces the major works of American Romanticism

**Women and Authorship in Revolutionary America** Angela Vietto, 2017-03-02 Exploring the wealth of writings by early American women in a broad spectrum of genres Women and Authorship in Revolutionary America presents one of the few synthetic approaches to early US women s writing Through an examination of the strategic choices writers made as they constructed their authorial identities at a moment when ideals of both Author and Woman were in flux Angela Vietto argues that the relationship between gender and authorship was dynamic women writers drew on available conceptions of womanhood to legitimize their activities as writers and often simultaneously drew on various conceptions of authorship to authorize discursive constructions of gender Focusing on the half century surrounding the Revolution this study ranges widely over both well known and more obscure writers including Mercy Otis Warren Judith Sargent Murray Sarah Wentworth Morton Hannah Griffiths Annis Boudinot Stockton Elizabeth Graeme Fergusson Deborah Gannett and Sarah Pogson Smith The resulting analysis complicates and challenges a number of critical commonplaces presenting instead a narrative of American literary history that presents the novel as women s entrance into authorship dichotomized views of civic and commercial authorship and of manuscript and print cultures and a persistent sense that women of letters constantly struggled against a literary world that begrudged them entrance based on their gender

his private and public writings Seven new critical essays by Brook Thomas Michael Ryan Thomas R Mitchell Jay Grossman Jamie Barlowe John Ronan and John F Birk A Chronology and revised and expanded Selected Bibliography **Walt Whitman of Mickle Street** Geoffrey M. Sill, 1994 **Nineteenth Century Prose**, 1993 **Dreaming Revolution** Scott Bradfield, 1993 Dreaming Revolution usefully employs current critical theory to address how the European novel of class revolt was transformed into the American novel of imperial expansion Bradfield shows that early American romantic fiction including works by William Godwin Charles Brockden Brown James Fenimore Cooper and Edgar Allan Poe can and should be considered as part of a genre too often limited to the Nineteenth century European novel Beginning with Godwin's Caleb Williams Bradfield describes the ways in which revolution legitimates itself as a means of establishing Political consensus For European revolutionaries like Godwin or Rousseau the tyranny of the king must be replaced by the more indisputable authority of human reason In other words democratic revolution makes people free to investigate the same truths and arrive at the same democratic conclusions In the American novel however the Enlightenment's idealized pursuit of abstract truth becomes restructured as a pursuit of abstract space Instead of revealing knowledge Americans explore further territories manifest destiny limitless regions of the yet to be colonized and the still to be known In a spirited discussion of works by Brown Cooper and Poe Bradfield argues that Americans take the class dynamics of the European psychological novel and apply them to the American landscape reimagining psychological spaces as geographical ones Class distinctions become refigured in terms of the common people's pursuit of a meaning vaster than themselves a meaning which leads them to imagine the always expanding body of colonial America However since class conflict is never successfully eliminated or forgotten the memory of class struggle always reemerges in the narrative like a half repressed dream of politics In Dreaming Revolution Bradfield reveals and interprets these dreams opening these American novels to a richer and more rewarding reading **A Forward Glance** Clare Colquitt, Susan Goodman, Candace Waid, 1999 In June 1923 Edith Wharton who had not set foot on native soil since before the First World War came home to accept an honorary degree from Yale University In April 1995 friends of Wharton again convened at Yale The essays collected in A Forward Glance New Essays on Edith Wharton represent a portion of the complex and varied scholarly work delivered at that conference From publisher's description **The Story of A** Patricia Crain, 2000 Richly illustrated with often antic images from alphabet books and primers The Story of A relates the history of the alphabet as a genre of text for children and of alphabetization as a social practice in America from early modern reading primers to the literature of the American Renaissance Offering a poetics of alphabetization and explicating the alphabet's tropes and rhetorical strategies the author demonstrates the far reaching cultural power of such apparently neutral statements as A is for apple The new market for children's books in the eighteenth century established for the republic of ABC a cultural potency equivalent to its high culture counterpart the republic of letters while shaping its child readers into consumers As a central rite of socialization alphabetization schooled children to

conflicting expectations as well as to changing models of authority understandings of the world and uses of literature In the nineteenth century literacy became a crucial aspect of American middle class personality and subjectivity Furnishing the readers and writers needed for a national literature the alphabetization of America between 1800 and 1850 informed the sentimental reform novel as well as the self consciously aesthetic novel of the 1850s Through readings of conduct manuals reading primers and a sentimental bestseller the author shows how the alphabet became embedded in a maternal narrative which organized the world through domestic affections Nathaniel Hawthorne by contrast insisted on the artificiality of the alphabet and its practices in his antimimetic hermetic *The Scarlet Letter* with its insistent focus on the letter A By understanding this novel as part of the network of alphabetization *The Story of A* accounts for its uniquely persistent cultural role The author concludes in an epilogue with a reading of postmodern alphabets and their implications for the future of literacy
