Reilly,Robert L. Scheina,1980 *The Birth of Biopolitics* Michel Foucault,2010-03-02 The sixth volume in Foucault s prestigious groundbreaking series of lectures at the Coll ge de France from 1970 to 1984 Notes and Queries ,1897 *Un-Making Law* Jay Feinman,2005-10-12 There is an undercover war going on in America that impacts everyone s life far more than the legal issues that typically grab the headlines The conservative movement has been systematically turning back a century s worth of the evolving gains and protections found in the common law the areas of law that affect the everyday activities of ordinary people Throughout the twentieth century contract property and personal injury law evolved to take more account of social conditions and the needs of consumers workers and less powerful members of American society Contracts were interpreted in light of common sense property ownership was subjected to reasonable use provisions to protect the environment and consumers were protected against dangerous products But all that is changing Conservatives have a clear agenda to turn back the clock on the common law to maximize the profits of big business Some significant inroads have already been made to protect gun manufacturers from lawsuits enforce form contracts that prevent employees from suing for discrimination and hamper the government s protection of the environment against aggressive development for example More rollbacks are on the horizon Although this aspect of the conservative agenda is not as visible as assaults on abortion rights and civil liberties it may ultimately have

even greater impact on our society Jay M Feinman s book is an accessible eye opening primer full of vivid examples and case histories from victims of medical malpractice who cannot recover damages to people who relinquish their right to sue by applying for a job If you subscribe to any of these common myths of twenty first century America you will find surprising facts and illuminating analysis in *Un Making Law The All American Blame Game* has corrupted our moral fiber everyone is looking for a scapegoat to sue whenever anything goes wrong Malpractice lawsuits have gone sky high in recent years forcing insurance companies reluctantly to raise rates and forcing doctors out of practice Consumers and employees agree to arbitration because it is a much simpler less expensive and fairer way to resolve contract disputes The government invades the rights of private property owners when it protects endangered species and regulates land development **Books in Print** ,1994 **Notes and Queries: a Medium of Inter-communication for Literary Men, Artists, Antiquaries, Genealogists, Etc** ,1897 *Adams and Calhoun* William F. Hartford,2023-05-25 Examines the evolving lives of two men who were crucial political figures in the consequential decades prior to the Civil War Although neither of them lived to see the Civil War John Quincy Adams and John C Calhoun did as much any two political figures of the era to shape the intersectional tensions that produced the conflict William F Hartford examines the lives of Adams and Calhoun as a prism through which to view the developing sectional conflict While both men came of age as strong nationalists their views like those of the nation diverged by the 1830s largely over the issue of slavery Hartford examines the two men s responses to issues of nationalism and empire sectionalism and nullification slavery and antislavery party and politics and also the expansion of slavery He offers fresh insights into the sectional conflict that also accounts for the role of personal idiosyncrasy and interpersonal relationships in the coming of the Civil War **Vegetarian Times** ,1982-09 To do what no other magazine does Deliver simple delicious food plus expert health and lifestyle information that s exclusively vegetarian but wrapped in a fresh stylish mainstream package that s inviting to all Because while vegetarians are a great vital passionate niche their healthy way of eating and the earth friendly values it inspires appeals to an increasingly large group of Americans VT s goal To embrace both **AB Bookman's Weekly** ,1997 *Land Use Effects on Streamflow and Water Quality in the Northeastern United States* Avril L. de la Cretaz,Paul K. economies for manufactured goods natural resource commodities and human provided services The book examines the geographic ecological and economic context of ecosystem services and provides a baseline of the current status of ecosystem services in law and society It identifies shortcomings of current law and policy and the critical areas for improvement and forges an approach for the design of new law and policy for ecosystem services Included are a series of nine empirical case studies that explore the problems caused by society's failure to properly value natural capital Among the case study topics considered are water issues The Conservation Reserve Program the National Conservation Buffer Initiative the agricultural policy of the European Union wetland mitigation and pollution trading The Law and Policy of Ecosystem Services is a groundbreaking look at the question of whether and how law and policy can shape a sustainable system of ecosystem service management It is an accessible and informative work for faculty students and policy makers concerned with ecology economics geography political science environmental studies law and related fields *Army History*, 1996 H.
