located in a majority white neighborhood Readers will see Ta Von encountering obstacles but finding agency and joy through writing and music making especially his love of the blues Most attempts at desegregating schools are studied by reducing individual children to demographic statistics and test scores This book instead provides a child s perspective on challenges to classroom inclusion Ta Von s journey demonstrates that it is within children s peer worlds formed in response to institutional policies and practices like desegregation initiatives standardized testing and a curricular focus on so called basic literacy skills that inequity becomes part of the experience of childhood This book examines policies about literacy testing and teaching including the potential power of the written word and of the arts Few researchers have had a career so embedded inside the lives of children in a classroom context as Anne Haas Dyson This book should be on every literacy researcher s shelf It is a culmination of years of Dyson s relentless fight against deficit framings of children and the deep inequalities that continue to persist in the world Jennifer Rowsell professor of literacies and social innovation University of Bristol
