growing Curran picked one According to Curran an agricultural writer with many years of experience the soil less method is the easiest for anyone to master This book chooses soil less with a specific soil mixture which has the advantages of hydroponics without the risks if you make a mistake with hydroponics all your plants may die And presents an almost foolproof method of growing that almost anyone can master using both CFLs and LED lights and sunlight when possible The book covers everything from mixing the soil less mix to how to create two small 2 x 2 x 6 grow sheds to provide a person s medical needs with only 6 plants There is a myth out there that only sunlight or expensive high powered energy consuming sodium lamps can grow quality medicine According to Curran it is true plants grown with LED light will not grow as tall as with Sodium lights Would you really want to try and grow 16 foot plants in your apartment but the quality of the medicine will be as potent as the plant can provide using any other method Curran who suffered from the intense pain of kidney stones can attest to the method providing quality medicine from experience The book is intended only for medical marijuana patients in the states which allow it or their agents and by purchasing this book you indicate that you are a medical licensed marijuana patient or the agent thereof **Grow It!** Richard W.
