Jiseong James Kwon, Seth Bledsoe, 2023-05-08 Previous scholars have largely approached Wisdom and Torah in the Second Temple Period through a type of reception history whereby the two concepts have been understood as signifiers of independent earlier biblical streams of tradition that later came together in the Hellenistic and Roman eras largely under the process of a so called torahization of wisdom Recent studies critiquing the nature of wisdom and wisdom literature as operative categories for understanding scribal cultures in early Judaism as well as newer approaches to conceptualizing Torah and authorizing compositional practices related to the Pentateuchal texts however have challenged the foundations on which the previous models of Wisdom and Torah rested This volume therefore brings together several essays that aim to reexamine and rethink the ways we can describe the developments of texts categorized as Wisdom that proliferated during the Second Temple Period and whose contents point to an engagement with a Torah discourse By asking anew the question of whether Wisdom was transformed by into Torah during this period this volume offers reformulations on the discursive space between Wisdom and Torah through analyzing new identifications confluences and transformations **The Complete**
