The Home Medical Library, Vol. 5 (Classic Reprint) Kenelm Winslow, 2015-07-01 Excerpt from The Home Medical Library Vol 5 The character and scope of this volume render it a most useful book for the home maker The question of sanitation is one that closely affects the life of each individual and many of its aspects are treated here in a lucid and comprehensive manner Designed for wide distribution these articles have been written to meet the needs of the dweller in the more densely populated communities as well as those living in the less thickly settled portion of the country In large cities the water supply is a problem that is cared for by regularly constituted sanitary authorities Pure water is a vital necessity but the inhabitant of a city has no need to personally concern himself with the source of supply In the country however the home builder must often decide the matter for himself and it is the aim of this book to give him the needed directions for avoiding many errors and pitfalls that abound in this direction House construction with its intricate problems is also a more serious matter for the country dweller than for his city brother In the matter of food supply the inhabitant of a country district is more fortunate About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

The Home Medical Library, Vol. 2 (Classic Reprint) Kenelm Winslow, 2018-03-21 Excerpt from The Home Medical Library Vol 2 The immediate treatment which may cut short the trouble consists in bathing the eyelid for fifteen minutes at a time every hour with a hot solution of boric acid half a teaspoonful to the cup of water Then at night the swelling should be painted with collodion several coats being careful not to get it in the eye as it would cause much smarting If the styne persists in progressing bathing it in hot water will cause it to discharge pus and terminate much sooner About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing
