Roger Crisp

Hegel Literature And The Problem Of Agency Modern European Philosophy:

Hegel, Literature, and the Problem of Agency Allen Speight, 2001-02-05 A study of Hegel's appeal to literature in the *Phenomenology of Spirit* The Oxford Handbook of the History of Ethics Roger Crisp, 2013-01-31 This original and comprehensive volume explores the history of philosophical ethics in the western tradition from Homer until the present day. Leading experts in the field use their expertise and specialist knowledge to illuminate key subjects and ideas in contemporary ethics and survey the history of the discipline Hegel's Naturalism Terry Pinkard, Terry P. Pinkard, 2013-11 Terry Pinkard draws on Hegel's central works as well as his lectures on aesthetics, the history of philosophy and the philosophy of history in this deeply informed and original exploration of Hegel's naturalism. As Pinkard explains, Hegel's version of naturalism was in fact drawn from Aristotelian naturalism. Hegel fused Aristotle's conception of nature with his insistence that the origin and development of philosophy has empirical physics as its presupposition. As a result, Hegel found that although modern nature must be understood as a whole to be non-purposive, there is nonetheless a place for Aristotelian purposiveness within such nature. Such a naturalism provides the framework for explaining how we are both natural organisms and also practically minded self-determining rationally responsive reason-giving beings. In arguing for this point, Hegel shows that the kind of self-division which is characteristic of human agency also provides human agents with an updated version of an Aristotelian final end of life. Pinkard treats this conception of the final end of being at one with oneself in two parts. The first part focuses on Hegel's account of agency in naturalist terms and how it is that agency requires such a self-division, while the second part explores how Hegel thinks a historical narration is essential for understanding what this kind of self-division has come to require of itself. In making his case, Hegel argues that both the antinomies of philosophical thought and the essential fragmentation of modern life are all not to be understood as overcome in a higher order unity in the State. On the contrary, Hegel demonstrates that modern institutions do not resolve such tensions any more than a comprehensive philosophical account can resolve them theoretically. The job of modern practices and institutions and at a reflective level the task of modern philosophy is to help us understand and live with precisely the unresolvability of these oppositions. Therefore, Pinkard explains, Hegel is not the totality theorist he has been taken to be, nor is he an identity thinker à la Adorno. He is an anti-totality thinker *Analytic Philosophy and the Return of Hegelian Thought* Paul Redding, 2007-09-13 This 2007 book examines the possibilities for the rehabilitation of Hegelian thought within analytic philosophy. From its inception, the analytic tradition has in general accepted Bertrand Russell's hostile dismissal of the idealists based on the claim that their metaphysical views were irretrievably corrupted by the faulty logic that informed them. These assumptions are challenged by the work of such analytic philosophers as John McDowell and Robert Brandom, who while contributing to core areas of the analytic movement, nevertheless have found in Hegel sophisticated ideas that are able to address problems which still haunt the analytic tradition after a hundred years. Paul Redding traces the consequences of the displacement of the logic presupposed by Kant.

