cases are presented in realistic fashion using terms and abbreviations that would normally be found in a patient's medical record. Patients in these cases have drug therapy problems requiring identification and management. For each case you will be asked to develop a Patient Database Drug Therapy Problem Worksheet and Pharmacotherapy Care Plan using the forms provided. With *Pharmacotherapy Principles and Practice Study Guide* you will learn how to navigate through the process of applying your knowledge of pharmacotherapy to specific patient cases by organizing patient data to logically assess a patient's medication issues and formulate a sound pharmacotherapy care plan. EACH CASE INCLUDES Learning Objectives, Patient Presentation, Targeted Questions followed by hints that refer you to pages in *Pharmacotherapy Principles and Practice Third Edition* where you can find the information necessary to answer the question. Follow Up Global Perspective which highlights an issue related to the case that is important to countries outside of North America or involves selected ethnic groups or races. Case Summary Student Workup where you are asked to review the patient case for missing information and to complete the various patient forms.

*Concise Guide to Hematology* Hillard M. Lazarus, Alvin H. Schmaier, 2018-11-15 This text provides a comprehensive overview of the essential concepts and malignancies of hematology.
