one of the capacities that define us as human beings To hope means not just to have beliefs about what will happen but to imagine the future as potentially fulfilling some of our most important wishes It is therefore not surprising that hope has received attention by philosophers psychologists and by religious thinkers throughout the ages The contributions in this volume written by leading scholars in the philosophy of hope gives a systematic overview over the philosophical history of hope about contemporary debates and about the role of hope in our collective life

The End of Hope--the Beginning

Pamela R. McCarroll, 2014 Pamela R McCarroll's central metaphor waiting at the foot of the cross jumps off the page and comes to life that is exactly what chaplains supervisors and ministers do when they engage in care with sufferers Her theological case studies represent one of the best examples in print of an inductive method the one that chaplains supervisors students and parish ministers actually use in practice While we have many good books which demonstrate the theory of pastoral care and use examples and vignettes in an illustrative manner we have few that so directly demonstrate pastoral theological method while teaching students method and content of theology that will serve them in their pastoral care oriented work Jacket

Christian Hope among Rivals Michael W. Zeigler, 2017-08-29 Hope is a widespread if not a universal human experience For centuries followers of Jesus of Nazareth have ordered their lives around a central hope How is their experience similar to or different from others who live by hope This book seeks an answer in the idea that living by hope involves living within a peculiar story of the world an incomplete story The stories that shape these hopes are threatened by evil however it may be defined The hopeful struggle as characters caught up in plots that move toward resolution They exercise an as yet unverified hope that evil will not prevail In this regard the hope of Christians is similar to others Yet it is different because they wait for the God of Jesus to transform the world to match the promise he made to Abraham To arrive at this conclusion this book takes a detour through four model life organizing stories Christians and participants in other stories of the world may not agree on the ultimate ground for hope However taking a detour into the hopeful experience of another may help uncover a place where rivals can stand together long enough to talk
