Homeless In Paradise A Map Of The Terrain:

Homeless in Paradise Rob Rosenthal,1987 Homeless in Paradise Rob Rosenthal,1994 Homelessness Neil Larry Shumsky,2012-01-16 This book presents an unflinching investigation of homelessness in the United States a problem that has been with us since the arrival of the first English settlers nearly 400 years ago The terms historically used to describe them include bums hoboese migrants street people transients tramps and vagrants Just as varied as the words we have used to describe them are the reasons many people have found themselves living in the land of opportunity without permanent residence The book considers homelessness and its distinctive character in three periods of American history the era of tramps and hoboese in the late 1800s early 1900s the era of transients and migrants in the 1930s and the era of homeless and street people in the last 40 years It clarifies the multiple meanings of the word homeless today and demonstrates that homelessness is a symptom of more than one problem leading to confusion about the issue of homelessness and hampering attempts to reduce its occurrence Author Neil Larry Shumsky PhD also postulates that the treatment of homelessness in England before the colonization of North America laid the foundation of pervasive American attitudes and practices

Publications Relating to Homelessness United States. Department of Housing and Urban Development. Office of Policy Development and Research. Division of Policy Studies,1990 **Homeless Not Hopeless** Edna Molina-Jackson,2008-08-28 The importance of moving toward a national policy to end homelessness is crucial In this striking examination of the roles that homeless people and the U S government play in causing and curtailing the escalating phenomena of homelessness Edna Molina Jackson asserts that there is a great need to alter the socio economic structures that generate extreme and entrenched forms of poverty that lead to homelessness Homeless Not Hopeless explores the role social networks play in the daily survival of homeless Latino and African American men Using a qualitative research design author Molina Jackson observes how these men initiate participate in and maintain social networks and how these networks function The findings support a more empowering view of homeless men as active rational and competent actors engaged in negotiating their social world Members rely on social networks composed of a hierarchy of casual and intimate affiliations The networks of Americanized Latinos and African Americans facilitate their integration into a subculture of street life while those of recent immigrant Latinos revolve around their struggles to find work avoid deportation and enlist the support of paisanos

Educating Homeless Children Rebecca Newman, 2019-01-22 Newman's ethnographic study considers the ways in which the family and school environments of eleven homeless school children affected their school performance. Homelessness is revealed to be multifaceted, serving simultaneously as a cause, result, and potentiator of their families' problems. A variety of initiatives in the realms of policy research and practice are suggested for addressing the problems of these youngsters as well as the problems of the many other extremely poor school children. First published in 2000, Routledge is an imprint of Taylor & Francis, an information company.

Paradise Laborers Patricia A. Adler, Peter Adler, 2018-08-06 Resorts have become important to American society and its economy; one in eight Americans is now employed by the tourism industry. Yet despite the ubiquity of hotels, little has been written about those who labor there. Drawing on eight years of participant observation and in-depth interviews, the renowned ethnographers Patricia A. Adler and Peter Adler reveal the occupational culture and lifestyles of workers at five luxury Hawaiian resorts. These resorts employ a workforce that is diverse in gender, class, ethnicity, and nationality. Hawaiian resort workers like those in nearly all resorts consist of four groups: New immigrants hold difficult and dirty, low-status jobs for little pay. Locals provide an authentic Polynesian flavor for guests; a ready pool of youthful, high-turnover employees; and a population trapped in a place that offers few occupational alternatives. Managers tend to be middle-class, college-educated, young and middle-aged men from the mainland whose lifestyles are occupationally transient. Seekers, mostly young, white, and from the mainland as well, escape to paradise seeking adventure, warmth, extreme sports, or some alternate life experiences. The Adlers describe the work lives and careers of these four groups that labor in organizations that never close, with shifts scheduled around the clock and around the year. *Paradise Laborers* adds to the growing interest in the global flow of labor as these immigrant workers display different trends in gendered opportunities and mobility than those exhibited by other groups. The authors propose a political economy of tourist labor in which they compare the different expectations and rewards of organizations, employees, and local labor markets.
