Making It Legal Making It Legal:

Law-Making in the People's Republic of China Jianfu Chen, Yuwen Li, Jan Michiel Otto, Maurice V. Polak, 2021-10-25
Who are the legislators and what are the products of the legislative process in China How does a law come into being What meaning should we ascribe to these legislative products from the perspective of legal certainty Can we recognise a Chinese approach to or style of law making What technical legislative problems have Chinese jurists identified and what sorts of solutions to them are being considered These are the questions which Law making in the PRC attempts to solve The volume opens with papers on the historical perspective of law making on ideology and law making and on a comparison between the PRC's legal framework and the frameworks of other legal systems Part II deals with various Institutions and Actors involved and offers analyses of the National People's Congress the State Council departmental rule making local law making law making in autonomous regions public participation and the proposed law on law making by academics Part III offers three case studies in which important areas of legal development are analysed from a law making point of view The selected areas are administrative law contract law and criminal law *Making and Changing Law in Small Jurisdictions* Caroline Morris, 2024-03-12 This book puts the spotlight on a different and neglected aspect of law drafting and reform the question of size Specifically how does the size of a jurisdiction affect its ability to make and change its laws Some of the challenges affecting small jurisdictions include a lack of resources and paucity of policy drafting capacity the pressures and pull from sources outside the jurisdiction e.g. international bodies or NGOs larger states treaty commitments a vulnerability to domestic capture e.g. criminal elements big local businesses strong domestic lobby groups weak bad governance e.g. laws or institutions which themselves do not encourage or promote good governance reflection and reform the legacy of colonial legal systems and their interaction with indigenous or customary laws and struggles to comply with constitutional norms such as accountability and transparency Despite these difficulties small jurisdictions also have certain advantages when it comes to making and reforming law they can be flexible and creative they can legislate very quickly if the political will is there and there is strong informal formal accountability in a small jurisdiction This edited collection explores law reform and law drafting in small jurisdictions through the themes of sovereignty the impact of colonialism and legal plurality the challenges of harmonising laws at regional and international levels and constitutional reform Of use to researchers and practitioners alike International Environmental Law-making and Diplomacy Tuomas Kuokkanen, Ed Couzens, Tuula Honkonen, Melissa Lewis, 2016-01-29 Bringing together contributions from diplomats UN agency officials lawyers and academics this book provides insight into the evolution of international environmental law diplomacy and negotiating techniques Based on first hand experiences and extensive research the chapters offer a blend of practice and theory history and analysis presenting a range of historical episodes and nuances and drawing lessons for future improvements to the processes of law making and diplomacy The book represents a synthesis of the most important messages to emerge from the

annual course on Multilateral Environmental Agreements delivered to diplomats and negotiators from around the world for the last decade by the University of Eastern Finland and the United Nations Environment Programme The book will be of interest as a guide for negotiators and as a supplementary textbook and a reference volume for a wide range of students of law and environmental issues *International Economic Organizations in the International Legal Process* Sergei a Voitovich,1994-12-08 Voitovich presents a clear and lucid discussion of the manner and form in which international economic organizations IEOs participate in two main stages of the international legal process law making and law implementation The book is based on normative instruments and fragments of practice of about fifty IEOs In order to ensure a proper and timely realization of their normative acts IEOs exercise a number of law implementing functions which are subject to a thorough comparative examination The author concludes that existing IEOs not being ideal institutional models possess a sufficient arsenal of law implementing instruments to make a considerable impact on the international legal regulations in the economic field The book will be of interest to academics and economic political scientists **Institutionalized Reason** Matthias Klatt,2012-02-23 Matthias Klatt is Professor for Public Law EU Law Public International Law and Jurisprudence at the University of Hamburg Book Jacket [UGC NET Law Unit-1 Jurisprudence book theory + 400 Question Answer as per Syllabus](#) Diwakar Education Hub,2022-08-18 theory MCQ of UGC NET Law Unit 1 Jurisprudence **Foundations of Public Law** Martin Loughlin,2012-09-27 Foundations of Public Law offers an account of the formation of the discipline of public law with a view to identifying its essential character explaining its particular modes of operation and specifying its unique task Building on the framework first outlined in The Idea of Public Law OUP 2003 the book conceives public law broadly as a type of law that comes into existence as a consequence of the secularization rationalization and positivization of the medieval idea of fundamental law Formed as a result of the changes that give birth to the modern state public law establishes the authority and legitimacy of modern governmental ordering Public law today is a universal phenomenon but its origins are European Part I of the book examines the conditions of its formation showing how much the concept borrowed from the refined debates of medieval jurists Part II then examines the nature of public law Drawing on a line of juristic inquiry that developed from the late sixteenth to the early nineteenth centuries extending from Bodin Althusius Lipsius Grotius Hobbes Spinoza Locke and Pufendorf to the later works of Montesquieu Rousseau Kant Fichte Smith and Hegel it presents an account of public law as a special type of political reason The remaining three Parts unpack the core elements of this concept state constitution and government By taking this broad approach to the subject Professor Loughlin shows how rather than being viewed as a limitation on power law is better conceived as a means by which public power is generated And by explaining the way that these core elements of state constitution and government were shaped respectively by the technological bourgeois and disciplinary revolutions of the sixteenth century through to the nineteenth century he reveals a concept of public law of considerable ambiguity complexity and resilience *Law School Essays That Made a Difference, 6th Edition* The Princeton

Loizidou,2007-04-11 The first to use Judith Butler s work as a reading of how the legal subject is formed this book traces how Butler comes to the themes of ethics law and politics analyzing their interrelation and explaining how they relate to Butler s question of how people can have more liveable and viable lives Acknowledging the potency and influence of Butler s concept of gender as process which occupies a well developed and well discussed position in current literature Elena Loizidou argues that the possibility of people having more liveable and viable lives is articulated by Butler within the parameters of a sustained agonistic relationship between the three spheres of ethics law and politics Suggesting that Butler s rounded understanding of the interrelationship of these three spheres will enable critical legal scholarship as well as critical theory more generally to consider how the question of life s unsustainable conditions can be rethought and redressed this book is a key read for all students of legal ethics political philosophy and social theory **Business Law (NEP 2020)** Dr. B.K. out what is African about legal philosophy without being cut off of African legal philosophy from non African legal philosophy The book draws attention to the view that a basic component of African legal philosophy consists of an investigation of what it is to be an African and because an African is a human being among other human beings the investigation is about what it is to be a human being Ubuntuism is an African derived word that captures this mode of being human Moreover because human beings are cultural beings African cultural context guides the investigation Inescapably it is claimed that every legal philosophy is embedded in a culture African legal philosophy is not an exception It is deeply rooted in African culture a culture that is today shaped in part by a European colonialist culture One feature that will strike one as one reads the book is that the book approaches African legal philosophy as a means of decolonization of African culture African legal philosophy can accomplish this intelligently and effectively if it is itself decolonized In doing this it contrasts sharply with mainstream Western legal philosophy Law for CA-PCC/IPC Tulsian P.C. & Tulsian Bharat,2010 Introduction Tearing And Cutting