and Hegel by modern post Fregean logic and examines the developments within twentieth century analytic philosophy which have made possible an analytic re engagement with a previously dismissed philosophical tradition **Hegel on the Modern Arts** Benjamin Rutter,2010-07-29 Debates over the end of art have tended to obscure Hegel s work on the arts themselves Benjamin Rutter opens this study with a defence of art s indispensability to Hegel s conception of modernity he then seeks to reorient discussion toward the distinctive values of painting poetry and the novel Working carefully through Hegel s four lecture series on aesthetics he identifies the expressive possibilities particular to each medium Thus Dutch genre scenes animate the everyday with an appearance of vitality metaphor frees language from prose and Goethe s lyrics revive the banal routines of love with imagination and wit Rutter s important study reconstructs Hegel s view not only of modern art but of modern life and will appeal to philosophers literary theorists and art historians alike **Hegel's Critique of Metaphysics** Béatrice Longuenesse,2007-05-03 Hegel s Science of Logic has received less attention than his Phenomenology of Spirit but Hegel himself took it to be his highest philosophical achievement and the backbone of his system The present book focuses on this most difficult of Hegel s published works B atrice Longuenesse offers a close analysis of core issues including discussions of what Hegel means by dialectical logic the role and meaning of contradiction in Hegel s philosophy and Hegel s justification for the provocative statement that what is real is rational what is rational is real She examines both Hegel s debt and his polemical reaction to Kant and shows in great detail how his project of a dialectical logic can be understood only in light of its relation to Kant s transcendental logic This book will appeal to anyone interested in Hegel s philosophy and its influence on contemporary philosophical discussion *Hegel's Philosophy of Reality, Freedom, and God* Robert M. Wallace,2005-04-04 Showing the relevance of Hegel s arguments this book discusses both original texts and their interpretations **Hegel and the Metaphysics of Absolute Negativity** Brady Bowman,2013-02-14 This book provides a robustly metaphysical Hegelian account of the relation between appearance thought and reality *Kierkegaard's Relations to Hegel Reconsidered* Jon Stewart,2007-08-16 Jon Stewart s study is a major re evaluation of the complex relations between the philosophies of Kierkegaard and Hegel The standard view on the subject is that Kierkegaard defined himself as explicitly anti Hegelian indeed that he viewed Hegel s philosophy with disdain Jon Stewart shows convincingly that Kierkegaard s criticism was not of Hegel but of a number of contemporary Danish Hegelians Kierkegaard s own view of Hegel was in fact much more positive to the point where he was directly influenced by some of Hegel s work Any scholar working in the tradition of Continental philosophy will find this an insightful and provocative book with implications for the subsequent history of philosophy in the twentieth century The book will also appeal to scholars in religious studies and the history of ideas **Philosophy and Temporality from Kant to Critical Theory** Espen Hammer,2011-03-31 This book is a critical analysis of how key philosophers in the European tradition have responded to the emergence of a modern conception of temporality Espen Hammer suggests that it is a feature of Western modernity that time has been forcibly separated from the

natural cycles and processes with which it used to be associated In a discussion that ranges over Kant Hegel Schopenhauer Nietzsche Heidegger and Adorno he examines the forms of dissatisfaction which result from this together with narrative modes of configuring time the relationship between agency and temporality and possible challenges to the modern world's linear and homogenous experience of time His study is a rich exploration of an enduring philosophical theme the role of temporality in shaping and reshaping modern human affairs Adorno J. M. Bernstein,2001-07-23 This book provides the first account in any language of the ethical theory latent in Adorno's writings Heidegger's Analytic Taylor Carman,2003-03-06 This 2003 book offers an interpretation of Heidegger's major work Being and Time Unlike those who view Heidegger as an idealist Taylor Carman argues that Heidegger is best understood as a realist Amongst the distinctive features of the book are an interpretation explicitly oriented within a Kantian framework often taken for granted in readings of Heidegger and an analysis of Dasein in relation to recent theories of intentionality notably those of Dennett and Searle Rigorous jargon free and deftly argued this book will be necessary reading for all serious students of Heidegger G. W. F. Hegel Michael Baur,2015-05-01 The thought of G W F Hegel 1770 1831 has had a deep and lasting influence on a wide range of philosophical political religious aesthetic cultural and scientific movements But despite the far reaching importance of Hegel's thought there is often a great deal of confusion about what he actually said or believed G W F Hegel Key Concepts provides an accessible introduction to both Hegel's thought and Hegel inspired philosophy in general demonstrating how his concepts were understood adopted and critically transformed by later thinkers The first section of the book covers the principal philosophical themes in Hegel's system epistemology metaphysics philosophy of mind ethical theory political philosophy philosophy of nature philosophy of art philosophy of religion philosophy of history and theory of the history of philosophy The second section covers the main post Hegelian movements in philosophy Marxism existentialism pragmatism analytic philosophy hermeneutics and French poststructuralism The breadth and depth of G W F Hegel Key Concepts makes it an invaluable introduction for philosophical beginners and a useful reference source for more advanced scholars and researchers Leo Strauss and the Theologico-Political Problem Heinrich Meier,2006-12-25 This book by one of the most prominent interpreters of Leo Strauss's thought was the first to address the problem that Leo Strauss himself said was the theme of his studies the theologico political problem or the confrontation with the theological and the political alternative to philosophy as a way of life In his theologico political treatise which comprises four parts and an appendix Heinrich Meier clarifies the distinction between political theology and political philosophy and reappraises the unifying center of Strauss's philosophical enterprise The book is the culmination of Meier's work on the theologico political problem It will interest anyone who seeks to understand both the problem caused by revelation for philosophy and the challenge posed by political religious radicalism The appendix makes available for the first time two lectures by Strauss that are immediately relevant to the subject of this book and that will open the way for future research and debate on the legacy of Strauss Hegel

