Haiti Trapped In The Outer Periphery:

Haiti Robert Fatton, 2014 The inability of the Haitian state to deal with the devastation of the January 2010 earthquake brought into sharp focus Haiti's desperate social and economic conditions and raised perplexing questions What accounts for the country's continuing predicament Why have repeated attempts at democratic governance failed so abysmally And what role has the international community played Addressing these questions Robert Fatton focuses on Haiti's long history of predatory rule and also introduces the concept of the outer periphery to explore the impact of a world economy shaped by neoliberal policies The result is an insightful analysis of contemporary Haitian politics and society with significant implications for the broader study of comparative politics *Thinking in Public* Celucien L. Joseph, 2017-04-25 *Thinking in Public* provides a probing and provocative meditation on the intellectual life and legacy of Jacques Roumain As a work of intellectual history the book investigates the intersections of religious ideas secular humanism and development within the framework of Roumain's public intellectualism and cultural criticism embodied in his prolific writings The book provides a reconceptualization of Roumain's intellectual itineraries against the backdrop of two public spheres a national public sphere Haiti and a transnational public sphere the global world Second it remaps and reframes Roumain's intellectual circuits and his critical engagements within a wide range of intellectual traditions cultural and political movements and philosophical and religious systems Third the book argues that Roumain's perspective on religion social development and his critiques of religion in general and of institutionalized Christianity in particular were substantially influenced by a Marxist philosophy of history and secular humanist approach to faith and human progress Finally the book advances the idea that Roumain's concept of development is linked to the theories of democratic socialism relational anthropology distributive justice and communitarianism Ultimately this work demonstrates that Roumain believed that only through effective human solidarity and collaboration can serious social transformation and real human emancipation take place **The Film Archipelago** Antonio Gómez, Francisco-J. Hernández Adrián, 2021-12-16 How do the islands and archipelagos of the New World figure in Latin American cinema Comprising 15 essays and a critical introduction *The Film Archipelago* Islands in Latin American Cinema addresses this question by examining a series of intersections between insular spaces and filmmaking in Latin America The volume brings together international scholars and filmmakers to consider a diverse corpus of films about islands films that take place on islands films produced in islands and films that problematise islands The book explores a diverse range of films that extend from the Chilean documentaries of Patricio Guzmán to work on the Malvinas Falkland Islands and films by Argentine directors Gustavo Fontán and Lucrecia Martel Chapters focus on Rapa Nui Easter Island the Mexican Islas Marías and the Panamanian Caribbean on ecocritical environmental and film historical aspects of Brazilian and Argentine river islands and on Cuban Guadeloupean Haitian and Puerto Rican contexts *The Film Archipelago* argues that the islands and archipelagos of Latin American cinema constitute a critically interesting analytically complex and historically suggestive

angle to explore issues of marginality and peripherality remoteness and isolation and fragility and dependency As a whole the collection demonstrates to what extent the combined insular and archipelagic lens can re frame and re figure both longstanding and recent discussions on the spaces of Latin American cinema The Price of Slavery Nick

Nesbitt,2022-03-24 The Price of Slavery analyzes Marx s critique of capitalist slavery and its implications for the Caribbean thought of Toussaint Louverture Henry Christophe C L R James Aim C saire Jacques Stephen Alexis and Suzanne C saire Nick Nesbitt assesses the limitations of the literature on capitalism and slavery since Eric Williams in light of Marx s key concept of the social forms of labor wealth and value To do so Nesbitt systematically reconstructs for the first time Marx s analysis of capitalist slavery across the three volumes of Capital The book then follows the legacy of Caribbean critique in its reflections on the social forms of labor servitude and freedom as they culminate in the vehement call for the revolutionary

transformation of an unjust colonial order into one of universal justice and equality *Latin American Gothic in Literature and Culture* Sandra Casanova-Vizcaíno,Inés Ordiz,2017-10-24 This book explores the Gothic mode as it appears in the literature visual arts and culture of different areas of Latin America Focusing on works from authors in Mexico Central America the Caribbean the Andes Brazil and the Southern Cone the essays in this volume illuminate the existence of native representations of the Gothic while also exploring the presence of universal archetypes of terror and horror Through the analysis of global and local Gothic topics and themes they evaluate the reality of a multifaceted territory marked by a shifting colonial and postcolonial relationship with Europe and the United States The book asks questions such as Is there such a thing as Latin American Gothic in the same sense that there is an American Gothic and British Gothic What are the main elements that particularly characterize Latin American Gothic How does Latin American Gothic function in the context of globalization What do these elements represent in relation to specific national literatures What is the relationship between the Gothic and the Postcolonial What can Gothic criticism bring to the study of Latin American cultural manifestations and conversely what can these offer the Gothic The analysis performed here reflects a body of criticism that understands the Gothic as a global phenomenon with specific manifestations in particular territories while also acknowledging the effects of Globalgothic on a transnational and transcultural level Thus the volume seeks to open new spaces and areas of scholarly research and academic discussion both regionally and globally with the presentation of a solid analysis of Latin American texts and other cultural phenomena which are manifestly related to the Gothic world **Police Peacekeeping** Lou

Pingeot,2023 This book questions the optimistic reading of police peacekeeping often found in both academic and policy circles Lou Pinget provides an in depth study of UN intervention in Haiti to show how a single site can help to shed light on how policing functions globally *Street Art and Activism in the Greater Caribbean* Jana Evans Braziel,2022-09-06

those deemed unfit for membership because of their race ethnicity gender or class Exceptionalism however is not frozen As a social invention it changes over time but always within the parameters of its original principles Our capacity to reinvent it is dependent on the degree of hegemony achieved by the ruling class and if this class has the infrastructural power to gradually co opt and include the groups it had once excluded

Reclaiming Haiti's Futures Darlène Elizabeth Dubuisson, 2025

Haiti was once a beacon of Black liberatory futures but now it is often depicted as a place with no future where emigration is the only way out for most of its population But *Reclaiming Haiti's Futures* tells a different story It is a story about two generations of Haitian scholars who returned home after particular crises to partake in social change The first generation called jenerasyon 86 were intellectuals who fled Haiti during the Duvalier dictatorship 1957-1986 They returned after the regime fell to participate in the democratic transition through their political leadership and activism The younger generation dubbed the jenn dokt returned after the 2010 earthquake to partake in national reconstruction through public higher education reform An ethnography of the future the book explores how these returned scholars resisted coloniality's fractures and displacements by working toward and creating inhabitability or future oriented places of belonging through improvisation rasanblaj assembly and radical imagination By centering on Haiti and the Caribbean the book offers insights not just into the Haitian experience but also into how fractures have come to typify more aspects of life globally and what we might do about it

A Critical Anthropology of Childhood in Haiti Diane M. Hoffman, 2024-01-11

This book offers a critical anthropological perspective on contemporary childhood in Haiti It is based on longitudinal ethnographic fieldwork carried out over a period of 13 years with vulnerable children in Haiti Diane M Hoffman raises important questions about how interventions by well meaning foreigners and white saviors often misrepresent Haitian culture and society as deficient while privileging their own emotions alongside supposedly universal ideas about children that reinforce their own power to define and intervene in Haitian lives She argues for a new approach to Haitian childhood that centers children's informal

learning and self education alongside indigenous spirituality and constructions of personhood that can resist the hegemony of neo colonial and neo liberal forces Instead of representing the country and its children as a place of problems to be solved the book shows the importance prioritizing aspects of Haitian world views in order to develop a more culturally informed understanding of childhood in Haiti that can support genuine social change *Ecology of the Zombie* Kerstin
