Herder John K. Noyes, 2015-11-26 Among his generation of intellectuals the eighteenth century German philosopher Johann Gottfried Herder is recognized both for his innovative philosophy of language and history and for his passionate criticism of racism colonialism and imperialism A student of Immanuel Kant Herder challenged the idea that anyone even the philosophers of the Enlightenment could have a monopoly on truth In *Herder Aesthetics against Imperialism* John K Noyes plumbs the connections between Herder's anti imperialism often acknowledged but rarely explored in depth and his epistemological investigations Noyes argues that Herder's anti rationalist epistemology his rejection of universal conceptions of truth knowledge and justice constitutes the first attempt to establish not just a moral but an epistemological foundation for anti imperialism Engaging with the work of postcolonial theorists such Dipesh Chakrabarty and Gayatri Spivak this book is a valuable reassessment of Enlightenment anti imperialism that demonstrates Herder's continuing relevance to postcolonial studies today

The Pope's Dilemma Jacques Kornberg, 2015-05-27 Pope Pius XII presided over the Catholic Church during one of the most challenging moments in its history Elected in early 1939 Pius XII spoke out against war and destruction but his refusal to condemn Nazi Germany and its allies for mass atrocities and genocide remains controversial almost seventy years after the end of the Second World War Scholars have blamed Pius's inaction on anti communism antisemitism a special emotional bond with Germany or a preference for fascist authoritarianism Delving deep into Catholic theology and ecclesiology Jacques Kornberg argues instead that what drove Pius XII was the belief that his highest priority must be to preserve the authority of the Church and the access to salvation that it provided In *The Pope's Dilemma* Kornberg uses the examples of Pius XII's immediate predecessors Benedict XV and the Armenian genocide and Pius XI and Fascist Italy as well as case studies of Pius XII's wartime policies towards five Catholic countries Croatia France Hungary Poland and Slovakia to demonstrate the consistency with which Pius XII and the Vatican avoided confronting the perpetrators of atrocities and strove to keep Catholics within the Church By this measure Pius XII did not betray but fulfilled his papal role A meticulous and careful analysis of the career of the twentieth century's most controversial pope *The Pope's Dilemma* is an important contribution to the ongoing debate about the Catholic Church's wartime legacy

A Stage for Debate Martin Wagner, 2023-05-26 *A Stage for Debate* presents a detailed analysis of the repertoire of the leading German language stage of the nineteenth century Vienna's Burgtheater The book explores the extent to which the Burgtheater repertoire contributed to important political and cultural debates on individual liberty the role of women in society and the understanding of national and regional identity The relevance of the Burgtheater as a forum for political debate is assessed not by the degree to which the performed plays transgressed established norms but by the

range of positions that were voiced on a given topic Martin Wagner investigates the roughly 1 000 plays from across Europe that were introduced to the Burgtheater's repertoire between 1814 and 1867 by combining a general overview with detailed interpretations of especially successful plays Wagner reveals that the Burgtheater was significantly more involved in contemporary debates than the stereotype of this stage as an artistically refined but apolitical institution suggests Drawing from theatre studies and German and Austrian studies more broadly *A Stage for Debate* revises the history of one of Europe's leading theatres

The Human Vocation in German Philosophy Anne Pollok, Courtney D. Fugate, 2023-01-26 In 18th century Germany philosophers were occupied with questions of who we are

and what we should be Can the individual fulfill its vocation or is this possible only for humanity as a whole Is significant progress towards perfection in any way possible for me or just for me as part of humanity By following the origin and nature of these debates this collection sheds light on the vocation of humanity in early German philosophy Featuring translations of Spalding's *Contemplation on the Vocation of the Human Being* in its first version from 1748 and an extended translation of Abbt's and Mendelssohn's epistolary discussion around the *Doubts and the Oracle* from 1767 newly commissioned chapters cover Johann Gottfried Herder's inherently cultural concept of the human being Immanuel Kant's transformative interplay of moral and natural aspects and the notion of metempsychosis in Fichte's work inspired by two neglected philosophers Gotthold Ephraim Lessing and Johann Georg Schlosser Opening further lines of inquiry contributors address questions about the adaptations of Spalding's work that focus on the vocation of women as wife mother or citizen Exploring the multitude of ways 18th century German thinkers understand our position in the world this volume captures major changes in metaphysics and anthropology and enriches current debates within modern philosophy

Heavenly Fatherland Jeremy Best, 2020 Motivated by a theology that declared missionary work was independent of secular colonial pursuits Protestant missionaries from Germany operated in ways that contradict current and prevailing interpretations of nineteenth century missionary work As a result of their travels these missionaries contributed to Germany's colonial culture Because of their theology of Christian universalism they worked against the bigoted racialism and ultra nationalism of secular German empire building Heavenly Fatherland provides a detailed political and cultural analysis of missionaries mission societies mission intellectuals and missionary supporters Combining cases studies from East Africa with studies of the metropole this book demonstrates that missionaries ideas about race and colonialism influenced ordinary Germans experience of globalization and colonialism at the same time that the missionaries shaped colonial governance By bringing together religious and colonial history the book opens new avenues of inquiry into Christian participation in colonialism During the Age of Empire German missionaries promoted an internationalist vision of the modern world that aimed to create a multinational multiracial heavenly Fatherland spread across the globe

