Light Without Fire The Making Of Americas First Muslim College:

Light without Fire Scott Korb, 2015-07-14 The story of America's first Muslim institution of higher education Zaytuna College In the fall of 2010 anti Muslim furor in the United States reached a breaking point capping a decade in which such sentiment had surged Loud angry crowds gathered near New York's Ground Zero to protest plans to build an Islamic cultural center while a small time Florida minister appeared on national television almost nightly promising to celebrate the anniversary of 9 11 with the burning of Korans At the same time fifteen devout Muslims quietly gathered in a basement in Berkeley California to execute a plan that had been coming together for over a decade to found Zaytuna College Where Islam Meets America It would be the nation's first four year Muslim liberal arts college its mission to establish a thoroughly American academically rigorous and traditional indigenous Islam In Light without Fire Scott Korb tells the story of the school's founders Sheikh Hamza Yusuf and Imam Zaid Shakir arguably the two most influential leaders in American Islam rock stars who tellingly are little known outside their community Korb also introduces us to Zaytuna's students young American Muslims of all stripes who admire indeed love their teachers in ways college students typically don't and whose stories told for the first time signal the future of Islam in this country From a heady theology classroom to a vibrant storefront mosque from the run down streets Oakland to grand ballrooms echoing with America's most powerful Muslim voices Korb follows Zaytuna's students and teachers as they find their place and their voice He ultimately creates an intimate portrait of the school and provides a new introduction to Islam as it is being lived and re-envisioned in America It's no exaggeration to say that here at Zaytuna are tomorrow's Muslim leaders

Scripture People Matthew D. Taylor, 2023-08-10 On 9 11 many Americans were introduced to an Islamic movement called Salafism the theological strand that includes Al Qaeda Since then Salafism an important and popular movement in global Islam has frequently been disparaged as Radical Islam or Islamic fundamentalism Scripture People is the first book length study of the embattled American Salafi movement and the challenges it has faced post 9 11 Matthew D Taylor recounts how these so called Radical Muslims have adopted deeply rooted American forms of religious belonging and values Through comparison with American Evangelical Christianity informed by his own Evangelical background and studies Taylor explores the parallel impulses convergent identities and even surprising friendships that have emerged between Salafis and Evangelicals in America Offering an entry point for understanding the dynamics and disagreements among American Muslims Taylor's volume upends narratives about Radical Islam by demonstrating how Salafi Muslims have flexibly adapted to American religious patterns in the twenty first century

Reasoning with God Khaled Abou El Fadl, 2014-10-23 In light of recent concern over Shari'ah such as proposed laws to prohibit it in the United States and conflict over the role it should play in the new Egyptian constitution, many people are confused about the meaning of Shari'ah in Islam and its role in the world today. In *Reasoning with God*, renowned Islamic scholar Khaled Abou El Fadl explains not only what Shari'ah really means but also the way it can revitalize and reengage contemporary Islam. After a prologue that provides an essential overview of Shari'ah, Abou El Fadl explores the moral trajectory of Islam in today's world. Weaving powerful personal stories with broader global examples, he shows the ways that some interpretations of Islam today have undermined its potential in peace and love. Rather than simply outlining challenges, however, the author provides constructive suggestions about how Muslims can reengage the ethical tradition of their faith through Shari'ah. As the world's second largest religion, Islam remains an important force on the global stage. *Reasoning with God* takes readers both Muslim and non-Muslim beyond superficial understandings of Shari'ah to a deeper understanding of its meaning and potential.

Sexual Ethics and Islam Kecia Ali, 2016-01-07 Whether exploring the thorny issues of wives' sexual duties, divorce, homosexuality, or sex outside marriage, discussions of sexual ethics and Islam often spark heated conflict rather than reasoned argument. In this updated and expanded edition of her groundbreaking work, feminist Muslim scholar Dr. Kecia Ali asks how one can determine what makes sex lawful and ethical in the sight of God. Drawing on both revealed and interpretative Muslim texts, Ali critiques medieval and contemporary commentators alike to produce a balanced and comprehensive study of a subject both sensitive and urgent, making this an invaluable resource for students, scholars, and interested readers.

The Revival of Islamic Rationalism Masooda Bano, 2020-01-16 In this book, Masooda Bano presents an in-depth analysis of a new movement that is transforming the way that young Muslims engage with their religion. Led by a network of Islamic scholars in the West, this movement seeks to revive the tradition of Islamic rationalism. Bano explains how, during the period of colonial rule, the exit of Muslim elites from madrasas, the Islamic scholarly establishments, resulted in a stagnation of Islamic scholarship. This trend is now being reversed. Exploring the threefold focus on logic, metaphysics, and deep mysticism, Bano shows how Islamic rationalism is consistent with Sunni orthodoxy and why it is so popular among young, elite, educated Muslims who are now engaging with classical Islamic texts. One of the most tangible results of this revival is that Islamic rationalism, rather than jihadism, is emerging as one of the most influential movements in the contemporary Muslim world.

