**The Zurich Origins of Reformed Covenant Theology** Pierrick Hildebrand, 2024 This book explores the origins and development of one of the most significant doctrines of Reformation theology The innovative ways in which the Zurich reformer Huldrych Zwingli and his successor Heinrich Bullinger thought about the relationship between the Old and New Testaments left an indelible mark on the Reformed tradition in the sixteenth and seventeenth centuries Distinctively Zwingli and Bullinger emphasized the continuity of both testaments and spoke of a single covenant between God and humanity This would become one of the defining teachings of Reformed Christianity This book follows the development of their covenant theology in the Reformation and argues for its adoption by John Calvin in Geneva and the German theologians of the post Reformation era

*The Literature of the Arminian Controversy* Freya Sierhuis, 2015-12-03 The Literature of the Arminian Controversy highlights the importance of the Arminian Controversy 1609-1619 for the understanding of the literary and intellectual culture of the Dutch Golden Age Taking into account a wide array of sources ranging from theological and juridical treatises to pamphlets plays and and libel poetry it offers not only a deeper contextualisation of some of the most canonical works of the period such as the works of Dirck Volckertsz Coornhert Hugo Grotius and Joost van den Vondel but also invites the reader to rethink the way we view the relation between literature and theology in early modern culture The book argues how the controversy over divine predestination acted as a catalyst for literary and cultural change tracing the impact of disputed ideas on grace and will religious toleration and the rights of the civil magistrate in satirical literature poetry and plays Conversely it reads the theological and political works as literature by examining the rhetoric and tropes of religious controversy Analysing the way in which literature shapes the political and religious imaginary it allows us to look beyond the history of doctrine or the history of political rights to include the emotive and imaginative power of such narrative myth and metaphor

**Reprobation: from Augustine to the Synod of Dort** Peter Sammons, 2020-01-20 Over the centuries the Protestant church has been severed into two major positions in regard to predestination and reprobation On one side the Arminians largely reject these doctrines while the reformed readily embrace them as biblical truth Although much has been written either rejecting or defending the doctrine of reprobation little attention has been given to the historical development of the reformed position on the nature of reprobation and God's use of secondary causality in the hardening of the wicked By means of historical analysis Peter Sammons traces the development of the doctrine of reprobation from Augustine to the Synod of Dort In this book Sammons gives special attention to views on reprobation and its various parts preterition and predamnation along with how historically theologians have attempted to articulate its execution Perhaps one of the greatest paradoxes in all of Scripture theology and philosophy is here addressed How does an omnibenevolent and omnipotent God predetermine and interact with sin in the world Answering the question proves vital not merely to reconcile theological and philosophical concerns but to answer the all important question of life Who is God This volume is intended to provide a balanced analysis of the historical and intellectual development within reformed theology as to how God is simultaneously holy and sovereign by examining how reprobation and its parts have historically been defined Reformed understanding on this doctrine was not done in a vacuum nor was it concluded in the 180 meetings of the Synod of Dort rather it has a history within the church of thoughtful development
