## REMOVAL OF A MEMBER FOR CAUSING A DISRUPTION

- To warrant removal from the Chamber, interference or disruption must go beyond what is the natural consequence of robust debate.
- Interference and disruption that may be sufficient for the removal of a member must be of a nature that hamstrings and incapacitates Parliament from conducting its business. Even so, there must be no anticipation of resumption of business within a reasonable time.

**Majority Judgment** Michel Balinski, Rida Laraki, 2022-06-07 An account of a new theory and method of voting judging and ranking majority judgment shown to be superior to all other known methods In Majority Judgment Michel Balinski and Rida Laraki argue that the traditional theory of social choice offers no acceptable solution to the problems of how to elect to judge or to rank They find that the traditional model transforming the preference lists of individuals into a preference list of society is fundamentally flawed in both theory and practice Balinski and Laraki propose a more realistic model It leads to an entirely new theory and method majority judgment proven superior to all known methods It is at once meaningful resists strategic manipulation elicits honesty and is not subject to the classical paradoxes encountered in practice notably Condorcet's and Arrow's They offer theoretical practical and experimental evidence from national elections to figure skating competitions to support their arguments Drawing on insights from wine sports music and other competitions Balinski and Laraki argue that the question should not be how to transform many individual rankings into a single collective ranking but rather after defining a common language of grades to measure merit how to transform the many individual evaluations of each competitor into a single collective evaluation of all competitors The crux of the matter is a new model in which the traditional paradigm to compare is replaced by a new paradigm to evaluate

themes of logic An introductory text but not only that It goes much further It s worth diving into the pages of this book dear reader Paulo Sérgio Argolo      **Sitting in Judgment** Penny Darbyshire,2011-09-30 The public image of judges has been stuck in a time warp they are invariably depicted in the media and derided in public bars up and down the country as privately educated Oxbridge types usually out of touch and more often than not as old men These and other stereotypes the judge as a pervert the judge as a right wing monster have dogged the judiciary long since any of them ceased to have any basis in fact Indeed the limited research that was permitted in the 1960s and 1970s tended to reinforce several of these stereotypes Moreover occasional high profile incidents in the courts elaborated with the help of satirists such as Private Eye and Monty Python have ensured that the old white Tory judge caricature not only survives but has come to be viewed as incontestable Since the late 1980s the judiciary has changed largely as a result of the introduction of training and new and more transparent methods of recruitment and appointment But how much has it changed and what are the courts like after decades of judicial reform Given unprecedented access to the whole range of courts from magistrates courts to the Supreme Court Penny Darbyshire spent seven years researching the judges accompanying them in their daily work listening to their conversations observing their handling of cases and the people who come before them and asking them frank and searching questions about their lives careers and ambitions What emerges is without doubt the most revealing and compelling picture of the modern judiciary in England and Wales ever seen From it we learn that not only do the old stereotypes not hold but that modern baby boomer judges are more representative of the people they serve and that the reforms are working But this new book also gives an unvarnished glimpse of the modern courtroom which shows a legal system under stress lacking resources but facing an ever increasing caseload This book will be essential reading for anyone wishing to know about the experience of modern judging the education training and professional lives of judges and the current state of the courts and judiciary in England and Wales      Final Judgment Alan Paterson,2014-07-18 Winner of the Inner Temple book prize 2015 and the Socio Legal Studies Association Book prize 2014 15 The House of Lords for over 300 years the UK s highest court was transformed in 2009 into the UK Supreme Court This book provides a compelling and unrivalled view into the workings of the Court during its final decade and into the formative years of the Supreme Court Drawing on over 100 interviews including more than 40 with Law Lords and Justices and uniquely some of their judicial notebooks this is a landmark study of appellate judging from the inside by an author whose earlier work on the House of Lords has provided a scholarly benchmark for over 30 years The book demonstrates that appellate decision making in the UK s final court remains a social and collective process primarily because of the dialogues which take place between the judges and the key groups with which they interact when reaching their decisions As the book shows the forms of dialogue are now more varied yet the most significant dialogues continue to be with their fellow Law Lords and Justices and with counsel To these new dialogues have been added namely those with foreign courts especially Strasbourg and with judicial assistants which have subtly altered the

