Colonial Saints Allan Greer, Jodi Bilinkoff, 2015-12-22 From the cult of Saint Anne to the devotees of the Virgin of

Guadalupe from Saint Anthony who competed with Christ for popularity in Brazil to Jesuits who mixed freely with shamans that talked with the gods this exciting new anthology examines the conversion of the colonized The essays examine how New World spirits transformed into Old World saints for example the spirit of love transfigured into the Virgin Mary as well as the implications of the canonization of the first American saint Colonial Saints illustrates the complex and intimate connections among confessional life writing canonization and the practices of the Inquisition There was a dynamic exchange involving local agendas the courts in Spain and France and of course Rome This bold collection clearly shows the interplay between slavery and spirituality conversion and control and the links between the sacred and the political

Race and Nation in the Age of Emancipations Whitney Nell Stewart, John Garrison Marks, 2018 Over the long nineteenth century African descended peoples used the uncertainties and possibilities of emancipation to stake claims to freedom equality and citizenship In the process people of color transformed the contours of communities nations and the Atlantic World Although emancipation was an Atlantic event it has been studied most often in geographically isolated ways The justification for such local investigations rests in the notion that imperial and national contexts are essential to understanding slaving regimes Just as the experience of slavery differed throughout the Atlantic World so too did the experience of emancipation as enslaved people's paths to freedom varied depending on time and place With the essays in this volume historians contend that emancipation was not something that simply happened to enslaved peoples but rather something in which they actively participated By viewing local experiences through an Atlantic framework the contributors reveal how emancipation was both a shared experience across national lines and one shaped by the particularities of a specific nation Their examination uncovers in detail the various techniques employed by people of African descent across the Atlantic World allowing a broader picture of their paths to freedom Contributors Ikuko Asaka Caree A Banton Celso Thomas Castilho Gad Heuman Martha S Jones Philip Kaisary John Garrison Marks Paul J Polgar James E Sanders Julie Saville Matthew Spooner Whitney Nell Stewart and Andrew N Wegmann

Spirit Possession in French, Haitian, and Vodou Thought Alessandra Benedicty-Kokken, 2014-11-12 This book recuperates the important history that Haitian thought around Vodou possession has had in French critical theory The author takes the period of the 1930s and 40s as the centerfold of a more complex network of relations that places Haiti as one of the pivots of a more expanded intellectual conversation around possession which links anthropology literature psychoanalysis human rights and visual arts in France Haiti and the United States Benedicty argues that Haiti as the anthropological other serves as a kick starter to an entire French based theoretical apparatus Breton Leiris Bataille de Certeau Foucault and Butler but once up and running its role as catalyst is forgotten and the multiple iterations of the anthropological other are cast back into the net of Michel Rolph Trouillot's Savage slot The book offers the reader unfamiliar with Haiti a comprehensive interdisciplinary study of twentieth and early twenty first century Haitian thought including a detailed timeline of important moments in the intellectual history that connects Haiti to France and the United

States The first part of the book is about global dispossessions in the first decades of the twentieth century the second part points to how the narratives of Haiti are intimately linked to a Franco U S American discursive space constructed over the course of the twentieth century a discursive order that has conflated the representation of Haiti with an understanding of Vodou primarily as an occult religion and not as a philosophical system The third and fourth parts of the book examine how the novels of Ren Depestre Jean Claude Fignol and Kettly Mars have revisited the notion of possession since the fall of the Duvalier dictatorships

Identity and Ideology in Haiti Paul C. Chambers, Tama Hamilton-Wray, 2018-10-01 This anthology presents a new study of the worldwide African diaspora by bringing together diverse multidisciplinary scholarship to address the connectedness of Black subject identities experiences issues themes and topics applying them dynamically to diverse locations of the Blackworld Latin America the Caribbean Africa and the United States The book underscores three dimensions of African diaspora study First is a global approach to

the African diaspora showing how globalism underscores the distinctive role that Africa plays in contributing to world history

Second is the extension of African diaspora study in a geographical scope to more robust inclusions of not only the African continent but also to uncharted paths and discoveries of lesser known diaspora experiences and identities in Latin America and the Caribbean

Third is the illustration of universal unwritten cultural representations of humanities in the African diasporas that show the distinctive humanities disciplinary representations of Black diaspora imaginaries and subjectivities

The contributing authors inductively apply these themes to focus the reader's attention on contemporary localized issues and historical arenas of the African diaspora

They engage their findings to critically analyze the broader norms and dimensions that characterize a given set of interrelated criteria that have come to establish parameters that increasingly standardize African diaspora studies

From Amazons to Zombies Persephone Braham, 2015-11-19

How did it happen that whole regions of Latin America Amazonia Patagonia the Caribbean are named for monstrous races of women warriors big footed giants and cannibals

Through history monsters inhabit human imaginings of discovery and creation and also degeneration chaos and death

Latin America's most dynamic monsters can be traced to archetypes that are found in virtually all of the world's sacred traditions but only in Latin America did Amazons cannibals zombies and other monsters become enduring symbols of regional history character and identity

From Amazons to Zombies presents a comprehensive account of the qualities of monstrosity the ways in which monsters function within and among cultures and theories and genres of the monstrous

It describes the genesis and evolution of monsters in the construction and representation of Latin America from the Ancient world and early modern Iberia to the present

The Haiti Exception Alessandra Benedicty-Kokken, Kaiama L. Glover, Mark Schuller, Jhon Picard Byron, 2016

This collection of essays considers the ways and extent of Haiti's exceptionalisation its perception in multiple arenas as definitively unique with respect not only to the countries of the North Atlantic but also to the rest of the Americas

Painted at once as repulsive and attractive abject and resilient singular and exemplary Haiti has long been framed discursively by an extraordinary epistemological ambivalence

The nation has served at once as cautionary tale model for humanitarian aid and development projects and point of origin for general theorizing of the so called Third World

What to make of this dialectic of exemplarity and alterity

How to pull apart this multivalent narrative so as to examine its constituent parts

The contributors to *The Haiti Exception* take up these and other such questions from a variety of methodological and disciplinary perspectives among which Africana Studies anthrohistory art history Black Studies Caribbean Studies education ethnology Jewish Studies literary studies performance studies and urban studies

As they revise and interrogate their respective praxes they accept the challenge of thinking about the particular stakes of and motivations for their own commitment to Haiti

Engaging in the decidedly risky anthropological practice of reflexivity the scholars activists and other social actors gathered here consider their own often fraught role in constructing Haiti in and as narrative