Katerina Deligiorgi, 2014-12-05 Over the last decade renewed interest in Hegel's thought and its legacy especially in Anglo American philosophy has combined with the publication of new critical editions of his work in German to underline the value of Hegel for contemporary philosophy Hegel New Directions takes stock of this re-evaluation and presents an assessment of current thinking on this seminal philosopher Leading scholars who have spearheaded the reappraisal bring the history of philosophy into dialogue with contemporary philosophical questions Drawing on a broad range of themes the essays offer a critical and stimulating guide to Hegel's thought whilst addressing central questions of contemporary philosophy in epistemology ethics political and social theory religion philosophy of nature and aesthetics **Proceedings and Addresses**

Recognition and the Self in Hegel's Phenomenology of Spirit Timothy L. Brownlee, 2022-12-15 Articulates the connections between the distinctive conceptions of recognition and the self that emerge over the course of Hegel's Phenomenology Aristophanes and His Tragic Muse Stephanie Nelson, 2016-02-15 Despite the many studies of Greek comedy and tragedy separately scholarship has generally neglected the relation of the two And yet the genres developed together were performed together and influenced each other to the extent of becoming polar opposites In Aristophanes and His Tragic Muse Stephanie Nelson considers this opposition through an analysis of how the genres developed by looking at the tragic and comic elements in satyr drama and by contrasting specific Aristophanes plays with tragedies on similar themes such as the individual the polis and the gods The study reveals that tragedy's focus on necessity and a quest for meaning complements a neglected but critical element in Athenian comedy its interest in freedom and the ambivalence of its incompatible visions of reality **Hegel's Concept of Action** Michael Quante, 2004-06-21 This book is an important gateway through which professional analytic philosophers and their students can come to understand the significance of Hegel's philosophy for contemporary theory of action As such it will contribute to the erosion of the sterile barrier between the continental and analytic approaches to philosophy Michael Quante focuses on what Hegel has to say about such central concepts as action person and will and then brings these views to bear on contemporary debates in analytic philosophy Crisply written this book will thus address the common set of preoccupations of analytic philosophers of mind and action and Hegel specialists The Routledge Companion to Eighteenth Century Philosophy Aaron Garrett, 2014-03-21 The Eighteenth century is one of the most important periods in the history of Western philosophy witnessing philosophical scientific and social and political change on a vast scale In spite of this there are few single volume overviews of the philosophy of the period as a whole The Routledge Companion to Eighteenth Century Philosophy is an authoritative survey and assessment of this momentous period covering major thinkers topics and movements in Eighteenth century philosophy Beginning with a substantial introduction by Aaron Garrett the thirty five specially commissioned chapters by an outstanding team of international contributors are organised into seven clear parts Context and Movements Metaphysics and Understanding

Mind Soul and Perception Morals and Aesthetics Politics and Society Philosophy in relation to the Arts and Sciences Major Figures Major topics and themes are explored and discussed ranging from materialism free will and personal identity to the emotions the social contract aesthetics and the sciences including mathematics and biology The final section examines in more detail three figures central to the period Hume Rousseau and Kant As such The Routledge Companion to Eighteenth Century Philosophy is essential reading for all students of the period both in philosophy and related disciplines such as politics literature history and religious studies
