Dickinson proposes a critique of religious belief which addresses how a secular world can continue to mine religious traditions for their conceptual and emotional riches. *Atheism and Love in the Modern Era* argues that theism and atheism taken together can peel back the layers of abstraction, alienation and disillusionment that always accompany our humanity in order to help us really see how it is to exist in this world. To illuminate this vision, Dickinson takes up the notion of love as a cultivation and practice of indifference as a letting go of one's identity, a crucial concept that unites both religion and atheism through a concerted effort to detach from them both. The book is organized into four sections, each situating the concept of love in relation to a distinct theme: the first outlines modern secularized versions of various religious concepts such as technology in the place of miracles or art in the place of religious revelation; the second argues that in a pluralistic world the actual lived realities of various religious communities and persons defy the static categories and classifications grouped under the umbrella of religion; the third section discusses and defines non-absolute love; the fourth section discusses how atheism in its critiques of religion misses the significance of de-centring the act of love. Dickinson elaborates his reflections through lucid engagement with a variety of thinkers including Immanuel Kant, Giorgio Agamben, Jacques Derrida, Erich Fromm, Charles Taylor and Philip Kitcher. This is essential reading for those interested in popular debates around theism and atheism as well as those concerned with the ways in which continental and analytic philosophy have addressed the continued significance of religious traditions.

Love in the Time of Fridge Tim Scott, 2008-07-29 Tim Scott's *Outrageous Fortune* marked the debut of one of the most wildly inventive writers to hit the sci-fi scene in years. Now he returns with a hilarious yet poignant novel of love, loss and itinerant appliances. New Seattle Health and Safety: Do not die for no reason. This is the motto of a city so obsessed with the danger of sharp corners that it has almost forgotten how to live. But Huckleberry Lindbergh is about to find his trip to the city most decidedly unsafe. For a chance encounter leads him into the heart of a dark conspiracy. And in order to stop it, this former cop is about to do something so unsafe, so monumentally stupid that its reverberations will be felt all the way to the Pentagon. Soon he is on the run from more authorities than he has had hot meals; his staunchest allies, a bunch of feral fridges that give new meaning to the words 'chill out'. But sometimes a dose of chaos is just what the doctor ordered, and Huck's quest to remain among the living teaches not only him but those around him the true meaning of survival in all its forms.

Love, Poetry, and Immortality: Luminous Insights of the World's Great Thinkers William Gerber, 2022-07-11 This book explores and illustrates the individuating characteristics and the interrelationships of love, poetry and literary immortality, such immortality that is as writers may win in the sense of being long remembered and appreciated by future readers. From the book's numerous quotations of glittering literary passages, it is evident that love is often expressed in poetry and that many authors, especially those writing about love, have expressed the winsome hope that their works would be greatly cherished by later generations. Part One of the book illustrates, by passages of matchless poetry, the joys and perils of love and other outstanding features of love. Part Two outlines the history of expressions by writers in many cultures of their

They describe parallel evolutions within the two cultures and how innovatively these independent civilisations developed their own categories and myths to explain, exalt but also control the emotions of love and their behavioural expressions. The analyses contain rich materials for comparison, point out the universal and specific elements in each culture and hint at differences and resemblances without ignoring the peculiar beauty and attractive force of the texts cultivating love.
