**Calvin the Magistrate** George J. Gatgounis, 2021-01-29 The legal and political scenario of Calvin's day involved upheavals deriving from the force of religion upon law Whole cities provinces and states came under Reformation influence ranging from quiet individual conversions to Protestantism to the hysteria of community iconoclasm The transformation of these societies however was not moving away from a religious worldview rather the transformation was a movement of one religion to another In Calvin's day secularism pluralism and religious toleration were nonexistent Europe was not in the thrall of the question Should religion in public life be tolerated but rather Which religion should be enforced to the banning of all others Calvin was a driven man but a valid question drove him What is the true religion And deriving from the central question were corollaries What law is right law and What government is right government Calvin's trek would lead him to answers Calvin concluded that substantively a correct political and legal system derives from the Bible and procedurally the system is applied by democratically elected officials checking and balancing one another and his views were consistent with a Reformation consensus

*Missionary Zeal and Institutional Control* Jon Miller, 2014-05-22 This book is about the Basel Mission in the Gold Coast now Ghana before the First World War

Miller reconstructs the backgrounds and motivations of the mission's participants and describes the organizational structure that shaped their activities at home and abroad. He then traces some serious and recurrent internal problems to the commitment to difficult Pietist beliefs about authority and obedience. The organization survived those troubles and its impact on Ghana continued to grow because the same biblical worldview that demanded extreme discipline also prepared the members of the mission community to sustain their efforts.

*Max Weber* Alan Sica, 2017-09-08 The most profound and enduring social theorist of sociology's classical period, Max Weber speaks as cogently to concerns of the new century as he did to those of the past. In *Max Weber and the New Century*, Alan Sica demonstrated Weber's preeminent position and lasting vitality within social theory by applying his ideas to a broad range of topics of contemporary concern.

*Max Weber: A Comprehensive Bibliography* is a companion volume that offers some 4,600 bibliographic listings of work on Weber, making it the most complete guide to the literature in English and a testament to the continued vitality of Weber's thought. Sica's work supersedes all previous bibliographical efforts covering the Weber literature both in the quantity and accuracy of its references and the clarity and convenience of its format. In order to demonstrate the enormous variety of Weberiana in English, Sica has adopted a liberal criterion for inclusion rather than a critical one, choosing to mix the best with what may be more routine work. Following a preface in which previous bibliographies and bibliographic problems are discussed, the volume opens with a series of five specialized bibliographies. The first lists Weber's works in English translation. The second lists reviews of Weber's major works, including those translated into English, while the third covers reviews of recent books and other work on Weber. The fourth section contains a selection of dissertations and theses relating to Weber or his ideas. The fifth includes primary and secondary sources treating Weber on rationality and rationalization processes. The last and largest section offers a comprehensive Weber bibliography of works in English. This large-scale endeavor attempts to identify with accuracy and completeness the entire universe of Weber scholarship in English. It will be an essential scholarly tool for sociologists, historians, economists, and students of cultural and intellectual history.

*Exclusion and Embrace, Revised and Updated* Miroslav Volf, 2019-08-20 Life in the twenty-first century presents a disturbing reality. Otherness, the simple fact of being different in some way, has come to be defined as in and of itself evil. Miroslav Volf contends that if the healing word of the gospel is to be heard today, Christian theology must find ways of speaking that address the hatred of the other. Is there any hope of embracing our enemies? Of opening the door to reconciliation? Reaching back to the New Testament metaphor of salvation as reconciliation, Volf proposes the idea of embrace as a theological response to the problem of exclusion. Increasingly, we see that exclusion has become the primary sin, skewing our perceptions of reality and causing us to react out of fear and anger to all those who are not within our ever-narrowing circle. In light of this, Christians must learn that salvation comes not only as we are reconciled to God and not only as we learn to live with one another, but as we take the dangerous and costly step of opening ourselves to the other, of enfolding him or her in the same embrace with which we have been

enfolded by God Volf won the 2002 Louisville Grawemeyer Award in Religion for the first edition of his book *Exclusion and Embrace: A Theological Exploration of Identity, Otherness, and Reconciliation* (Abingdon, 1996). In that first edition, professor Volf, a Croatian by birth, analyzed the civil war and ethnic cleansing in the former Yugoslavia and he readily found other examples of cultural, ethnic, and racial conflict to illustrate his points. Since September 11, 2001, and the subsequent epidemic of terror and massive refugee suffering throughout the world, Volf revised *Exclusion and Embrace* to account for the evolving dynamics of inter-ethnic and international strife.

**The Clash of Values** Mansoor Moaddel, 2020-03-17 Much of the Middle East and North Africa still appears to be in a transitional period set in motion by the 2011 Arab uprisings and the political trajectory of the region remains difficult to grasp. In *The Clash of Values*, Mansoor Moaddel provides groundbreaking empirical data to demonstrate how the collision between Islamic fundamentalism and liberal nationalism explains the region's present and will determine its future. Analyzing data from over 60,000 face-to-face interviews of nationally representative samples of people in seven countries (Egypt, Iraq, Lebanon, Pakistan, Saudi Arabia, Tunisia, and Turkey), Moaddel reveals the depth and breadth of the conflict of values. He develops measures of expressive individualism, gender equality, secularism, and religious fundamentalism and shows that the factors that strengthen liberal values also weaken fundamentalism. Moaddel highlights longitudinal data showing changes in orientations toward secular politics, Western-type government, religious tolerance, national identity, and to a limited extent, gender equality, as well as a significant decline in support for political Islam over the past decade. Focusing on these trends, he contends that the Arab Spring represents a new phase of collective action rooted in the spread of the belief in individual liberty. Offering a rigorous and deeply researched perspective on social change, *The Clash of Values* disentangles the Middle East and North Africa's political complexity and pinpoints a crucial trend toward liberal nationalism.

*Talk of Love* Ann Swidler, 2013-06-25 Talk of love surrounds us and romance is a constant concern of popular culture. Ann Swidler's *Talk of Love* is an attempt to discover how people find and sustain real love in the midst of that talk and how that culture of love shapes their expectations and behavior in the process. To this end, Swidler conducted extensive interviews with Middle Americans and wound up offering us something more than an insightful exploration of love. *Talk of Love* is also a compelling study of how much culture affects even the most personal of our everyday experiences.
