Hammer Nail Wood The Compulsion To Build:

Hammer--nail--wood Thomas Glynn,1998 Hammer Nail Wood defies categorization Not quite a novel and not quite a psychological study of obsession this highly entertaining book offers insight and perspective on the irresistible yet often illogical compulsion to build Assisted by some of the most unforgettable characters ever to emerge from the north woods Thomas Glynn delves into his subject building a post and beam house in a completely original and surprising way **Log Home Design** ,2000-11 Log Home Design is the preferred trusted partner with readers in simplifying the process of becoming a log home owner With its exclusive focus on planning and design the magazine s friendly tone practical content and targeted advertising provide the essential tools consumers need from the crucial preliminary stages through the finishing touches of their dream log home **Dirt Work** Christine Byl,2013-04-16 A lively and lyrical account of one woman s unlikely apprenticeship on a national park trail crew and what she discovers about nature gender and the value of hard work Christine Byl first encountered the national parks the way most of us do on vacation But after she graduated from college broke and ready for a new challenge she joined a Glacier National Park trail crew as a seasonal traildog maintaining mountain trails for the millions of visitors Glacier draws every year Byl first thought of the job as a paycheck a summer diversion a welcome break from the real world before going on to graduate school She came to find out that work in the woods on a trail crew was more demanding more rewarding more real than she ever imagined During her first season Byl embraces the backbreaking difficulty of the work learning how to clear trees move boulders and build stairs in the backcountry Her first mentors are the colorful characters with whom she works the packers sawyers and traildogs from all walks of life along with the tools in her hands axe shovel chainsaw rock bar As she invests herself deeply in new work the mountains rivers animals and weather become teachers as well While Byl expected that her tenure at the parks would be temporary she ends up turning this summer gig into a decades long job moving from Montana to Alaska breaking expectations including her own that she would follow a professional career path Returning season after season she eventually leads her own crews mentoring other trail dogs along the way In Dirt Work Byl probes common assumptions about the division between mental and physical labor women s work and men s work white collars and blue collars The supposedly simple work of digging holes dropping trees and blasting snowdrifts in fact offers her an education of the hands and the head as well as membership in an utterly unique subculture Dirt Work is a contemplative but unsentimental look at the pleasures of labor the challenges of apprenticeship and the way a place becomes a home Museum Objects, Health and Healing Brenda Cowan,Ross Laird,Jason McKeown,2019-10-02 Museum Objects Health and Healing provides an innovative and interdisciplinary study of the relationship between objects health and healing Shedding light on the primacy of the human need for relationships with objects the book explores what kind of implications these relationships might have on the exhibition experience Merging museum and object studies as well as psychotherapy and the psychology of well being the

authors present a new theory entitled Psychotherapeutic Object Dynamics which provides a cross disciplinary study of the relationship between objects health and well being Drawing on primary research in museums psychotherapeutic settings and professional practice throughout the US Canada Bosnia Herzegovina and the UK the book provides an overview of the theory s origins the breadth of its practical applications on a global level and a framework for further understanding the potency of objects in exhibitions and daily life Museum Objects Health and Healing will be essential reading for academics researchers and postgraduate students interested in museum studies material culture mental health psychotherapy art therapies and anthropology It should also be valuable reading for a wide range of practitioners including curators exhibition designers psychologists and psychotherapists
