

The cover art features a central figure of a Spartan in green armor, holding a large assault rifle. The background is a composite of two images: the left side shows a cloudy sky with several aircraft flying, and the right side shows a large, dark, angular structure, possibly a Halo ring or a city, under a hazy sky. The title 'HALO' is in a large, stylized font, with the 'O' being a circular symbol. Below it, 'ENCYCLOPEDIA' is in a smaller, sans-serif font.

[Crash Course in Gaming](#) Suellen S. Adams, 2013-11-25 Video games aren't just for kids anymore. This book will describe the why and how to start or expand a video gaming program in the library including some specific examples of how to target adult and female gamer patrons. Gaming supplies more than just visual stimulation and empty entertainment; it can also promote socialization as well as the learning of both traditional and new literacies required to succeed in the modern world. Problem solving, multi-tasking, complex decision making on the fly, and reading the combination of words and graphics are vital skills for the 21st century, all of which are required to play video games. Crash Course in Gaming discusses the pros and cons of gaming, the types of games and game systems, circulating collections, and game programs. It explains how a library's video game program can and should do much more than simply draw younger users to the library, providing examples of how everyone from parents to senior citizens can benefit from a patron-oriented computer gaming program. The appendices also include specific games, programs, review sources, and sources for further information.

Magic, Monsters, and Make-Believe Heroes Douglas E. Cowan, 2019-02-26 Magic Monsters and Make Believe Heroes looks at fantasy film, television, and participative culture as evidence of our ongoing need for a mythic vision for stories larger than ourselves into which we write ourselves and through which we can become the heroes of our own story. Why do we tell and retell the same stories over and over when we know they can't possibly be true? Contrary to popular belief, it's not because pop culture has run out of good ideas. Rather, it is precisely because these stories are so fantastic, some resonating so deeply that we elevate them to the status of religion. Illuminating everything from Buffy the Vampire Slayer to Dungeons and Dragons and from Drunken Master to Mad Max, Douglas E. Cowan offers a modern manifesto for why and how mythology remains a vital force today.
