Herder Aesthetics Against Imperialism European:

Herder John K. Noyes, 2015-11-26 Among his generation of intellectuals the eighteenth century German philosopher Johann Gottfried Herder is recognized both for his innovative philosophy of language and history and for his passionate criticism of racism colonialism and imperialism A student of Immanuel Kant Herder challenged the idea that anyone even the philosophers of the Enlightenment could have a monopoly on truth In *Herder Aesthetics against Imperialism* John K Noyes plumbs the connections between Herder's anti imperialism often acknowledged but rarely explored in depth and his epistemological investigations Noyes argues that Herder's anti rationalist epistemology his rejection of universal conceptions of truth knowledge and justice constitutes the first attempt to establish not just a moral but an epistemological foundation for anti imperialism Engaging with the work of postcolonial theorists such as Dipesh Chakrabarty and Gayatri Spivak this book is a valuable reassessment of Enlightenment anti imperialism that demonstrates Herder's continuing relevance to postcolonial studies today

Herder's Naturalist Aesthetics Rachel Zuckert, 2019-04-25 Provides an overview of Johann Gottfried Herder's aesthetics interpreted as a naturalist theory with transformative historical significance for European philosophy

Herder Anik Waldow, Nigel DeSouza, 2017-03-17 J G Herder is enjoying a renaissance in philosophy and across the humanities This book offers important new insights into the complexity and depth of his thought This unprecedented collection fills a gap in the secondary literature highlighting the genuinely innovative and distinctive nature of Herder's philosophy Not only does Herder offer highly original answers to important philosophical questions such as the mind body problem and the role of sensibility in cognition and ethics he also opens up rich resources for thinking about the very nature of philosophy itself and its connections to other fields in the humanities and social sciences

Herder Philosophy and Anthropology brings together a set of original essays that centre on the question at the heart of Herder's philosophical thought How can philosophy enable an understanding of the human being that does not narrowly focus on its rational and moral capacities but rather understands these in the context of its existence as a creature of nature that is fundamentally marked by a sensuous and affective openness and responsiveness to the world and other persons The first part of the volume examines the various dimensions of Herder's philosophical understanding of human nature through which he sought methodologically to delineate a genuinely anthropological philosophy The second part then examines further aspects of this understanding of human nature and what emerges from it the human animal distinction how human life evolves over space and time on the basis of a natural order the fundamentally hermeneutic dimension to human existence and the interrelatedness of language history religion and culture

Herder and Enlightenment Politics Eva Piirimäe, 2023-04-06 Johann Gottfried Herder initiated the modern disciplines of philosophical anthropology and cultural history including the study of popular culture He is also remembered as a sharp critic of colonialism and imperialism But what types of social economic and political arrangements did Herder envision for modern European societies *Herder and Enlightenment Politics* provides a radically new

interpretation of Herder's political thought situating his ideas in Enlightenment debates on modern patriotism, commerce and peace. By reconstructing Herder's engagement with Rousseau, Montesquieu, Abbt, Ferguson, M. Ser Kant and many other contemporary authors, Eva Piirimäe shows that Herder was deeply interested in the potential for cultural, moral and political reform in Russia, Germany and Europe. Herder probed the foundations of modern liberty, community and peace, developing a distinctive understanding of human self-determination, natural sociability and modern patriotism, as well as advocating a vision of Europe as a commercially and culturally interconnected community of peoples.

Herder on Empathy and Sympathy Eva Piirimäe, Liina Lukas, Johannes Schmidt, 2020-04-28. The English-German collection *Herder on Empathy and Sympathy: Einfühlung und Sympathie im Denken*. Herder considers the meaning and role of the concepts of empathy and sympathy in Herder's thought. Herder invokes sympathy in a number of disciplinary domains ranging from metaphysics, biology, anthropology, epistemology, psychology, morality, politics, history, aesthetics to homiletics. While Herder is shown as belonging to a long line of thinkers who view sympathy as a metaphysical principle contributing to the interconnectedness of all parts of nature, he also offers new insights about intra- and inter-species sympathetic communication and distinctively human varieties of sympathy for which he reserves the term *sich einfühlen*. Acknowledging the limits of the natural capacity for *sich einfühlen*, Herder nonetheless calls for its reflective cultivation in various domains.

Herder's Essay on Being Johann Gottfried Herder, 2018. Presents the first English translation of Herder's foundational essay along with critical responses to it by today's leading Herder scholars.

