Steer, Banco Mundial, 1995 **Developing Future-ready Learners for a Global Age** Suzanne S. Choo, Woon Chia Liu, Bee Leng Chua, 2024-12-02 Suzanne S Choo Woon Chia Liu and Bee Leng Chua offer a dynamic look into the tripartite relationship between education research policy

and practice that characterizes Singapore's changing education landscape. Over the years, Singapore has garnered increasing attention internationally for its world-class education system. Pushing back against the stereotypical notions of exam and teacher-centric education in Asia, the contributors to this volume discuss opportunities as well as challenges in Singapore's innovation towards constructivist, critical, culturally responsive, and cosmopolitan forms of learning. Highlighting the pedagogical innovation and its context in Singapore's teacher education and schools, the authors bridge theory and practice by providing an understanding of innovative practices informed by key shifts in Singapore's education policies and the key conceptual principles informing these practices. More importantly, it provides on-the-ground empirical insights into the ways these innovative pedagogical practices are enacted in the classroom and in teacher education programmes. Each chapter provides an in-depth understanding of how these pedagogies are applied across various subject disciplines, including guided problem-solving in Mathematics, games-based pedagogy in Science, multimodal literacies in language, ethical criticism in Literature, Nonlinear Pedagogy in Physical Education, multicultural approaches in music, and dialogic pedagogy in drama, among others. Balancing theoretical and empirical focus, this resourceful text will be of interest to students, researchers, and practitioners in educational development, pedagogy, and teacher education, as well as policymakers across international fields in education.

Timber Sale Planning and Analysis System Ervin G. Schuster, 1995

Social justice and public policy Gary Craig, Tania Burchardt, David Gordon, 2008-06-18

Social justice is a contested term incorporated into the language of widely differing political positions. Those on the left argue that it requires intervention from the state to ensure equality of opportunity; those on the right believe that it can be underpinned by the economics of the market place with little or no state intervention. To date, political philosophers have made relatively few serious attempts to explain how a theory of social justice translates into public policy. This important book, drawing on international experience and a distinguished panel of political philosophers and social scientists, addresses what the meaning of social justice is and how it translates into the everyday concerns of public and social policy in the context of both multiculturalism and globalisation.

Marine Tourism and Climate Change Impacts Prashant Raturi, 2025-02-20

Marine Tourism and Climate Change Impacts explores the intricate relationship between marine tourism and climate change. We cover a wide range of topics, including different types of coastal and marine tourism, the importance of coastal ecosystems, threats to marine tourism from climate change, and planning for its impacts. Marine tourism is a growing industry that benefits many coastal communities. However, climate change poses a major threat to this sector. We discuss various strategies to mitigate these impacts and safeguard the future of marine tourism. Our book provides a comprehensive understanding of how climate change affects marine tourism and what can be done to address these challenges. It is a valuable resource for anyone interested in learning more about this critical issue.