Political Quietism in Islam Saud

al-Sarhan,2019-12-26 In recent years Islam whether via the derivatives of Political Islam or Islamism has come to be seen as an activist force in social and political spheres worldwide What such representations have neglected is the strong countervailing tradition of political quietism Political quietism in Islam holds that it is not for Muslims to question or oppose their leaders Rather the faithful should concentrate on their piety prayer religious rituals and personal quest for virtue This book is the first to analyze the history and meaning of political quietism in Islamic societies It takes an innovative cross sectarian approach investigating the phenomenon and practice across both Sunni and Shi i communities Contributors deconstruct and introduce the various forms of political quietisms from the time of the prophetic revelations through to the contemporary era Chapters cover issues ranging from the politics of public piety among the women preachers in Saudi Arabia through to the legal discourses in the Caucasus the different Shi i communities in Iran Lebanon Iraq and Pakistan and the G len movement in Azerbaijan The authors describe a wide range of political quietisms and assess the continuing significance of the tradition both to the study of Islam and to the modern world today

Gesturing Toward Reality: David Foster Wallace and Philosophy Robert K. Bolger,Scott Korb,2014-06-19 Asked in 2006 about the philosophical nature of his fiction the late American writer David Foster Wallace replied If some people read my fiction and see it as fundamentally about philosophical ideas what it probably means is that these are pieces where the characters are not as alive and interesting as I meant them to be Gesturing Toward Reality looks into this quality of Wallace s work when the writer dons the philosopher s cap and sees something else With essays offering a careful perusal of Wallace s extensive and heavily annotated self help library re considerations of Wittgenstein s influence on his fiction and serious explorations into the moral and spiritual landscape where Wallace lived and wrote this collection offers a perspective on Wallace that even he was not always ready to see Since so much has been said in specifically literary circles about Wallace s philosophical acumen it seems natural to have those with an interest in both philosophy and Wallace s writing address how these two areas come together

Islam and the Arab Revolutions Usaama Al-Azami,2022-05-01 The Arab revolutions of 2011 were a transformative moment in the modern history of the Middle East as people rose up against long standing autocrats throughout the region to call for bread freedom and dignity With the passage of time results have been decidedly mixed with tentative success stories like Tunisia contrasting with the emergence of even more repressive dictatorships in places like Egypt with the backing of several Gulf states Focusing primarily on Egypt this book considers a relatively understudied dimension of these revolutions the role of prominent religious scholars While pro revolutionary ulama have justified activism against authoritarian regimes counter revolutionary scholars have provided religious backing for repression and in some cases the mass murder of unarmed protestors Usaama al Azami traces the public engagements and religious pronouncements of several prominent ulama in the region including Yusuf al Qaradawi Ali Gomaa and Abdullah bin Bayyah to explore their role in either championing the Arab revolutions or supporting their repression He concludes that while a minority of noted scholars have

enthusiastically endorsed the counter revolutions their approach is attributable less to premodern theology and more to their distinctly modern commitment to the authoritarian state *Cyber Sufis* Robert Rozehnal,2019-08-01 In America today online spaces serve as critical alternatives for tech savvy Muslims seeking a place to root their faith forge religious identity and build communities With a particular focus on the Inayati Order a branch of the oldest Sufi community in the West Robert Rozehnal explores the online revolution in internal communication spiritual pedagogy and public outreach and looks ahead to the future of digital Islam in the age of Web 3 0 Creationism USA Adam Laats,2020-09-24 Creationism USA reveals how common misconceptions about creationism have led Americans into a century of unnecessary culture war histrionics about evolution education and creationism Adam Laats argues that Americans do not have deep fundamental disagreements about evolution but that they do have significant disagreements about creationism Creationism USA both explains the current state of America s battles over creationism and offers a nuanced yet straight forward prescription to solve them **Routledge Handbook of Islam in the West** Roberto Tottoli,2022-02-21 With new topics and contributions this updated second edition discusses the history and contemporary presence of Islam in Europe and America The book debates the relevance and multi faceted participation of Muslims in the dynamics of Western societies challenging the changing perception on both sides Collating over 30 chapters written by experts from around the world the volume presents a wide range of perspectives Case studies from the Muslim presence in the Iberian Peninsula between the Middle Ages and the modern age set off the Handbook along with an outline of Muslims in America up to the twentieth century The second part covers concepts around new conditions in terms of consolidating identities the emergence of new Muslim actors the appearance of institutions and institutional attitudes the effects of Islamic presence on the arts and landscapes of the West and the relational dynamics like ethics and gender Exploring the influence of Islam particularly its impact on society culture and politics this interdisciplinary volume is a key resource for policymakers academics and students interested in the history of Islam religion and the contemporary relationship between Islam and the West **Webster's New Explorer Desk Encyclopedia** Merriam-Webster, Inc,2003 This unique single volume encyclopedia provides essential information on art business computers religion science technology and more Created by the Editors of Merriam Webster and Encyclopedia Britannica and written in a clear easy to understand style this all new volume fills both school and home reference needs The Encyclopedia Britannica James Louis Garvin, Franklin Henry Hooper, Warren E.
