Smart,2012-12-06 To recapitulate Greeks differ from Independents and from the academy s value priorities but for the most part these differences derive from antecedent characteristics Moreover there are some grounds for speculating that these antecedent differences reflect fundamental temperamental differences extraversion and gregariousness mediated by social interaction as opposed to interaction through ideas Only to a limited degree does the Greek system appear to adversely affect the acquisition and assimilation of the academy s value priorities i e students as a whole Greek and Independent alike appear to become more independent liberal socially concerned and culturally sophisticated by graduation However the Greek system s effect on the behavior of Greeks is more troubling an effect largely mediated by the use and abuse of alcohol and the relative absence of direct institutional supervision Assuming the retention of the Greek system then the promotion of the academy s agenda appears dependent on an understanding and accommodation of the personal characteristics of Greeks using appropriate pedagogical methods to advance the academy s educational objectives and both educational and administrative regulatory efforts to control the use and abuse of alcohol With or without the Greek system the advancement of the academy s agenda involves these considerations since the characteristics of students as a whole encompass the characteristics emphasized among Greeks *Social and Emotional Aspects of Learning* Sanna Jarvela,2011-01-07 Social and emotional aspects of schooling and the learning environment can dramatically affect one s attention understanding and memory for learning This topic has been of increasing interest in both psychology and education leading to an entire section being devoted to it in the third edition of the International Encyclopedia of Education Thirty three articles from the

Encyclopedia form this concise reference which focuses on such topics as social and emotional development anxiety in schools effects of mood on motivation peer learning and friendship and social networks Saves researchers time in summarizing in one place what is otherwise an interdisciplinary field in cognitive psychology personality sociology and education Level of presentation focuses on critical research leaving out the extraneous and focusing on need to know information Contains contributions from top international researchers in the field Makes MRW content affordable to individual researchers

Theories of Mathematics Education Bharath Sriraman, Lyn English, 2009-10-13 Advances in Mathematics Education is a new and innovative book series published by Springer that builds on the success and the rich history of ZDM The International Journal on Mathematics Education formerly known as Zentralblatt für Mathematik One characteristic of ZDM since its inception in 1969 has been the publication of themed issues that aim to bring the state of the art on central sub domains within mathematics education The published issues include a rich variety of topics and contributions that continue to be of relevance today The newly established monograph series aims to integrate synthesize and extend papers from previously published themed issues of importance today by orienting these issues towards the future state of the art The main idea is to move the field forward with a book series that looks to the future by building on the past by carefully choosing viable ideas that can fruitfully mutate and inspire the next generations Taking inspiration from Henri Poincaré 1854-1912 who said To create consists precisely in not making useless combinations and in making those which are useful and which are only a small minority
