Making A Killing Hmos And The Threat To Your Health:

Making a Killing Jamie Court, Francis Smith, 1999 Court a nationally recognized consumer advocate and founder of a health care watchdog project and Smith an attorney and president of a public policy consulting firm expose appalling practices of HMOs and the corrupt world of managed care They tell true stories of patient victims who got caught and killed in the system and expose the profit motive behind the misery revealing the collusion of the insurance industry's powerful lobbyists with Congress and state legislatures to block any serious reforms They supply an HMO patients self defense kit to help patients overcome HMO stonewalling

In Pursuit of Justice Ralph Nader, 2011-01-04 Ralph Nader is one of America's most controversial and uncompromising public figures He is a man on a mission who believes that taking on the powers that be involves more than just talking about it it also means taking action From car safety in the 1960s to opposition to the World Trade Organization in the 1990s Nader's work has increased government responsiveness to citizens served as a check against the abuse of power by big business and shaped the political consciousness of a nation Nader's sense of mission is infused in all of his work especially his weekly columns In Pursuit of Justice a collection of Nader's most recent trenchant articles written in the years immediately following the publication of The Ralph Nader Reader Nader addresses a broad array of issues among them corporate crime and power government accountability media control consumer rights healthcare congressional reform nuclear power and energy racial discrimination poverty food and drug safety air and water pollution fair taxation product liability protection union democracy living family wage unfair lending practices community radio industrial hemp banking pension law telecommunications and the importance of character Nader has even sponsored consumer initiatives to reform university governance educational testing daily newspapers women's health care legal services and professional sports all of which are reflected in these sharp and sometimes humorous essays As informative as it is pleasurable to read section after section of In Pursuit of Justice slices through government and corporate propaganda and reveals the corruption bias and injustice that all too often connect politics with big business thereby impeding the pursuit of justice Collecting more than one hundred of his most recent writings In Pursuit of Justice conveys Nader's inimitable sense of both the global political economy and our nation's democratic promise

The Trust Prescription for Healthcare David A. Shore, 2005 With the healthcare industry under increasing scrutiny hospitals and other healthcare providers must seek out ways of building trust both within their organization and throughout the community David Shore's The Trust Prescription for Healthcare shows providers and organizations how to build their capacity for trust and trustworthiness and how to turn that capacity into a trusted reputation and brand The data is compelling having both the trust of the community and a reputation as a trusted provider are at once good medicine good business and great leadership Providers and organizations who make the investment in trust will find that they become more effective and efficient both clinically and administratively This book guides readers in building a trust capacity with questions ideas and examples It also spells out the return on investment that

organizations can expect from building the trust brand This book provides readers with tools strategies and techniques they can put to use in rebuilding their department service or organization into a trustworthy one Pathologies of Power Paul Farmer,2005 Pathologies of Power uses harrowing stories of life and death to argue thatthe promotion of social and economic rights of the poor is the most important human rights struggle of our times Medical Anthropology and the World System Hans A. Baer,Merrill Singer,Ida Susser,2013-05-23 Now in its third edition this textbook serves to frame understandings of health health related behavior and health care in light of social and health inequality as well as structural violence It also examines how the exercise of power in the health arena and in society overall impacts human health and well being Medical Anthropology and the World System Critical Perspectives Third Edition includes updated and expanded information on medical anthropology resulting in an even more comprehensive resource for undergraduate students graduate students and researchers worldwide As in the previous versions of this text the authors provide insights from the perspective of critical medical anthropology a well established theoretical viewpoint from which faculty researchers and students study medical anthropology It addresses the nature and scope of medical anthropology the biosocial and political ecological origins of disease health inequities and social suffering and the nature of medical systems in indigenous and pre capitalist state societies and modern societies The third edition also includes new material on the relationship between climate change and health Finally this textbook explores health praxis and the struggle for a healthy world **Solving America's Health Care Crisis** , The Democracy Owners' Manual Jim Shultz,2002 The Democracy Owners Manual is a unique hands on guide for people who want to change public policy at the local state or national level A combination of policy and advocacy basics the book offers a clear presentation of the issues and debates activists are likely to encounter as well as a lucid example rich guide to effective strategies and actions **How Corporations Hurt Us All** Dan Butts,2003 The recent accounting and corporate scandals of Enron WorldCom Tyco K Mart and McWane producer of cast iron water and sewer pipes which has killed 9 workers and injured 4600 more with impunity since 1995 and other greedy and lawless billion dollar behemoths are just the tip of the iceberg relative to the serious and pervasive harm that corporations and greed are doing to people communities the earth and to our children s and grandchildren s future How Corporations Hurt Us All examines many crises including how Big Oil billion dollar weapons contractors and unaccountable private firms like DynCorps are continuing dangerous and immoral Cold War policies by driving multiple wars and military operations our collapsing corporate health care system that restricts free speech stifles public debate and manipulates public opinion to serve narrow corporate and political goals Some of the world s largest multinational corporationsDExxonMobil 1 oil company Wal Mart 1 retailer HCA 1 hospital conglomerate Citigroup the world s 1 financial institution and other rogue operations are profiled in the book The good news is that there are effective approaches to all of these interrelated greed driven crises Even more hopeful are the corporate reform and global economic democracy movements representing thousands of dedicated citizens groups and

