Low Town Low Town Book 1:

Towns and Villages of the Lower Ohio Darrel E. Bigham, 2015 No other region in America is so fraught with projected meaning as Appalachia Many people who have never set foot in Appalachia have very definite ideas about what the region is like Whether these assumptions originate with movies like Deliverance 1972 and Coal Miner's Daughter 1980 from Robert F Kennedy's widely publicized Appalachian Tour or from tales of hiking the Appalachian Trail chances are these suppositions serve a purpose to the person who holds them A person's concept of Appalachia may function to reassure them that there remains an authentic America untouched by consumerism to feel a sense of superiority about their lives and regions or to confirm the notion that cultural differences must be both appreciated and managed In Selling Appalachia Popular Fictions Imagined Geographies and Imperial Projects 1878 2003 Emily Satterwhite explores the complex relationships readers have with texts that portray Appalachia and how these varying receptions have created diverse visions of Appalachia in the national imagination She argues that words themselves not inherently responsible for creating or destroying Appalachian stereotypes but rather that readers and their interpretations assign those functions to them Her study traces the changing visions of Appalachia across the decades from the Gilded Age 1865 1895 to the present and includes texts such as John Fox Jr s Trail of the Lonesome Pine 1908 Harriet Arnow s Hunter s Horn 1949 and Silas House s Clay s Quilt 2001 charting both the portrayals of Appalachia in fiction and readers responses to them Satterwhite's unique approach doesn't just explain how people view Appalachia it explains why they think that way This innovative book will be a noteworthy contribution to Appalachian studies cultural and literary studies and reception theory The Master Book of Irish Placenames Michael C.
