Framework Directive WFD the European Union's common water policy Of all the issues faced in Turkish water management none are as important and problematic as the issue of complying with European Union EU accession criteria Not only is water socially economically and environmentally important its water management is a useful prism through which the EU accession process can be viewed as a whole It showcases the complementarities and divergences between Turkish and EU bureaucratic constructs and value systems *Chemical and Biological Quality of Surface Water at the U.S. Army Atterbury Reserve Forces Training Area Near Edinburgh, Indiana, September 2000 Through July 2001* Martin R.
