**Major Power Relations in Northeast Asia; Win-Win or Zero-Sum Game** David M. Lampton, 2001-10 Three countries China Japan and the United States and relations among them are likely to have a disproportionate impact on prospects for peace and prosperity in Asia Pacific in the twenty first century If the differences among these major actors are managed successfully the prospects for the region are bright indeed Conversely if the three fail to manage their relationship successfully or if relations between any two of the parties are seen to threaten the third the risks for the region and beyond will increase dramatically

**The Economy-security Nexus in Northeast Asia** T. J. Pempel, 2013 The dynamics of Northeast Asia have traditionally been considered primarily in military and hard security terms or alternatively along their economic dimensions This book argues that relations among the states of Northeast Asia are far more comprehensible when the mutually shaping interactions between economics and security are considered simultaneously It examines these interactions and some of the key empirical questions they pose the answers to which have important lessons for international relations beyond Northeast Asia Contributors to this volume analyze how the states of the region define their security and how bilateral relations in hard security issues and economic linkages play out among Japan China and the two Koreas Further the chapters interrogate how different patterns of techno nationalist development affect regional security ties and the extent to which closer economic connections enhance or detract from a nation's self perceived security The book concludes by discussing scenarios for the future and the conditions that will shape relations between economics and security in the region This book will be welcomed by students and scholars of Asian politics Asian economics security studies and political economy

**Conflict Management and Dispute Settlement in East Asia** Ramses Amer, 2016-05-23 Through a multi disciplinary approach this volume studies the management and settlement of conflict and disputes in East Asia Conflict and disputes exist everywhere in human society The management and settlement of them has become an imperative This volume is a significant contribution to a broader understanding of the complexities involved in managing and settling disputes and conflicts at regional inter state and intra state levels in the East Asian region Drawing on expertise in Peace and Conflict International Relations and International Law the volume presents to the reader a general picture of how conflict can be managed at the international and regional levels through various mechanisms in particular through prominent regional organizations such as ASEAN It then moves on to case studies at the regional level including inter state and intra state conflicts and disputes The last part of the volume highlights how states resolve their maritime disputes This has drawn much attention from the international community due to various factors such as the increasing demand for natural resources from the oceans These disputes disrupt the smooth development of international relations as well as trigger tensions and confrontation between states

**Japan's Foreign Policy, 1945-2009** Kazuhiko Tōgō, 2010 This book stands out amongst the crop of textbooks on Japanese foreign policy that have been available to date because of its authoritative insider voice

Here we not only learn what happened in postwar Japan's foreign policy but what the thinking was behind these decisions. This is an invaluable element that brings the reader inside the policy making rooms of the Ministry of Foreign Affairs itself. In the process Japan's world view and its own self image are concurrently revealed in fascinating and unexpected ways. This book destroys stereotypes and vastly improves the quality of our understanding of Japan as an international player. We are spoiled by the wisdom and experience of not just one but three major forces in the shaping of Japan's international existence: Mr Togo's own formidable experience plus the seminal contributions of his father and grandfather who was instrumental in the closing phases of World War II. All of this makes this book indispensable to those who wish to truly understand Japan in her own terms and through her own eyes. Rikki Kersten, Professor Modern Japanese Political History, Australian National University.

Togo's distinctive account of Japanese foreign policy highlights the impact of the vacuum left by the humiliation of defeat in 1945. It bears witness to the intellectual and diplomatic challenge of finding answers to unresolved issues including managing the U.S. alliance and enhancing cooperation in Asia. Updated to cover the results of the 2009 victory of the Democratic Party of Japan, this book shows how its change of course fits into a long term narrative. In contrast to more impersonal, often unsympathetic analysis of Western authors and the self-serving writing of many Japanese, Togo offers a guide to Japan's quest, not a defense of its choices. The result is a wide ranging look at foreign policy over more than 60 years seen from the perspective of an insider attentive to a proud nation's search for its bearings. Gilbert Rozman, Musgrave Professor of Sociology, Princeton University.