tenor and import of their other dialogues The research reveals that unlike the English Court of Appeal the House of Lords in its last decade was only intermittently collegial since Lord Bingham s philosophy of appellate judging left opinion writing concurrences and dissents largely to individual preference In the Supreme Court however there has been a marked shift to team working and collective decision making bringing with it challenges and occasional tensions not seen in the final years of the House of Lords The work shows that effectiveness in group decision making in the final court turns in part on the stages when dialogues occur in part on the geography of the court and in part on the task leadership and social leadership skills of the judges involved in particular cases The passing of the Human Rights Act and the expansion in judicial review over the last 30 years have dramatically altered the two remaining dialogues those with Parliament and with the Executive With the former the dialogue has grown more distant with the latter more problematic than was the case 40 years ago The last chapter rehearses where the changing dialogues have left the UK s final court Ironically despite the oft applauded commitment of the new Court to public visibility the book concludes that even greater transparency in the dialogue with the public may be required The way appellate judges at the highest level behave to each other to counsel with other branches of government and with other courts is brought under closer scrutiny in this book than ever before The remarkable width and depth of his examination has resulted in a work of real scholarship which all those who are interested in how appellate courts work all over the common law world will find especially valuable From the foreword by Lord Hope of Craighead KT Alan Paterson s knowledge and interest in the Supreme Court coupled with his expertise as a lawyer who understands the legal system and the judicial process make him a perfect chronicler and assessor of what the Court s role is and what it should be and how it functions and how it might improve Lord Neuberger President of the Supreme Court

**Competition Law in South Africa** Precious N. Ndlovu, 2022-06-20 Derived from the renowned multi volume International Encyclopaedia of Laws this practical analysis of competition law and its interpretation in South Africa covers every aspect of the subject the various forms of restrictive agreements and abuse of dominance prohibited by law and the rules on merger control tests of illegality filing obligations administrative investigation and enforcement procedures civil remedies and criminal penalties and raising challenges to administrative decisions Lawyers who handle transnational commercial transactions will appreciate the explanation of fundamental differences in procedure from one legal system to another as well as the international aspects of competition law Throughout the book the treatment emphasizes enforcement with relevant cases analysed where appropriate An informative introductory chapter provides detailed information on the economic legal and historical background including national and international sources scope of application an overview of substantive provisions and main notions and a comprehensive description of the enforcement system including private enforcement The book proceeds to a detailed analysis of substantive prohibitions including cartels and other horizontal agreements vertical restraints the various types of abusive conduct by the dominant firms and the appraisal of concentrations and then goes on to the administrative

**Indigenous Legal Judgments** Nicole Watson, Heather Douglas, 2021-06-27 This book is a collection of key legal decisions affecting Indigenous Australians which have been re imagined so as to be inclusive of Indigenous people s stories historical experience perspectives and worldviews In this groundbreaking work Indigenous and non Indigenous scholars have collaborated to rewrite 16 key decisions Spanning from 1889 to 2017 the judgments reflect the trajectory of Indigenous people s engagements with Australian law The collection includes decisions that laid the foundation for the wrongful application of terra nullius and the long disavowal of native title Contributors have also challenged narrow judicial interpretations of native title which have denied recognition to Indigenous people who suffered the prolonged impacts of dispossession Exciting new voices have reclaimed Australian law to deliver justice to the Stolen Generations and to families who have experienced institutional and police racism Contributors have shown how judicial officers can use their power to challenge systemic racism and tell the stories of Indigenous people who have been dehumanised by the criminal justice system The new judgments are characterised by intersectional perspectives which draw on postcolonial critical race and whiteness theories Several scholars have chosen to operate within the parameters of legal doctrine Some have imagined new truth telling forums highlighting the strength and creative resistance of Indigenous people to oppression and exclusion Others have rejected the possibility that the legal system which has been integral to settler colonialism can ever deliver meaningful justice to Indigenous people The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license

**Majority Decisions** Stéphanie Novak, Jon Elster, 2014-06-30 This book presents the most complete set of analytical normative and historical discussions of majority decision making to date One chapter critically addresses the social choice approach to majority decisions whereas another presents an alternative to that approach Extensive case studies discuss majority voting in the choice of religion in early modern Switzerland majority voting in nested assemblies such as the French Estates General and the Federal Convention majority voting in federally organized countries qualified majority voting in the European Union Council of Ministers and majority voting on juries Other chapters address the relation between majority decisions and cognitive diversity the causal origin of majority decisions and the pathologies of majority decision making Two chapters finally discuss the counter majoritarian role of courts that exercise judicial review The editorial Introduction surveys conceptual causal and normative issues that arise in the theory and