Giuseppe Mazzini's Young Europe and the Birth of Modern Nationalism in the Slavic World Anna Procyk, 2019-09-10. Giuseppe Mazzini's *Young Europe* and the Birth of Modern Nationalism in the Slavic World examines the intellectual currents in Eastern Europe that attracted educated youth after the Polish Revolution of 1830. Focusing on the political ideas brought to the Slavic world from the West by Polish migré conspirators, Anna Procyk explores the core message that the Polish revolutionaries carried: a message based on the democratic principles espoused by Young Europe's founder, Giuseppe Mazzini. Based on archival sources as well as well-documented publications in Eastern Europe, this study highlights that the national awakening among the Czechs, Slovaks and Galician Ukrainians was not just cultural as is typically assumed, but political as well. The documentary sources testify that at its inception, the political nationalism in Eastern Europe founded on the humanistic ideals promoted by Mazzini was republican, democratic in nature and that the clandestine groups in Eastern Europe were cooperating with one another through underground channels. It was through this cooperation during the 1830s that the better educated Poles and Ukrainians in the political underground tied to Young Europe became aware that the interests of their nations, bound together by the forces of history and political necessity, were best served when they worked closely together.

Against the Uprooted Word Tristram Wolff, 2022-10-11. In this revisionist account of romantic era poetry and language philosophy, Tristram Wolff recovers vibrant ways of thinking language and nature together. Wolff argues that well-known writers including Phillis Wheatley, Peter Peters, William Blake, William

Wordsworth and Henry David Thoreau offer a radical chronopolitics in reaction to the uprooted word or the formal analytic used to classify languages in progressive time according to a primitivist timeline of history and a hierarchy of civilization. Before the bad naturalisms of nineteenth century race science could harden language into place as a metric of social difference, poets and thinkers try to soften, thicken, deepen and dissolve it. This naturalizing tendency makes language more difficult to uproot from its active formation in the lives of its speakers. And its gray romanticism simultaneously gives language different kinds of time, most strikingly the deep time of geologic form to forestall the hardening of time into progress. Reorienting romantic studies to consider colonialism's pervasive effects on theories of language origin, Wolff shows us the ambivalent position of romantics in this history. His reparative reading makes visible language's ability to reimagine social forms.

The Eichmann Trial Reconsidered Rebecca Wittmann, 2021-10-01. The Eichmann Trial Reconsidered brings together leading authorities in a transnational, international and supranational study of Adolf Eichmann, who was captured by the Israelis in Argentina and tried in Jerusalem in 1961. The essays in this important new collection span the disciplines of history, film studies, political science, sociology, psychology and law. Contributing scholars adopt a wide historical lens, pushing outwards in time and space to examine the historical and legal influence that Adolf Eichmann and his trial held for Israel, West Germany and the Middle East. In addition to taking up the question of what drove Eichmann, contributors explore the motivation of prosecutors, lawyers, diplomats and neighbouring countries before, during and after the trial ended. The Eichmann Trial Reconsidered puts Eichmann at the centre of an exploration of German versus Israeli jurisprudence, national Israeli identities and politics and the conflict between German, Israeli and Arab states.

Christianity and Confucianism Christopher Hancock, 2020-12-10. Christianity and Confucianism: Culture, Faith and Politics sets comparative textual analysis against the backcloth of 2000 years of cultural, political and religious interaction between China and the West. As the world responds to China's rise and China positions herself for global engagement, this major new study reawakens and revises an ancient conversation. As a generous introduction to biblical Christianity and the Confucian Classics, Christianity and Confucianism tells a remarkable story of mutual formation and cultural indebtedness. East and West are shown to have shaped the mind, heart, culture, philosophy and politics of the other and far more perhaps than either knows or would want to admit. Christopher Hancock has provided a rich and stimulating resource for scholars and students, diplomats and social scientists, devotees of culture and those who pursue wisdom and peace today.

The Human Vocation in German Philosophy Anne Pollok, Courtney D. Fugate, 2023-01-26. In 18th century Germany, philosophers were occupied with questions of who we are and what we should be. Can the individual fulfill its vocation, or is this possible only for humanity as a whole? Is significant progress towards perfection in any way possible for me, or just for me as part of humanity? By following the origin and nature of these debates, this collection sheds light on the vocation of humanity in early German philosophy. Featuring translations of Spalding's *Contemplation on the Vocation of the Human Being* in its first version from 1748 and an extended translation of
