Magical Parent Magical Child The Art Of Joyful Parenting:

Magical Parent Magical Child Michael Mendizza, Joseph Chilton Pearce, 2004-05-10 This parenting guide presents seven principles for guiding and teaching children in today's turbulent learning environment. It replaces traditional adult child formulas, rewards and punishments with playful interaction, creative intelligence and insight. With the goal of raising happy, healthy, intelligent young people, the book adopts proven strategies that allow top athletes and others to perform at high levels, called variously zone flow and play. Using these concepts, parents and other caregivers will learn how to create and maintain Optimum Learning Relationships with children of any age. The Art of Conscious Parenting Jeffrey L.

Fine, 2009-09-28 A new approach to creating, rediscovering and renewing the intimate bonds between parents and children. Explains the importance of bonding with your child in utero and the physical and mental preparation needed even before conception. Shows how green parenting, breast feeding, contact with nature and low tech creativity can enhance your child's life. *The Art of Conscious Parenting* won the 2010 Gold Nautilus Award for the best Parenting/Childcare book. The Nautilus Awards recognize books that promote spiritual growth, conscious living and positive social change while at the same time stimulating the imagination and offer the reader new possibilities for a better life and a better world. Our first days and months of life are critical in forming the attitudes we bring into adulthood and in structuring the very roots of our personality. Simple bonding techniques, long forgotten in our modern world but stemming from the age-old customs of indigenous peoples, are at the core of a new model of conscious parenting that can produce happy and well-adjusted children. These practices also help parents experience an increased joy and intimacy both with their child and with each other. Based on obstetric and psychological evidence, Jeffrey and Dalit Fine reveal how bonding begins in utero and that the physical and mental preparation of both the father and mother even before conception sets the tone for the future well-being of the child. They show how sustained physical contact and simple ways of consciously interacting with your infant, eye contact with the newborn baby, wearing instead of stroller use and co-sleeping have an observable positive effect. They also show that the green parenting practices of breast feeding, contact with nature and simple low tech creative play not only provide a more hands-on and intimate approach to parenting but also are more economical and environmentally sustainable. From in utero bonding through the challenges and joys of consciously interacting with your growing child, this book will help parents rediscover and apply the natural art of conscious parenting.

Respectful Parents, Respectful Kids Sura Hart, Victoria Kindle Hodson, 2006-10-28 More than a tool to correct bad behavior, this handbook urges parents to move beyond typical discipline techniques by creating an environment based on mutual respect, emotional safety and positive open communication. The seven outlined principles redefine the parent-dominated family by teaching parents how to achieve mutual parent-child respect without being submissive, set firm limits without using demands or coercion and empower children to open up, cooperate and realize their own innate potential. Based on Marshall Rosenberg's Nonviolent Communication process, the