practice of majority decisions      **Rewriting Children's Rights Judgments** Helen Stalford, Kathryn Hollingsworth, Stephen Gilmore, 2017-11-02 This important edited collection is the culmination of research undertaken by the Children's Rights Judgments Project. This initiative involved academic experts revisiting existing case law drawn from a range of legal sub-disciplines and jurisdictions and redrafting the judgment from a children's rights perspective. The rewritten judgments shed light on the conceptual and practical challenges of securing children's rights within judicial decision making and explore how developments in theory and practice can inform and reinvigorate the legal protection of children's rights. Collectively the judgments point to five key factors that support a children's rights based approach to judgment writing. These include using children's rights law and principles drawing on academic insights and evidence endorsing child friendly procedures adopting a children's rights focused narrative and using child friendly language. Each judgment is accompanied by a commentary explaining the historical and legal context of the original case and the rationale underpinning the revised judgment including the particular children's rights perspective adopted, the extent to which it addresses the children's rights deficiencies evident in the original judgment and the potential impact the alternative version might have had on law policy or practice. Presented thematically with contributions from leading scholars in the field, this innovative collection offers a truly new and unique perspective on children's rights.

Northern / Irish Feminist Judgments Máiréad Enright, Julie McCandless, Aoife O'Donoghue, 2017-02-09 The Northern Irish Feminist Judgments Project inaugurates a fresh dialogue on gender, legal judgment, judicial power and national identity in Ireland and Northern Ireland. Through a process of judicial reimagining, the project takes account of the peculiarly Northern Irish concerns in shaping gender through judicial practice. This collection following on from feminist judgments projects in Canada, England and Australia takes the feminist judging methodology in challenging new directions. This book collects 26 rewritten judgments covering a range of substantive areas. As well as opinions from appellate courts, the book includes first instance decisions and a fictional review of a Tribunal of Inquiry. Each feminist judgment is accompanied by a commentary putting the case in its social context and explaining the original decision. The book also includes introductory chapters examining the project methodology, constructions of national identity, theoretical and conceptual issues pertaining to feminist judging and the legal context of both jurisdictions. The book shines a light on past and future possibilities and limitations for judgment on the island of Ireland. This book provides a rich and expansive addition to the feminist judgments catalogue. The judgments demonstrate powerfully how Northern Irish judges have contributed to the gendered politics of national identity and how the narrow subject positions they have created for women and others could have been so much wider and more open. Professor Rosemary Hunter, School of Law, Queen Mary University London. The Northern Irish Feminist Judgments Project is inspirational reading for anyone interested in feminism or Irish studies. It is a model of how to conduct feminist enquiry. Its most innovative contribution to scholarship and politics is how the rewriting of landmark legal judgments from a feminist perspective allows us to imagine and therefore begin to

construct a more egalitarian a more just future Associate Professor Katherine O Donnell School of Philosophy University College Dublin If you let it this book will make you think It made me think it reminded me I suppose that legal writing can be wonderful rigorous creative deeply observant provocative Read it and see what it makes you think Professor Th r se Murphy School of Law Queen s University Belfast

Brooks,2022-03-17 Shows how the Supreme Court can repair its diminished legitimacy in a society committed to diversity and inclusion *The Legacy of Ad Hoc Tribunals in International Criminal Law* Milena Sterio,Michael Scharf,2019-02-21 Assesses the legacy and impact of the ICTY and ICTR focusing on their most significant legal achievements in international criminal law

**Common Law and Modern Society** Mary Arden,2015-12-17 Law is a lasting social institution but it must also be open to change How is law made and what prompts change How can society influence the law and how does the law respond to societal change The first volume of *Shaping Tomorrow s Law* examined human rights and European law In this second volume Mary Arden turns her attention to domestic law providing a judge s viewpoint on the roles of society government and the judiciary in the transformation and reform of the law The first section of *Common Law and Modern Society* explains what we mean by judge made law and shows how the law responds to the needs of a changing society Adaptation may be in response to shifting values or in response to constitutional change This is demonstrated in chapters on assisted reproduction and assisted dying both modern concerns and a far older example that of the law on water which has been evolving over the centuries in response to society s changing demands The law also needs to reflect constitutional change as in the case of Welsh devolution The second section of the book looks at the necessary simplification of the law and systematic legal reform These tasks lie at the heart of the work of the Law Commission which celebrated its 50th anniversary in 2015 Drawing on her own experience as former Chairman of the Law Commission Mary Arden argues that statute law can be made simpler by codification and that the success of codification may vary depending on the field of law The final section looks ahead to tomorrow s judiciary The accountability of judges is a continuing area of discussion and this includes ensuring that the reasoning behind their decisions is understood by the relevant people Mary Arden goes on to argue that the vision for the judiciary today and tomorrow should be one of greater diversity in the widest sense This will help to ensure not only greater fairness and wider opportunity but also better decision making The book concludes with advice and encouragement for future legal professionals