Legacies of World War II in South and East Asia David Koh Wee Hock, 2007. Illustrates how the political and social fallout from the World War II is still alive and divisive in South and East Asia.

**The US Policy Making Process for Post Cold War China** Wenzhao Tao, 2017-07-13. Combining a study of American Think Tanks and a study of American diplomatic policy on China following the Cold War, this book explores in detail the policy making process, procedures and mechanisms as well as the roles of various interest groups in the policy making process for China related policies. Further, it dissects the policy making process with regard to selected sensitive policies such as the US diplomatic policy on Taiwan, China-US trade policy on China, US human rights policy on China and US environmental and energy policy on China, and analyzes the function and influence of the American Think Tanks in the policy debates. Characterized by its high theoretical value, wealth of historical materials and painstaking analysis, the book is not only of important academic value but also offers a valuable reference guide to support the practical work of related departments in the Chinese government.

view of Sino Indian relations found in the published reports of Indian and Chinese security analysts is often at considerable odds with the more tempered opinions those same analysts express in private interviews and conversations What is the reality of the increasingly important security relationship between the two countries The authors of this new study address that question in depth Sidhu and Yuan explore a range of key issues including mutual distrust and misperception perhaps the most important factor the undemarcated border the status of Tibet and Sikkim trade the tussle over various nonproliferation treaties terrorism the regional roles of the U S and Pakistan and the impact of domestic public opinion and special interests They do see a trend toward a more pragmatic approach in Beijing and New Delhi to managing differences and broadening the agenda of common interests Nevertheless they conclude significant obstacles remain to the amicable relationship necessary for regional peace and stability posing a daunting challenge to policymakers in these two rising powers

*Japan in Decline* Purnendra Jain,Brad Williams,2011-03-21 To what extent is Japan in decline In recent years popular writings media commentaries and analysts often take the view that the rise of Japan is long since over and that the world s second largest economy is not just treading water but that society and the economy are failing with potential catastrophic outcomes But is this really the case Could it be that once again Japan is being misread and misinterpreted Are there not both obvious and less obvious signs of renewal and recovery And how might the new DPJ led government reform Japan Based on papers given at a major international conference held at the University of Adelaide in November 2009 this thesis is examined here by a group of the world s leading specialists in their fields addressing many of the key issues facing Japan today from the economy and environment to education social policy politics internationalization diplomacy security This volume will have wide ranging interdisciplinary relevance for students and specialists alike

Confucianism and the part played by Chinese think tanks      *The Nexus of Economics, Security, and International Relations in East Asia* Avery Goldstein, Edward D. Mansfield, 2012-08-29 While over the last 30 years the global economy's center of gravity has shifted to East Asia the region has remained surprisingly free of interstate military conflict Yet this era of peace and growth has been punctuated by periodic reminders of enduring security problems in the region from China's military modernization to unresolved territorial disputes to persistent tensions on the Korean peninsula This volume is one of the first to treat these issues of economics and security as interconnected rather than separate Its authors leading scholars from the U S and China shed new light on this important nexus by applying insights from a rich variety of approaches to explore and explain the dynamics of a region whose importance for students of both international political economy and international security has grown dramatically They show that both economic and security fundamentals matter if one is to understand the reasons for and evaluate the durability of East Asia's recent peace and prosperity      **New Perspectives on U.S.-Japan Relations** Curtis, Gerald L., 2000-12 How relevant today is an alliance that was forged between a powerful United States and a weak Japan in the context of a cold war struggle with the Soviet Union In what ways have the changes in the relative power positions of the two countries and the structural changes in the world economy created new challenges to the U S Japan relationship and how are the two countries responding to those challenges These are some of the important questions addressed by the eight Japanese and American authors of this volume Their focus ranges from issues of military relations trade and financial management and shifting security perspectives to the roles of the mass media in the bilateral relationship A truly binational effort the book brings together the thinking of some of the best trained younger political scientists to focus on the present and future of one of the most important bilateral relationships in the world      *The Copenhagen Journal of Asian Studies*, 2004
