**The Oxford Handbook of Identity Development** Kate C. McLean, Moin U. Syed, 2015. Identity is defined in many different ways in various disciplines in the social sciences and sub-disciplines within psychology. The developmental psychological approach to identity is characterized by a focus on developing a sense of the self that is temporally continuous and unified across the different life spaces that individuals inhabit. Erikson proposed that the task of adolescence and young adulthood was to define the self by answering the question "Who Am I?" There have been many advances in theory and research on identity development since Erikson's writing over fifty years ago, and the time has come to consolidate our knowledge and set an agenda for future research. The Oxford Handbook of Identity Development represents a turning point in the field of identity development research. Various and disparate groups of researchers are brought together to debate, extend, and apply Erikson's theory to contemporary problems and empirical issues. The result is a comprehensive and state-of-the-art examination of identity development that pushes the field in provocative new directions.

Scholars of identity development adolescent and adult development and related fields as well as graduate students advanced undergraduates and practitioners will find this to be an innovative unique and exciting look at identity development

**The influence of clients on the social identities within the audit profession** Johanna Sylvander, 2020-03-02 The overall purpose of the thesis is to explore the meaning of professionalism and independence for the individuals within the audit arena Professionalism is defined as the occupational values that guide auditors professional behaviour and how independence is understood is assumed to be influenced by the social groups the auditors identify with The audit arena consists of several social actors i e the audit profession audit firms and auditors as well as external constituencies of the profession i e accountants and accountees The audit profession both serves the public interest by quality ensuring the information provided by the accountants to the accountees as well as conducts business in a state sanctioned monopoly like market Appearing independent and professional is therefore critical for the profession as independence and professionalism is the basis of society's trust in the profession and may particularly influence the profession's ability to recruit and retain staff The audit profession audit firms offices and audit teams are social groups which influence the values attitudes and behaviours of the auditors through the process of socialization into the profession and the audit firm However accountants i e clients and accountees i e stakeholders such as investors are also social actors who may influence the values attitudes and behaviour of auditors if auditors identify with these social actors Exploring the social identities at play within the audit arena enables us to more fully understand the values that guide professional work The

thesis empirically investigates the social identity audit arena through potential current and former audit employees perceptions of the audit arena where the data is both qualitative interviews and quantitative surveys in nature The empirical material provides both pre socialized and post socialized perspectives on the audit arena where the bulk of the material stems from the pre socialized perspective The thesis suggests that there are two types of auditors namely small client auditors and large client auditors where the small client auditor group dominates the audit arena The role of the small client auditor is described differently from the large public client auditor s role The small client auditor is perceived as a teacher who helps the clients run their businesses better and avoid problems with tax authorities et cetera making it necessary for the auditor to have a good and close relationship with the client in order to fulfil her his role The large client auditor is described more as having the traditional guardians of the market role Hence it seems as the small client auditor is guided by other values and has a different understanding of independence compared to the large client auditor However the large client auditor is also perceived as having a counselling teacher role indicating that some professional values are shared by small client and large client auditors These different roles auditors are perceived to have where independence and working for the public interest seem to mean different things can influence how new audit employees perceive the profession If employees expect to work as large client auditors but instead experience work being guided by small client auditor values or vice versa it may influence the willingness to stay in the profession These two roles are also a potential factor influencing the expectation gap i e the gap between what society thinks the auditor does and what s he does in practice These two roles may therefore influence society s image of the auditor and where the profession may have issues in appearing independent in the relationship with small clients

