

Chapter 10: Systems of Linear Equations in Two Variables

Graph the following system of equations:

1) $2x + 3y = 6$ or $y = -\frac{2}{3}x + 2$

2) $x + y = 4$ or $y = -x + 4$

Graph both lines on the same coordinate plane. The solution to the system is the point where the two lines intersect. In this case, the solution is $(3, 0)$.

Example:

1) $2x + 3y = 6$
2) $x + y = 4$
3) $x - y = 2$
4) $3x - 2y = 12$

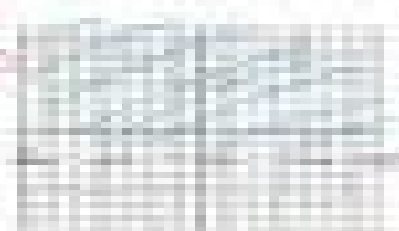

Graph the following:

1) $2x + 3y = 6$

2) $x + y = 4$
3) $x - y = 2$
4) $3x - 2y = 12$

2) $x + y = 4$

Raising Generation Tech Jim Taylor Ph.D, 2012-08-01 Today's children are being raised as digital natives in a world dominated by popular culture and technology TV shows computers video games social networking sites advertisements and cell phones too often have an unnecessarily strong and negative influence on children But pulling the plug just isn't an option in a world where being connected is essential for success In *Raising Generation Tech* noted parenting and new media expert Dr Jim Taylor explores how popular culture and technology shape children's lives The essential message from *Raising Generation Tech* is that excessive or unguided exposure to popular culture and technology is not good for children Rather than offering the usual end of days scenario Dr Taylor offers a balanced and optimistic perspective that offers parents insights and practical information they need to ensure that popular culture and technology are tools that benefit their children rather than weapons that hurt them

Six Messages From *Raising Generation Tech*

Popular culture may be the powerful influence on children today and most of that influence is not healthy to children Children are being exposed to technology earlier than ever without proper limits or guidance Excessive exposure to popular culture and technology has been linked to many childhood problems including shorter attention spans lower grades in school increased sexual activity and drug use and obesity Too early and unguided immersion in popular culture and technology will actually hinder rather than better prepare children for life in the digital world Key areas in which parents should focus their child rearing attention include their children's self identity values thinking relationships and physical and mental health The goal for parents is not to disconnect their children but rather to expose them to popular culture and technology when they are developmentally ready and then give them the perspectives attitudes and tools they need to thrive in this digital age

Raising Generation Tech argues convincingly that children should be raised by their parents not by popular culture or technology Dr Taylor tackles this difficult task with state of the art psychological theory the latest research engaging anecdotes and a healthy dose of sensitivity and humor

Raising Generation Tech is a must read for parents who want their children to thrive in this media fueled world which means all parents