millions of individuals throughout the world. Yet what is ultimately necessary to reverse global economic, social, and environmental deterioration and eventual collapse, insure world peace and security, strengthen our weakened civil liberties, and fulfill our human potential, as the book explains, is forging a broad consensus on a new bottom line or organizing principle for business and society.

Breaking Point John P. Geyman, John Geyman, 2011. Our market-based, profit-driven health care system in the United States has put necessary care increasingly beyond the reach of ordinary Americans. Primary health care, the fundamental foundation of all high-performing health care systems in the world, is a critical but ignored casualty of the current system. Unfortunately, primary care is often poorly understood even within the health professions. This book describes what has become a crisis in primary care, defines its central role, analyzes the reasons for its decline, and assesses its impacts on patients and families. A constructive approach is presented to rebuild and transform U.S. primary care with the urgent goal to address the nation's problems of access, cost, quality, and equity of health care for all Americans.

Healthcare Politics and Policy in America: 2014 Kant Patel, Mark E. Rushefsky, 2014-12-18. This book provides a comprehensive examination of the ways that health policy has been shaped by the political, socioeconomic, and ideological environment of the United States. The roles played by public and private institutional and individual actors in designing the healthcare system are identified at all levels. The book addresses the key problems of healthcare cost, access, and quality through analyses of Medicare, Medicaid, the Veterans Health Administration, and other programs, and the ethical and cost implications of advances in healthcare technology. This fully updated fourth edition gives expanded attention to the fiscal and financial impact of high healthcare costs and the struggle for healthcare reform culminating in the passage of the Affordable Care Act, with preliminary discussion of implementation issues associated with the Affordable Care Act as well as attempts to defund and repeal it. Each chapter concludes with discussion questions and a comprehensive reference list. Helpful appendices provide a guide to websites and a chronology. PowerPoint slides and other instructional materials are available to instructors who adopt the book.

One Nation, Uninsured Jill Quadagno, 2006-10-09. Every industrial nation in the world guarantees its citizens access to essential health care services; every country that is except the United States. In fact, one in eight Americans—a shocking 43 million people—do not have any health care insurance at all. *One Nation, Uninsured* offers a vividly written history of America's failed efforts to address the health care needs of its citizens. Covering the entire twentieth century, Jill Quadagno shows how each attempt to enact national health insurance was met with fierce attacks by powerful stakeholders who mobilized their considerable resources to keep the financing of health care out of the government's hands. Quadagno describes how, at first, physicians led the anti-reform coalition, fearful that government entry would mean government control of the lucrative private health care market. Doctors lobbied legislators, influenced elections by giving large campaign contributions to sympathetic candidates, and organized grassroots protests, conspiring with other like-minded groups to defeat reform efforts. As the success of Medicare and Medicaid in the mid-century led physicians and the AMA to start scaling

back their attacks the insurance industry began assuming a leading role against reform that continues to this day One Nation Uninsured offers a sweeping history of the battles over health care It is an invaluable read for anyone who has a stake in the future of America s health care system **101 Ways to the Best Medical Care** Charlotte E. Thompson,2006-08 101 Ways To The Best Medical Care is the medical guide that could save your life or the life of a loved one A gold mine of practical information and resources are provided **Bottom Line Medicine** Richard K.
