Finding Safe Harbour Emily Pelley,2022-02-15 The global refugee crisis is staggering in scope The

United Nations Refugee Agency reported that 79.5 million people were displaced worldwide in 2019 and over half of all displaced persons were under eighteen. As the number of children and teenagers seeking asylum continues to grow, the impact of displacement on a young person's well-being and development over the long term requires further study. In *Finding Safe Harbour*, Emily Pelley investigates the current response to refugee youth in Canada by highlighting how Halifax, Nova Scotia, as a mid-sized urban centre, has mobilized services and resources to support young people seeking refuge. Opening with a broad contextual introduction to the global crisis of displacement and the impact of violence and armed conflict on young people, Pelley focuses on the reciprocal adaptation that is required for the long-term integration of displaced youth into the receiving society. A concise and illuminating study on refugee resettlement, *Finding Safe Harbour* concludes with an in-depth discussion of how cities can optimize resilience resources through meaningful engagement with refugee youth.

International Handbook on Child Rights and School Psychology Bonnie Kaul Nastasi, Stuart N. Hart, Shereen C.

Naser, 2020-05-18 This handbook examines the meanings, implications, and transformative potential of a child rights approach for school psychology. It focuses on the school community in which psychology is committed to promoting well-being, learning, and development of all children. The handbook begins with an overview of the 1989 United Nations Committee on the Rights of the Child (CRC) and explores main themes such as survival, protection, development, participation, and nondiscrimination. Chapters provide guidance in promoting and protecting child rights when dealing with critical issues relevant to the school community, including well-being, freedom from violence, and access to high-quality education. In addition, chapters analyze and offer recommendations for child rights applications within the roles and responsibilities of school psychologists. The handbook concludes with future directions for achieving a child rights approach for school psychology. Topics featured in this handbook include: The current status of child rights in the international community; Accountability for child rights by school psychology; Collaborative home, school, and community practices aimed at promoting family support; Protecting child rights within the realm of competitive sports; CRC and school-based intervention programming; Promoting child rights through school leadership; Applying child rights-respecting research to the study of psychological well-being. The *International Handbook on Child Rights and School Psychology* is a must-have resource for researchers, scientists, practitioners, clinicians, and graduate students in child and school psychology, educational policy and politics, social work, public health, and other school-based or child-serving mental health disciplines.