Avhandlingens vergripande syfte r att utforska inneb rden av professionalism och oberoende f r individerna inom revisionsarenan Professionalism definieras som de yrkesrelaterade v rderingarna som styr hur man som professionell revisor b r agera och hur oberoende f rst s antas p verkas av vilka sociala grupper revisorn identifierar sig med Revisionsarenan best r av flera sociala akt rer n mligen revisionsprofessionen revisionsbyr er och revisorer och ven externa intressenter till professionen n mligen redovisningsskyldiga och redovisningsber ttigade Revisionsprofessionen har ett viktigt samh llsuppdrag att kvalitetss kra informationen som de redovisningsskyldiga tillh ller de redovisningsber ttigade Dock bedriver professionen samtidigt aff rer p den monopolmarknad professionen har genom den lagstadgade revisionen F r professionen r det d rmed av yttersta vikt att framst som oberoende och professionell d oberoende och professionalism r grunden f r samh llets tillit till professionen Inneb rden av professionalism och oberoende inom revisionsarenan kan speciellt p verka professionens m jligheter att rekrytera och beh lla personal Revisionsprofessionen revisionsbyr erna arbetskontoren och revisionsteamerna r sociala grupper som p verkar revisorers v rderingar attityder och beteende genom socialiseringen in i professionen och revisionsbyr n De redovisningsskyldiga klienter och de redovisningsber ttigade intressenter s som investerare r andra sociala akt rer som kan p verka revisorers v rderingar attityder och beteende om revisorerna identifierar

sig med dessa sociala grupper Genom att utforska vilka sociala identiteter som verkar inom revisionsarenan kan vi få stöd i kunskap kring vilka värderingar som styr det professionella arbetet Avhandlingen undersöker potentiella nuvarande och för detta revisionsmedarbetares uppfattningar om revisionsarenan där empirin består av kvalitativ intervjuer och kvantitativ enkäter natur Det empiriska materialet ger både ett försocialiserat och eftersocialiserat perspektiv på revisionsarenan där tyngden ligger på det försocialiserade perspektivet Avhandlingen tyder på att det finns två typer av revisorer nämligen små bolagsrevisorer och storbolagsrevisorer där små bolagsrevisorer är den största gruppen Små bolagsrevisorns roll beskrivs annorlunda jämfört med hur storbolagsrevisorns roll beskrivs Små bolagsrevisorn uppfattas som en låg som hjälper klienterna att driva sina företag bättre och undvika problem med Skatteverket med mera vilket innebär att revisorn måste ha en god och nära relation med klienten för att kunna uppfylla sin roll Storbolagsrevisorn beskrivs mer som revisorsrollen traditionellt beskrivs dvs som en marknadsvaktare och en oberoende granskare Det verkar alltså som att små bolagsrevisorn utgår ifrån andra professionella värderingar och har en annan förståelse av oberoende jämfört med storbolagsrevisorn Dock uppfattas storbolagsrevisorn även ha en rådgivande roll vilket indikerar att små bolagsrevisorer och storbolagsrevisorer delar vissa professionella värderingar Dessa olika roller som revisorer upplevs ha är oberoende och arbete för det allmänna intresse verkar betyda olika saker kan påverka hur nya anställda upplever revision som yrke Om anställda förväntar sig att arbeta som en storbolagsrevisor men istället för att uppleva yrket som en små bolagsrevisor eller tvärtom så kan det påverka viljan att vara kvar i yrket Dessa två roller är även en potentiell aspekt som påverkar förväntansgapet dvs skillnaden mellan vad samhället tror att revisorn gör och vad hen faktiskt gör Dessa två roller kan alltså påverka samhällets bild av revisorn där revisionsprofessionen kan ha svårt att hålla sig vara oberoende gentemot dessa mindre klienter

**Handbook of the Sociology of Morality, Volume 2** Steven Hitlin, Shai M. Dromi, Aliza Luft, 2023-10-25 This handbook articulates how sociology can re-engage its roots as the scientific study of human moral systems actions and interpretation This second volume builds on the successful original volume published in 2010 which contributed to the initiation of a new section of the American Sociological Association ASA thus growing the field This volume takes sociology back to its roots over a century ago when morality was a central topic of work and governance It engages scholars from across subfields in sociology representing each section of the ASA who each contribute a chapter on how their subfield connects to research on morality This reference work appeals to broader readership than was envisaged for the first volume as the relationship between sociology as a discipline and its origins in questions of morality is further renewed The volume editors focus on three areas the current state of the sociology of morality across a range of sociological subfields taking a new look at some of the issues discussed in the first handbook which are now relevant in sometimes completely new contexts and reflecting on where the sociology of morality should go next This is a must read reference for students and scholars interested in topics of morality ethics altruism religion and spirituality from across the social science