**Hong Kong's Court of Final Appeal** Simon N. M. Young,Yash Ghai,2013-12-12 In the years since it was established on 1 July 1997 Hong Kong s Court of Final Appeal has developed a distinctive body of new law and doctrine with the help of eminent foreign common law judges Under the leadership of Chief Justice Andrew Li it has also remained independent under Chinese sovereignty and become a model for other Asian final courts working to maintain the rule of law judicial independence and professionalism in challenging political environments In this book leading practitioners jurists and academics examine the Court s history operation and jurisprudence and provide a comparative analysis with European courts and China s other autonomous final

court in Macau It also makes use of extensive empirical data compiled from the jurisprudence to illuminate the Court's decision making processes and identify the relative impacts of the foreign and local judges **Human Rights in the UK and the Influence of Foreign Jurisprudence** Hélène Tyrrell, 2018-09-20 Longlisted for the 2022 Inner Temple Main Book Prize Human Rights in the UK and the Influence of Foreign Jurisprudence represents the first major empirical study of the use of foreign jurisprudence at the UK Supreme Court This book focuses on the patterns of use and non use of rulings from foreign domestic courts in human rights cases before the UK Supreme Court Results are drawn from quantitative and qualitative research presenting data from the first eight years of Supreme Court activity The evidence includes interviews with active and former members of the senior judiciary as well as a focus group including some of the Supreme Court Judicial Assistants It is argued that foreign jurisprudence is more intimately woven into the fabric of judicial reasoning and serves a wider range of functions than the term persuasive authority might imply Foreign jurisprudence is used mainly as a heuristic device providing judges with a fresh analytical lens Foreign jurisprudence is also important when interpreting a common legislative scheme supporting dialogue between the Supreme Court and supranational courts such as the European Court of Human Rights The perspectives offered by foreign jurisprudence can also support a stronger conception of domestic human rights In these ways this book addresses a broader political question about the source of human rights in the UK **Wine**

**Laboratory Experiments on Electoral Law Reform** Bernard Dolez, Bernard Grofman, Annie Laurent, 2010-12-01 In the modern era representation is the hallmark of democracy and electoral rules structure how representation works and how effectively governments perform Moreover of the key structural variables in constitutional design it is the choice of electoral system that is usually the most open to change There are three distinctive approaches to electoral system research One associated largely with economics involves the study of electoral system effects through the deductive method using mathematical tools to derive theorems about the properties of voting methods and behaviors A second associated largely with political science has a primarily empirical focus and looks in depth at how electoral rules impact on political outcomes through large cross sectional or case studies A third and more recent tradition inspired largely by work in experimental economics involves experimentation either in the form of controlled laboratory experiments or in the form of in situ field studies This volume employs the third approach to report on experiments that look at alternatives to the present two round majority runoff system used for the election of French presidents This system is of considerable importance not just because of its use in France but also because of its wide adoption in presidential elections in new democracies such as Bulgaria Poland Romania Russia and Ukraine The editors have assembled the top experimental economists and political scientists

specializing in French politics to provide in depth analysis of the double ballot electoral system and more broadly of the effect of electoral rules on the number of candidates voter strategies and ideological choice Ultimately the editors and contributors argue that experimental methods have great potential to inform our understanding of institutional mechanisms in the context of voting behavior

*Proving International Crimes* Yvonne McDermott, 2024-08-19 *Proving International Crimes* elucidates how international criminal tribunals have tackled the immense and complex task of proving international crimes such as genocide war crimes and crimes against humanity The challenges posed by the scale and scope of these crimes and the distance in time and space between their commission and their prosecution are well known Nevertheless investigators lawyers scholars and policy makers often look to the law and practice of international criminal tribunals to establish what standards need to be met in the collection preservation presentation and analysis of evidence to prove international crimes In offering a comprehensive account of the law and practice of evidence before international criminal courts and tribunals to date as well as recommendations for future practice this book aims to inform domestic regional and international accountability processes for crimes going forward This book demonstrates that owing to the flexibility built in to the legal and procedural frameworks of international criminal courts and tribunals the law of international criminal evidence is often unpredictable and uncertain To this end McDermott argues for the development of a coherent epistemic framework driven by two guiding principles rectitude of decision and the highest standards of fairness
