Herdenken En Herzien:

Historical research in the Low Countries 1970-1975 Alice C. Carter, 2024-09-16 The five review articles included in this volume were produced by the Dutch History Seminar of the University of London with the assistance of several Belgian and Dutch historians They first appeared in the volumes VI X of the *Acta Historiae Neerlandicae* in 1978 renamed The Low Countries History Yearbook a periodical published by the Dutch Historical Society with the objective of bringing new publications on the history of the Low Countries in the Dutch language to the attention of English speaking historians These articles have been republished and provided with indexes in the hope that in this form they will also prove to be useful to students of Belgian and Dutch history who have not been regular readers of the *Acta* Should this publication be favourably received a subsequent volume covering the years 1976 1981 may be issued

THE EDITORS VII Survey of recent Dutch Historiography ALICE C CARTER Editor INTRODUCTION This bibliographical article has been put together by members of the Dutch history seminar held at London University's Institute of Historical Research The article is intended for non Dutch reading scholars and indeed all who are interested in Netherlands history An attempt has been made and will continue to be made to survey important works published in the year previous to that in which the article is drawn up This year we have concerned ourselves with books or in the earlier part of 1971

Acta Historiae Neerlandicae IX R. Baetens, H. Balthazar, H. Van Dijk, Rosemary Duke, P. J. Van Kessel, D. J. Roorda, Nicolette Van Santen-Mout, E. Stols, K. W. Swart, B. A. Sijes, C. A. Tamse, 2012-12-06 In the Survey of Recent Historical Works which according to custom concludes this IXth volume of the *Acta* is a notice of the recent Report of the Dutch research with suggestions for future development Such a report could easily be classified as an attempt to bring pressure to bear on financial resources for support of a somewhat neglected branch of scientific effort indeed as a symptom of the current disease of notatitis A recent special issue *Regeren door notas* of the periodical *Beleid and Maatschappij* March April 1976 discusses this severe Dutch epidemic of official note writing for any purpose on any matter at any time by any sort of official committee to any sort of official body But even if such were the only reason for the production of this Report which indeed it is not the Report will stand on its own feet as significant and of consequence In general however this Report makes sad reading It would seem that Dutch historical research and historiography lags far behind comparable foreign developments There are said to be immense gaps in knowledge of and insight into virtually all fields of the Dutch past and moreover a total lack of modern sophistication Inevitably currently fashionable techniques such as programming co ordination and teamwork are suggested as desirable and a preference is expressed for the currently highly regarded socio historical approach

Can a Seamless Garment be Truly Torn? Peter Steffen, Hans Evers, 2014 The conversion of Lutz L b and Jenny van Gelder from Judaism to Roman Catholicism dramatically changed the lives of the extended L b family This scientific historical study traces the personal and spiritual journey of Lutz and Jenny from their baptisms in 1907 through the lives of their children The story benefits from historical documents and

pieces of oral history from the only one of their eight children who survived the Nazi era Paula van Broekhoven L b The abbess of Koningsoord Abbey and the abbot of Koningshoeven Abbey generously provided access to the archives of the monasteries where the seven other L b children lived as nuns and monks of the L b family Each chapter begins with a citation from a significant situation or event placing the reader immediately within the lived experience of that period Photos of the time and the family supplement the historical narrative The secret conversion of Lutz and Jenny and their lifelong witness to their faith created a tear in the fabric of the extended family while later leading to many idealized portrayals of them and their children It is the intent of this book to offer an accurate and balanced account situating the Catholic L b family within their extended Jewish family and to correct several decades of hagiography so restoring humanity and dignity to the memories of the L b family

From Revolt to Riches Theo Hermans, Reinier Salverda, Ulrich Tiedau, 2017-03-28 This collection investigates the culture and history of the Low Countries in the sixteenth and seventeenth centuries from both international and interdisciplinary perspectives The period was one of extraordinary upheaval and change as the combined impact of Renaissance Reformation and Revolt resulted in the radically new conditions political economic and intellectual of the Dutch Republic in its Golden Age While many aspects of this rich and nuanced era have been studied before the emphasis of this volume is on a series of interactions and interrelations between communities and their varying but often cognate languages between different but overlapping spheres of human activity between culture and history The chapters are written by historians linguists bibliographers art historians and literary scholars based in the Netherlands Belgium Great Britain and the United States In continually crossing disciplinary linguistic and national boundaries while keeping the culture and history of the Low Countries in the Renaissance and Golden Age in focus this book opens up new and often surprising perspectives on a region all the more intriguing for the very complexity of its entanglements

A Tiny Spot on the Earth Piet Rooy, 2025-10-01 In this survey of the Dutch political culture of the nineteenth and twentieth centuries Piet de Rooy reveals that the polder model often used to describe economic and social policymaking based on consensus is a myth Instead modern political culture in the Dutch Low Countries began with a revolution and is rife with rivalries among political and ideological factions De Rooy argues that because of its extremely open economy the country is vulnerable to external political cultural and economic pressures and Dutch politics is a balancing act between profiting from international developments and maintaining sovereignty The sudden rise of populism and Euroscepticism at the turn of the millennium then indicated a loss of this balance Shining new light on the political culture of the Netherlands this book provides insights into the polder model and the principles of pillarization in Dutch society The Dutch edition of this book *Ons stipje op de wereldkaart* was awarded the Prinsjesboekenprijs for the best book on Dutch national politics in 2014 Survey of the Dutch political culture of the nineteenth and twentieth centuries