The Long Century's Long Shadow Kenneth S. Calhoun, 2021-06-01 The Long Century's Long Shadow approaches German Romanticism and Weimar cinema as continuous developments enlisting both in a narrative of reciprocal

illumination The author investigates different moments and media as connected phenomena situated at alternate ends of the long nineteenth century but joined by their mutual rejection of the neo classical aesthetic standard of placid and weightless poise in numerous media including film painting sculpture prose poetry and dance Connecting Weimar filmmaking to Romantic thought and practice Kenneth S Calhoon offers a non technological aesthetic genealogy of cinema He focuses on well known literary and artistic works including films such as Nosferatu Metropolis Frankenstein and Fantasia the writings of Conrad Kafka Goethe and Novalis and the paintings of Caspar David Friedrich one of the leading artists of German Romanticism With an eye to the modernism of which Weimar filmmaking was a part The Long Century's Long Shadow employs the Romantic landscape in poetry and painting as a mirror in which to regard cinema *Since the Boom* Sebastian Voigt, 2021-01-04 Marked by a period of massive structural change the 1970s in Europe saw the collapse of traditional manufacturing The essays in this collection question aspects of the narrative of decline and radical transformation **The Persistence of the Sacred** Skye Doney, 2022-08-31 For millions of Catholic believers pilgrimage has offered possible answers to the mysteries of sickness life and death The Persistence of the Sacred explores the religious worldviews of Europeans who travelled to Trier and Aachen two cities in Western Germany to view the sacred relics in their cathedrals The Persistence of the Sacred challenges the narrative of widespread secularization in Europe during the long nineteenth century and reveals that religious practices thrived well into the modern period It shows both that men were more active in their faith than historians have realized and how clergy and pilgrims did not always agree about the meaning of relics Drawing on private ephemeral and material sources including films photographs postcards correspondence and souvenirs Skye Doney uncovers the enduring and diverse sacred worldview of German Catholics and argues that laity and clergy had very different perspectives on the meaning of pilgrimage Recovering the history of Catholic pilgrimage The Persistence of the Sacred aims to understand the relationship between relics and religiosity between modernity and faith and between humanity and God

Hitler's Twilight of the Gods Alexandra Birch, 2025-02-28 Music was an integral part of statecraft and identity formation in the Third Reich Structured thematically and semiotically around the Wagnerian tetralogy of the Ring cycle Hitler's Twilight of the Gods provides a sonic read of the Second World War and the Holocaust Alexandra Birch sheds light on the specific type of music promoted under Nazism linked to larger Teutonic mythologies and histories espoused in rhetoric and personal styling The book explores the musical fixation of the command as it was extended to the ordinary troops of the Wehrmacht and SS in instances of musical sadism and destruction during the Holocaust It reveals how in constructing what was German this process also intentionally fashioned a subaltern other with an assigned set of music and aesthetics The book draws on analysis of testimony and perpetrator documents to reveal the execution of this binary identity and the inclusion of music even in extreme genocidal conditions From drinking games in the interwar period to musical sadism in the Holocaust to the final delusions of the command in collapse Hitler's Twilight of the Gods illuminates how music

was a component of camaraderie identity masculinity and warfare

Uniform Fantasies Jeffrey Schneider, 2023-07-26

Starting in the nineteenth century in Germany colourful military uniforms became a locus for various queer male fantasies fostering an underground sexual economy of male prostitution as well as a political project to exploit the army's prestige for queer emancipation. In the first decade of the twentieth century however a series of scandals derailed this emancipatory project. Simultaneously public debates began to invoke homosexuality sadism transvestism and other sexological concepts to criticize military policies and practices. In pursuing the threads with which queer authors and activists stitched their fantasies about uniforms Jeffrey Schneider offers fresh perspectives on key debates over military secrecy disciplinary abuses in the army and German militarism. Drawing on a vast trove of materials ranging from sexological case studies trial transcripts and parliamentary debates to queer activist tracts autobiographies and literary texts *Uniform Fantasies* uncovers a particularly modern set of concerns about such topics as outing closeted homosexuals the presence of gay men in the military and whether men in uniform are more masculine or more insecure about their sexual identity.

Global Germany Circa 1800 Todd Kontje, 2025-03-18 *Global Germany Circa 1800* asks two interrelated questions: How did Germans participate in the European conquest of the world and how were they different from other imperial powers? In other words what is the relation between the German form of empire the old Reich and the modern European empires that emerged in the global age? In this book Todd Kontje presents a revisionist literary and intellectual history inviting readers to consider how we might understand Germany at the turn of the nineteenth century if we remove the nation state as the inevitable goal of cultural and political development. Focusing on the pivotal years around 1800 when many of the concepts that define the modern era first came into being Kontje investigates how thinkers in and around Weimar from Goethe Schiller and Kant to Georg Forster Heinrich von Kleist and Alexander von Humboldt worked within existing political structures to make sense of the region's place in the world. Ultimately he reveals how Weimar a remote artist hub long thought to exemplify the insularity of a soon to be unified nation was in fact utterly worldly and in a manner very different from the political capitals of imperial nation states like London and Paris. Accessible and entertaining this literary history is essential reading for German studies students and scholars and it will appeal to audiences in world history empire studies intellectual history and comparative literature.

Where city planners and municipal administrations had emphasized free markets the rule of law and trade in 1871 by the 1930s they favoured a quite different integrative corporate and productivist vision. *Urban Transformations* explores the broad based social transformation connected to these changes and the contemporaneous shifts in the cultural and social history of global capitalism. Dynamic features of modern capitalist life such as rapid industrialization working class radicalism dramatic population growth poor quality housing and regional administrative incoherence significantly influenced the Greater Berlin region. Examining materials on city planning municipal

administration architecture political economy and jurisprudence Urban Transformations recasts the history of German and European urbanization as well as that of modernist architecture and city planning
